where the joy of Life begins, True Parents Holy Wedding and First Year of Cheonil Sanctum, we will welcome all coming...

The Heavenly Parent Who gave the 3 Blessings, but because of the human fall, the Heavenly Parent could not receive the joy of creation. After 6,000 years on March of the HC 1960 True Parents Who established the tradition of the family centering on Their Family, having walked the path of true love, of BT and S and liberating both SW and PW and True Parents paid all the indemnity and have become victorious.

After Father's Ascension, True Mother offering the 1,095 days and showed the Example of what the Heart of Hyo Jeong and True Love is, becoming absolutely One with True Father in the SW and ending the long history of indemnity and opened Cheon Il Guk...

The Path True Mother walked was the sandstorm along where she never gave up and set the Example that True Love will bring absolute Victory. Our True Parents opened the Course with Their Tears and because of Them, we have been reborn.

Cheon Shim Won is the Place to be reborn with new life, where True Father and HyoJN and HeungJN and all AGSs have become one to bestow the grace of Heaven... the greatest Key to perfect the Providence is HMH True Mother, and that is supported through the GWs.

First Anniversary of Cheonil Sanctum and when Heavenly Parent has come down to the earth and They have come to fulfill the Purpose of Creation. Through this vigil, the earnest prayer with tears will move

the H Throne. True Parents becoming one with Your Heart, we gave You hope, the Dream of HPs, the Light of Hope, born through True Parents's Love guides us to the new hope for humanity. Heavenly Parent is with us and working through us. We have witnessed as 144,000 have gathered to become one, we have witnessed such victorious moment when the Great Work occurs.

Amidst the darkness, Heaven's Light of Creation to begin anew illuminates the right path for the entire world, the praise and glory... True Parents Who must receive it, we truly congratulate You for the Holy Wedding and Cheonil Sanctum Entrance.

2nd of one son and 3 daughters... Through this time, I who had no great interest in the church came to stand here having learned how I should live as BF. I followed my parents, and while I did not rebel greatly, neither did I believe well either, just assuming that since my mother said it was right, it was right.

But I began to question why my mother likes True Parents that much. With my mother's suggestion, I attended the Workshop, but with the way they were shouting while praying, it seemed like a cult. How would I endure, but when I went to the Tree of Blessing, there was warm light on me and a voice in my heart, 'Welcome... I have been waiting for you'

I had conviction that Heavenly Parent was really here and I wanted to know more and came to know True Parents truly as my and our Parents. I also entered 40-day Workshop for the wives and Academy.

I had an interest in the Blessing but no earnestness, but I came to realize that Heavenly Parent wanted a family and live together with them as the 4-position foundation, and a desire arose to fulfill that Dream

I met my husband and received the Blessing in 2025. Afterward, I went to Attendance Workshop, hearing that I must attend those around me just as I attend Heavenly Parent and True Parents and I heard those Words well and resolved that attendance.

PL called my name, Jin Ji yun, now that you have received the Blessing, attend to your husband well and have the Heart of attending True Parents. I took role as leader and my husband as a vice leader, grateful for it, but then I had a argument with my husband who did not understand why I was working so hard.

I avoided him, thinking he didn't trust me. I avoided him, and then he said he was joking, but he would not even hold my hand and I went and prayed for Heavenly Parent to speak to him. We met someone while walking who said True Father said a couple must not walk without holding hands, you two hold it tightly and then she left. This showed me that when I prayed, Heavenly Parent was truly listening.

My husband and I spoke again to understand each other's position, but there were still problems after that. Perhaps he had difficulty from his wounds of experience. Instead, of attending and loving him like True Parents, I was judging him by my own standards and not attending him at all. Wishing for my husband to change, I thought I should change first and understand him from his experience. I began to try to understand even small things with him, speaking more softly, approaching him first and reaching my hand out first.

This was not easy for me, but I could feel the relationship slowly improving by trying to love until the end. Even I returned to judging, I asked myself, am I truly focusing on attending the Teachings and Direction that I received with Hyo Jeong.

I will continue to practice to become a Blessed family with the Love that Heavenly Parent desires and I conclude... I sincerely love You Heavenly Parent and True Parents... TY

I want to share how this place healed my heart. I have always been someone who wants to please others, doing what I didn't really want to do. I wanted to keep my younger siblings connected to the church so as not to make my parents sad. I became a Sunday school teacher, because if not me, who would.

My biggest decisions were not really my own, as receiving the Blessing. I saw how much they wanted it for me was why, to please their heart.

During the matching, things seemed fine at first, but we really couldn't connect. I tried to keep the Blessing but eventually we had to break it. Afterwards, I didn't want to receive the Blessing again, convincing myself that I just didn't know how to love someone, and carried that belief.

For the past two years, I worked without stopping. In Japan, colleagues at work asked me to go out drinking with them. At first I did not go, but the pressure built up and it seemed a place to relieve stress, but I did it more and more just to keep the initial feeling of release.

One day when I drank I started thinking of my mother, and it became a source of shame, and dark thoughts of killing myself that then the loneliness would disappear, and then I started hurting myself physically.

However, I couldn't kill myself, not because I was afraid to die, but for how much it would hurt my parents, so I hurt myself instead when the thoughts of killing came.

Then one day, I had a sudden realization that this body belongs to Heavenly Parent. It is not mine. Realizing this, I cried and cried with repentance. So, I started to pray, but not with a peaceful heart, but with anger, asking, 'Why was I born as a 2nd gen? Why wasn't I born as a normal person?'

I found through that pray something unexpected (sound went way down) Even though I knew what True Mother had been going through, I had spent too long as a bystander and neglecting our church and our True Mother. At that moment, I felt ashamed, 'Why hadn't I done more, tried harder to understand Her Heart' and to understand True Mother more, I decided to come here.

When I arrived, first that was difficulty was to connect to people. I was shy to reach out and waited for others to come to me. But one day I realized that waiting like that would take me nowhere. I pushed myself to greet others and start a conversation. I began to feel a sense of accomplishment every time I connected with others.

One time while walking to the Tree of Blessing and Korean sisters around me began a conversation that continued while walking up and down... I realized that once we open up, we truly are one family.

Another difficulty was prayer, envying others who could cry out to Heavenly Parent with longing, but this changed when I attend Cheon Shim Won in person. I had always watched online, but in person I felt a very warm energy that got hotter and hotter.

As the young b and s offering devotion, I started to sense and feel their heart and emotion. I was resonating with them. I realized that my prayer has always been centered on myself and my family. That is why I couldn't understand True Mother's Heart. From then on, I prayed to understand True Mother and Her Heart, and the power of my prayer grew. My face turned red, and each time pouring out my sincerity, my body felt lighter and now I cannot pray without tears anymore.

In the Philippine a strong sense of community is there. I know many members felt a loss of that community, and when I go to Japan, I want to help rebuild that sense of community. To strengthen my relation with Heavenly Parent and True Parents, I will join the Yeongseong Workshop, this time not just to please others but to learn to truly love. applause

True Mother, I am a lacking daughter, but I am here, and I will not give up. applause

I love you Heavenly Parent and True Parents. TY

HJ Report

Director of the Counseling Center

Kim Myung Wok

Hello everyone. It's nice to see you all. Today is such a wonderful night. Tomorrow we begin the spring

break for 3 days. I want to share what is going on for the optimization of Cheon Shim Won...

True Mother's Words: In order to give birth to fallen children to be good children, True Father must be with True Mother. The Person of True Mother is the Holy Spirit. What has God been doing for 6,000 years for what one wish? It is to find a Mother. After re-creating Adam, through Him, God wants to find True Mother.

Because Father knew about True Mother, that is how True Father could give these words. And through these Words, we can find out how we can attend our True Mother. Even if I am alone, I am on behalf of the Parent, and if She is alone, She is on behalf of the Parent. This is why Heavenly Parent gave the Words Heavenly Parent did. I am the first Leader of the Unification Church (said True Father) and True Mother is the second, and we are not horizontal.

There are many husbands in Korea, until now the husband would say 'uhm uh uhm...' in order to call the wife. And the wife would say, 'What do you need?' And he would say, 'Give me water'. But nowadays, the wives make this sound. So, I believe we are not yet being as the horizontal and equal world, way, and I believe we are still waiting for that moment to come. (didn't understand this last part well, will try to follow up more on it with the screen shot of the Korean words)

When women make the sounds '...' only the sons and children would come. So, I hope we can follow True Parents's Word to make this realized.

On May 8th in 2010 at 2:20 and May 3, 2025 (?) True Father had to wake True Mother up in order to proclaim absolute oneness of True Parents. And They have completed. And also, True Parents proclaimed one more time on Nov. 7th of the Heavenly Calendar, the Final Proclamation that all of the Providence has been completed and fulfilled.

And True Father said that if there is someone who would deny what I have done on May 15, 2010, then you would go to the bottom of hell. And I believe there are many, many people who want to believe what they want to believe.

When I was preparing to give Hyo Jeong, there was a daughter who was watching the negative news, and she was influenced by spiritual problems. And that daughter had to come to 40-day Workshop. And by

attending, the grace and love of True Mother started to wash that negativity away. And looking at her, I truly hope all the members can come and attend at the TC.

True Mother said that in order to attend True Parents and complete True Parents, I risked My Life to give Birth to 14 Children, and those who have not given birth to 14 children cannot judge True Mother. I have only given birth to 4 children. And I have no right to judge our True Mother (which no one has the right to judge True Mother anyway.)

Our True Mother gave birth by C-section to four children. Our sisters who gave birth wonder how True Mother could give Birth also to 14 children. We could not imagine bearing it. And True Mother has walked a Course for 53 years during such times of hardship with True Father, and She never spoke complaint even once. She just followed and assisted True Father.

Thin about the moments when True Father kissed True Mother on the stage. True Father was so happy to see True Mother and gave a kiss to True Mother. Did True Father Love True Mother with any kind of a fake love. He kissed True Mother so preciously. And I hope you can think about how Father would feel if you talked negatively about True Mother.

Now True Mother's hardship in the DC at 83 years old is saying not to worry about Her. Normally, an old grandmother of 83 would cry that they are about to die, please to get them out. But True Mother (of such dignity and peace inside) (worries about us and tells us not to pray for Her but for the BF's to fulfill for the nation and world.) True Mother says to offer prayer and devotion for you, your family and the church. That's what True Mother tells us while she endures such difficulty and patiently and quietly waits for the Day of Victory to come. That's what we all are witnessing.

When True Parents opened the HJ o H and E TC, They have proclaimed that this is the Place where the big crowds of people will come. And They have progressed the CheonBo Providence, the 3 stages:

First Stage for liberation of ancestors.

Second Stage: HeungJN and DMN assisted.

Third Stage: The Cheon Shim Won has been organized and now centering on the Substantial Holy Spirit,

True Mother, all the SW work has come. And after the 3 years of devotion, She said that True Father and True Mother's Thought are the same. And afterwards, She progressed the 7-year Course and eventually made the victory of 2020.

And now, we have come into the 2nd 7-year Course after the FD. And I feel like we are in another growth period. And in a way, that is why True Mother is facing such difficulty.

I truly believe that once we overcome this 2nd 7-year course and go into the 3rd stage, that is when we will be able to unify Korea. So, True Mother allowed the Cheon Shim Won Providence to be open.

True Mother's Words: I can say the Cheon Shim Won Providence is so important to become the root of your faith that never wavers. You should experience it by yourself. Why is Cheon Shim Won prayer important? We have to expand the environment for Heavenly Parent and we... You must ask True Father in the SW to mobilize. Do you understand? That is True Father's Wish and that is humanity's wish.'

True Mother's Words:

'If you deny the Messiah, you will be forgiven; but, if you will not be forgiven. This is the last time for salvation. If you deny the last, how can I forgive. That is why I am preparing Cheon Shim Won as the Place to nurture young people who are like pure water who can connect to Heaven.

PL must take that responsibility in order for the One Family Under Heavenly Parent, for that future, there's no room for the impurities to come in.'

With this, True Mother directed us to hold Cheon Shim Won devotion, and to come this far, to the 1,554th Cheon Shim Won, PL has been putting everything and only centering his life on True Mother. Because of his devotion, we were able to lay this foundation.

When we asked PL, 'Why don't we just do the CY yoksa for only ten minutes?' We didn't used to hold the CY for free, and I believe holding it for free in itself is abundant grace.

One brother with a disease, a pastor, and only by attending ten minutes of CY every night, he was able to heal. And when we see 2nd gen shouting so loudly and passionately in resonance prayer, how can we as

1st gen or as other members, just pray quietly. Through one-heart resonance prayer, we were allowed to offer it and it really reached Heaven, while members received new realization and enlightenment. It is the miracle.

True Parents have been telling us that there are the central spirits in our body that we must liberate and clear from us. True Father has emphasized that everyone must attend 120 days of the Workshop.

So, our brother Pak Jon min had a psychological disorder and has been living at home and couldn't speak at all, he attended Workshop and became better and better, as I shared many times.

another missionary person, she is only in middle school, skipped school to come and give devotion for True Mother and that the testimony of the brother is amazing. He went to Capyeong for witnessing and here is how earnestly he prayed... clinging onto Heavenly Parent and offering this prayer, and during the HJ Weekly...

'I told you that you were normal or how could you suddenly be normal or suddenly have this mental problem losing such weight, but HL bought him a suit and gave allowances and embraced him with love. PL came to me and said that I must Bless him. right after that Cheon min's current wife came and said she was afraid that someone would take him before her, so she stepped up.

Then Cheon min did the service and asked do do more here and we asked PL who said yes, let him work here. He is diagnosed with the psychological problem, but by working here, we will benefit. And whatever I ask him to do, he does it. And PL said to teach him, but I have nothing to teach him. He is learning well himself.

True Mother said, 'You are my small needles.' and 'You are my direct children' applause for all of those who received the Blessing and are direct children.

Pak Jun min's wife was there when I went and there was a woman like Yokoi and here's the video. Just like this, she was leading so earnestly. I thought through her voice she would break down the church,

even she had a mental problem before also. The camera goes to Cheon min,

another sister and brother cured and healthy now... parents have more hope for the children because they are able to rest better... and they are resolving to fulfill the ancestor liberation and blessing...

dream where he pulled away from temptation and he received an alarm and had repentance and gratitude spirit with courage and conviction to rise up and be active at this time that has ripened... listening to the lecture

the average of dark spirits in us attached is 320. True Father said we must liberate 5 stages of spirits. You need Cheon Shim Won devotion, SS, tithing and all that is told by True Parents... The spirit that causes fallen nature and actions without realizing we have with people around us.

How can we practice a life of faith? True Mother and True Father said to follow all the ways to liberate the influential spirits with resentment... All must do the GW's work of liberation, and if not, there are always vulnerabilities for problems in the family...

Through the devotion of 120 days we are changing from the scary sounds and jerking around from the central spirits. She is writing down a letter to the spirits. I told her she must liberate ten spirits. She said, 'Oh, ten spirits are in me' And I said she must register for more liberation of spirits... She tries to write on the paper with the shaking hand... 'DMN is together with you and she will help.' Seeing that there is not conditions for such liberations, the spirits are very strong but after the devotions and conditions, she came back normal...

another was eating the noodle that the spirit liked to an extreme and expensive extent, and by stopping eating it even for a single day, it made a change and together with the wife's condition

And by shouting and crying and repenting the spirit and the illness can go away. Even the person with the Parkinson's. And another sister with Parkinson's, it took an hour to come and on the 3rd day, she could go to the Tree of Blessing (even with the Parkinson's, and then they got better)

another, the couple, I told them that they must continue and do all conditions because you never know when the Parkinsons will want to come again. And I told him to go to the gym and workout hard.

Last year, in 2025, the psychology doctor said that Kangnam is like a psychological ward, and the brother Ming nam... His father does not go to church and does all the drinking and smoking and his brothers same and only his mother kept faith and devotions.

I told him that he must offer prayer and devotion or I would not give him ansu. Then he did and he stopped murmuring, but when asked, 'Do you believe in Divine Principle and True Parents and he said no' and I said, 'How dare you, after we healed you.' And then the spirits came back, and then he started to do what I said and listen to Divine Principle and he got amazingly better...

PL loved this story and reported to True Mother, and because of him I could receive such grace to meet True Mother and receive a present from True Mother. True Mother said DMN's work is fulfilled through you, and She gave me the purple clothes. Touring was so difficult because my stamina was weak, but True Father said, 'This is the message True Father gave and True Mother gave to give. And you are not touring by yourself but your own mother is with you. With your mother, tour well.'

Her mother received True Mother's mission and is walking the lonely path (Kim myung wok's mother)... And I shared that I received the message so clearly from my mother.

After True Mother was detained PL lost so much weight and could eat or swallow, and when I brought the tea, even he couldn't drink it. I must resemble PL and be a leader like him. The past 4 years, he never scolded me but told me just to do it and allowed me to grow and I could receive the strong training to step up to people and give the lecture like this.

PL has been saying we must create the psychology major. True Parents's Words: What kind of education? Education of love that makes husband and wife one.

True Parents have been telling us to bestow such grace of the HJ Offering Paper. This brother Anhoyle did the HJ Papers and calling out, and he couldn't sleep without going to Hyo Jeong Town... applause

Our branch Leader after writing HJ Paper, all of his sons went to Workshop and did the missionary work and our brother is working so diligently. The family is the very important school of love. Children receive only through the parents of the family realm to perfect their character.

The one sister almost dies, but started attending the 21-day Workshop and she finished her offering for the Sanctum.

True Father: In the SW, I will be responsible for you. This is the Blessing grace and promise.

This parent said she does not have the power to take care of children. I asked if there was an ancestor with her that could not be married, and they were able to give liberation to them... The True Parents are those parents who are born for the children, who live and die for the children, and that son, their parent is the parent of love, of true happiness and parent of peace...

I hope this for you...

Tomorrow will be 1,555, and that '5' sounds like 'oh', so as you prepare this great work, truly a lot of b and s have prepared their devotion. And when I look, the Continental Directors also came back to Korea, Michael Balcomb Heavenly Europe and Middles East Continental Director, including him and African and Taiwan President and Branch Leaders, almost all of them came back to join the GWs...

During this GWs, we are truly setting a new record. When I checked, more than 144,400... so we surpassed it already... Even now people are registering and the number will rise...

Korea 23,878
Japan 87,161
International 33,428

and all numbers still rising

Middle East 4,864

Dr. Balcomb shared that in his area, they reached 10,000...

H Asia 3,300

W Africa 13,700

E Africa 1,006

H and Central 6,000

Taiwan 1,008

And gathered globally for Cheon Shim Won are 42,700 gathered...

And every night they are counting and reporting their devotion...

In front of the DC, earnest devotion and truly our Mother will be released. Through this GW, I hope for the big condition that all give sincerity into....

testimony today... She attended and brought her husband... and she served as vice coordinator. And asking Heavenly Parent to speak to her husband and Heavenly Parent borrowed a older sister to come and speak

to her husband... I hope all can learn from her and live a happy family life.

After facing the pain of divorce our sister turned to the job and the secular world. As she harmed her body instead of killing herself, and then received realization that her body is not her own but is Heavenly Parent's... and then going to the Womb of CP rebirth that she testifies to.

Director Kim Myung-wok introduced the core contents of grace for our greater belief, and she has become a person of faith and revival... Through her contents, Heaven can work..

We have majors of spirituality and counseling, and some going through the PHD program... and we can educate and people in the Braches can send people. If we can do that, we will spread throughout the world. This is the era of spirituality, where materialism does not take control. Because once you know the love, you start to compete for the love, not money and things with steeling and robbing.

We must each people about the SW, and only then we can fulfill this era of spirituality, attending Cheon Shim Won diligently and moving forward with miraculous events, and I am certain we can watch over the world... Those who have the spiritual senses, they are testifying that such spirit is spreading throughout Korea, and I believe the core of the testimonies are Cheon Shim Won...

I am grateful our leaders have come. When you come here for a long time the leaders are very tired, but this attendance shows how sincere and truthful they are... applause

True Mother told us that we must create a book of Cheon Shim Won Providence... (He shows the Book that is in different languages)

cheonwon Publishing Company will also sell this with Mother's Words and testimonies. So, please buy and read it and testify about Cheon Shim Won to the world. As the entire SW mobilizes to work, this is the night before GWs and I can see in the back there are photos of spirits offering prayer and devotion together. Truly in the SW, they are preparing to work, but only when the physical world sets the right condition for them to come down can they work, and then we receive abundant grace of many members pouring out their testimonies. So, for that please offer prayer and devotion tonight.
