Good morning

I hope you're doing well.

1553th Tianxin Garden is sincere all night

Summary

Report from Kami Nippon Shokuchi: I didn't understand the value of Tenshin-suri, and I thought it wasn't necessary to release the central spirit, and I had an arrogant heart that I had finished all of my ancestors and achieved it through my own efforts. In the middle of this, difficult things started to happen in the household, and when I asked my ancestors about the reason, I prayed to them, the ancestors said, "I hope you will go to church and devote your devotion all night every day." Your ancestors want to help you but can't help you. We need diligence to help us stronger. Obey your true mother, for we will surely help you. " and the answer was. According to the wishes of the ancestors, two weeks ago, he devoted himself without fail for a single day, fasted for three days, discharge the central spirits, offered a book of devotion, and participated in a weekend training session, and the problems in the household were solved one by one. As I prayed a prayer for my family, I heard from my ancestors once again, "The conditions

for resolving family problems are in place, so it is well without any more prayers." In turn, I ask that you pray for those struggling families. "and got a call. When it was 8 months since I was up all night, I was informed that my father's heart stopped and his body had stiffened and died. "The power of prayer is stronger than the power of the hand." You must withdraw your spirit by praying in the view of the Messiah of the gods. "I remembered the words of Sachinaga. Trusting Tenshinzai's grace that makes the impossible possible, I decided to try as far as I could, and when I laid my hand on my father's heart and prayed for separation of spirits, he began to breathe after a while, and by the time the ambulance arrived, he was back to his normal state. When I went to the hospital for tests, cancer was discovered, but after a year it hadn't shifted or worsened, I thought it was the result of the benefits of medical angels, Tenshinsai Seishin, and a book of sympathy contributions. My mother saw my father's life, and then she couldn't oppose the church. After that, I was recommended by a local member as a member of the Welfare Commissioner, so I proved that I was a member of the family association, but he said, "I've been watching over you for more than 10 years before, so I'm fine." and trusted me. Since the Commissioner is a quasi-civil servant who cares for the area's 400 cases, I thought there was one condition that the city would accept the Family Union. "My true mother, please return to the palace quickly." I will take care of the second and third generation of Kagoshima until the end. Nothing to worry about. " sent me a message.

If you live boldly, truthfully and enthusiastically, the world will testify, and the phase of the family association will increase. GPP trainees are also working hard to create the environment in Kahira. As soon as possible, there must be an environmental area in which the residents of Kahei County and all the citizens of Korea respect Holy Mother Han, who lived through her noble life, will pound, crush, and cry, "Please forgive me." It is by our truthful life being moved by sharing the blessings to those around us.

Proof of Spiritual Shugensho: He grew up with a father who was a public official and a mother who gave

birth to eight children in the 2nd generation of 30,000 twins. Through the younger brother and younger sister who were away from the church, he understood the sorrowful feelings of Heavenly Father, and when he decided to make sure that they would come back, he tried to pray diligently, and miraculously, the younger sister came back and participated in the principle training session. My brother must come back too.

Today's reading: "You must pray every day." He spent one tenth of the day praying, usually for 12 hours, and in his prime, he forgot to eat lunch for 17 hours, 18 hours a day, and lived in a position where he was prayed. In that way, although all four sides were blocked and there were no holes to produce, I was able to see the needle-like holes and search for the principle. and asked if I had ever embraced the principle and cried. We must live through this principles and grasp this golden age.

"A lifetime is important, once it passes, it never returns. She married and gave birth to a son and daughter, and she carries her baggage on her back and pulls a wheelbarrow and rows, and it ends. The world of goodness doesn't come to you if you live like it. Serious. "Therefore, senior families in the early days walked the path of blood, sweat, and tears in search of the whole world for the kingdom of heaven, even at the expense of individuals and families. When your will is fulfilled, you who will stand on the platform and have treasures that all the people will envy. We too must do all our sincerity and enter a state where tears and fangs are met. If you follow the normal path of doing your best with such standards, your sons and daughters will be born with the great fortune of the Unification Church. Even if you lack your father and mother, you will be born with heavenly fortune. The destiny of your future descendants depends on whether you have devoted loyalty and honesty to your country and the world.

If Japan is dissolved, do not despair, but do your best to impress the country, the world, and the heavens, people with great fortune will emerge. God is with us when we are in a position to live for the world, nation and peoples. Looking for a broader and higher love is the way to go in the bless family. Families with little sincerity lead to the unusual roads, leaving behind decline. Let us be a blessed family who works hard so that we can follow the normal path due to the responsibility of our parents. Make Tenshinni prayer rooms for each church and every home, and live in the shadow of your true father and mother, and you will definitely be able to take your way through the good fortune. Heaven gives revelations, reveals words, and guides. Believe that the days of miracles await us when we make a thousand years of work a day.
