Most Respected Heavenly Parent

Beloved True Parents of HEH

In the H Prov history True Parents have been longing and enduring the entire sense of the humanity, walking the path of the burden. We offer our praise and devotion to Them. This year and month we were able to go through the Spring GWs, and this is not just a great record, but we were able to connect to the Ambilocal Cord of True Mother and let our hearts beat with True Mother's so that Her Pain and Joy is

also our, and bring our victory for Hers, with Shimjeong, let our hyojeong not just overcome not just our individual trial but H's trial and see the miracles we believe in.

We were not able to become one, but now let us feel unity and offer the substantial fruits for Cheon Il Guk settlement to True Mother, and commemorating the First Entrance Anniversary, not just external heart but internal sanctum of ourselves, and we hope True Mother will be comforted by this number of gathering. Let there be praise and worship of the entire world people, under the umbrella of our True Mother, and we dedicate once more.

Through our devotion, let us see our M's return to the Palace...

Let us do our best to resonate with the Will of True Father and True Mother in the SW...

True Mother has been giving so much devotion for us to open a new way... These are our members... We have a big TC, even it's old thought, and we need to maintain it, with a lot of rain and grasses...

33 countries, 5 districts, centering on Brazil, Dominion Republic and Caribbean District

True Father: I miss everything about Jardim. The filling of the hot air. Discomforts felt nothing, but important is that this place can serve the world in vital role.

My Heart was filled with great happiness in Jardim.

Father has good memories for the Providential aspects of Jardim as a central role.

True Mother came to the TC so that we could make a new start, coming such a long way. The initial plane was malfunctioned and delayed, but True Mother resolved to go, thinking about the members waiting. With Her determination, True Mother asked for a plane and it came in two days. At 1:30am She arrived (started from Las Vegas).

When I was in the airport, I was so concerned about True Mother's health, but She was so joyfully coming toward me at our meeting place. We were able to prepare the TC. And Mother said:

'It is a very good day, and True Mother did not come alone but with True Father and Heavenly Parent. It is a very good day. The dream of Heavenly Parent is to live together with true children on earth, and for that purpose, I came here.

True Mother was so moved by the entertainment. True Mother said for the future generations, feed the secular world so study hard and do devotions. True Mother gave love to the very end.

Our 2nd gens were feeling well with our True Mother. She bought them clothes.

Up until April a CheonBo Event and Brazil, Paraguay, Mexico (7 countries) and a lot of our members are doing liberations... 2,100 and organizing the spirit realm... and fulfilling to substantially attend True Parents... 2,517 was the registration

Cheon Shim Won in Brazil and the volunteers came for devotion and prayer with deep experiences...

Testimony... chronic diseases healed... through devotion in the prayer room, felt the Love of HPs so much... sudden spirit of lethargy and discouragement but denied the impulse to leave and then felt that disappear...

Santa Cruz, Bolivia where we have 7 places with the HQ place where we had the event.

reflections... We don't have someone to do ancestors liberations and the volunteers couldn't stay for more than a month and we needed visa, but that was opened and could go there freely. We were able to go all over Latin America freely... such a miracle... Bolivia needed connection to Korea. I believe it was through the prayer

reflection... As soon as dawn broke, after prayer a sense of such tranquility and felt the importance to liberate ancestors and prepare to attend Heavenly Parent and True Parents and could repent deeply while also feeling such gratitude for the new life birth I felt

Paraguay Church... Among Latin Americans, there is such difficult legal case there. Two weeks before the event, there were UCI members who were disrupting the event, but we were able to cast them away and educate Who True Mother is, the Substantial Holy Spirit, even whatever the UCI says, we prepared the words to win over them, and two of our ansu people came for 4 days, and we conducted the event among such grace.

I'm so grateful for True Parents and Heavenly Parent love and grace through the Branch President, giving such clear messages. My family had been going through difficulties with my father having such doubts about True Mother, but gained such inspiration and great hope energy. The message of True Father from the SW pierced my heart like a sword, among the domestic difficulties, but great energy of hope came and

I made a greater resolution to do witnessing...

Usually my husband and I sit apart, but she was able to receive ansu a few times with such grace. At first so painful, and she felt like in a butcher house and she couldn't breathe, but realized it was the resentment spirits. I received to have a heart of gratitude increase for the ansu.

Argentina special event, there is a TC where it was used by Catholics before. There was rain and wind like a typhoon but still 160 participated in persona and more than 200 by Zoom. I felt a new start and the sky was so blue, you couldn't imagine it was raining a moment ago, and all the members were so happy, taking pictures.

testimony: President of the District WF... ansu experience feeling some bubbly things liberated. The wives sit in the front and husband tend to sit in the back, but she asked the husbands to come to the front and they had desperate heart participation...

This is the venue (beautiful) and built a new stage and sound systems... And April 5th CheonBo Event in Panama with no so many members, but the National Messiah went there, and all the buildings had been stolen, but the special itinerant Branch President went there from Costa Rica to Panama using his car, and all of the documents with him enabled us to retrieve property for the first time in 2 years with all grace.

I felt the angels tearing down spiritual walls and fiery warmth in myself, and our 2nd gen will be able to inherit the shimjeong and love and abilities...

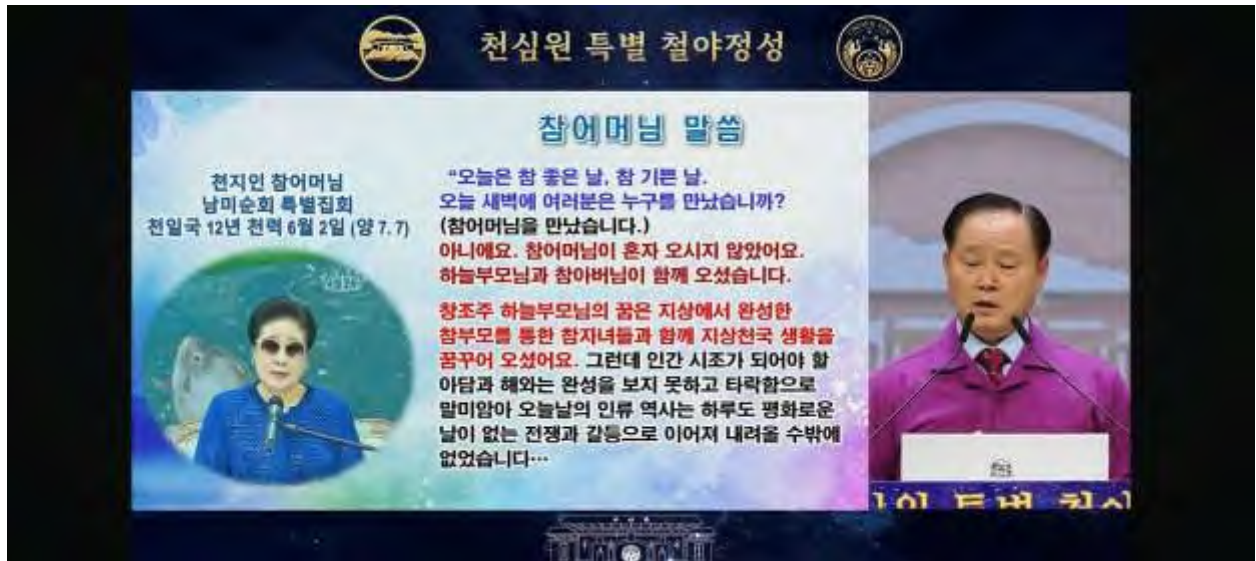

Costa Rica... A Place where a lot of our members are concentrated. However, there is 4 to 5 sects among the members... There was divisions. I had a question why, but I realized that without fully organized spiritual aspects, it's hard, but we risked our lives for this event and the District Leader prepared a Cheon Shim Won there and on Fridays they came and on Saturday a Workshop, and our members will share themselves and then confessing in tears their experiences at the Cheon Shim Won. They were able to let go of accusation of each other and inherit True Mother and True Father's Heart... (wow)

and on Monday a 4-day Workshop and April 19 in Mexico the special Cheon Shim Won Event. We don't have so many members in Mexico... And Mother said we need to revive Mexico and move members there, but we didn't have a venue there that we now have to do CheonBo Events.

testimony of gratitude for True Parents Who never give up on us, realizing the spiritual war that needs our courage and devotion and I want to be a main character of the Providence, not just an observer... When you enter there, they have no money and it is dim... I had received 2,000 US money and I donated it for them to renovate the Place there. We have the special ansu volunteers helping.

Panama: 8 who went to the 40-day in Korea 'Fabio' and 8 of them participated in this Workshop, about the family values and Principle being educated through the marshal arts... They are now preparing for the Blessing and this is Pabio.

A sister saw True Father in her dream and she was demonstrating marshal arts before Father, and wondered about the dream, but later she was able to cooperate with this brother Fabio, and True Father knew. And while True Mother was going through so much difficulty, they met True Mother in the DC spiritually in the dream.

We were able to see miracles going over the goals of people for the SGWs over 6,900 and HHD MN truly working

We had the Yeongseong Academy volunteers to our Branch and the Inheritors came here...

True Father's Message... Jardim, I truly love it so much ever since I went to the SW, I thought how could I use the Jardim to be the land Heavenly Parent Dreamed of. Now because of True Mother, it has been reborn, and the WSs were hope and a driving sword for Heaven Love and victory, and all of you because one and achieved a great victory

Ten of our volunteers came and offered devotions and they were able to meet 17 spiritual children and growth of members...

From June to August we are recruiting 3 of the volunteers and we will do our utmost best to fulfill True Parents's Words... TYVM

HJ Report

Director Anhoyol

Jojeong Town

Commemorating the 66th Anniversary of True Parents's Holy Wedding and 1st of the Entrance, I truly offer praise and congratulations to you as well.

The ABGs participated and the goal was surpassed... It's been 1 year 1/2 since coming here, laying down foundation of the environment.

True Mother: More than ten days passed the Entrance, giving us the H Direction, and to fulfill these words, we invited the person for the lecture 'Why do We have Faith' and the Epic, going from town to town... All H tribal messiahs went there and liberated the spirits on the land and offered HJ Papers and distributed the DVHS... Whatever they did was from heart of witnessing.

We invited a leader to the lecture, 'Does the SW Exist' made for elders, and we went to community centers and invited them to the bus, and to receive the education of Cheon Il Guk and invited them to Cheon Shim Won to pray and believe in the words of Cheon Shim Won. I don't know what kind of prayers they did, but they did their best and we did receive HJ Papers from them and some made gratitude donation, and not one person resisted the content. We were so happy doing the tribal messiahship.

March 29th 600 of them were invited last year to the event, and we continue communication with great

hopes, inviting Shin Bong Ok (?) and there were healings and grace. There were people who went once or twice, but not continuing. So, thinking about that, we went to the community centers to do anu, and several strong experiences of healing occurred. Then we had the hopes of witnessing and going to church with them.

Kim Jon Oh, he used to sing really well, and the elders loved him and the grandmother would say endearing term, and flower bouquet was offered to the mother...

We met the leaders, went to Soerok Mountain, and the local people didn't feel embarrassed or out of place in church, but how to truly witness to them. (will say later)

We went to the community center and from report in the past, and then PL came to me in my dream to follow him to the Northern or Eastern side. When I woke up and went to the TC, I received a call for him to meet me. At that time, PL said why don't you be a union president of Jojeong Church. I realized it was Northeastern of Capyeong and I became the president. All of this was setting up the environment for witnessing.

How do we see things for the witnessing concern, the pastor added a new member and that pastor gave birth to a 3rd gen and I truly believe that Pastor I Bon Suk came to the ceremony, and we went to the community centers, the good thing about it was the Pastor singing really well and his wife also sings very well (not sure about his son). All of the people loved them, and since we were doing our utmost best.

These people wanted to make a choir. And here is practice. We did a competition, inviting Peace Ambassadors, and gave talk about the present situation, and the pastor gave a donation and went to the sports game, Gate Ball, and the pastor gave the prize money... And the First Anniversary of the Sanctum Entrance, we only needed 40, but many wanted to join.

The Elder's Association said it couldn't just be 20 people and all 62 were able to participate and a lot of them were righteous people and realized the profound importance of the Sanctum, and we continue to have connection with them and one of them has said, 'Dr. Han Hak Ja, She doesn't have any fault. She needs to come out quickly.'

And whenever they said, 'She has no fault.' four of our leaders were nominated for the prize, and they

enjoyed the event. So, what I'm telling you is, 'When we make the environment doing our utmost best' we can reach people's heart for Mother.

We met and went to coffee shops and restaurants and doing the gave Unori? I gave out money... And if there is a bakdo? I would give... and that was several times, and the fathers and children came... All of the husbands are also doing their best to participate in the church.

A few days ago, of the Elders, we attended them, and in the morning, all of the government leaders and public officials, governor of Gapyeong, we were able to meet them... At Moko Port, here is where they were eating and having so much fun, and I explained about True Mother in the car and all of them agreed and were clapping. But the problem is when Pastor was singing so well and we were singing along, and the elder leader said, 'I don't know but maybe President Anhojol you should sing' and I actually started singing for them.

So best we could do for our elders is when I said Shijeong bak su and they said 'Ya' and they will start clapping (translation is choppy all throughout this sections)

We went to Dongeh Church. They explain really well and the scenery is so beautiful over there. All loved it. I want to offer my gratitude for all who prayed for the answer of witnessing.

I came to Cheon Shim Won after wanting to quit in October, thinking when should I quit, but I saw True Parents in the middle of the Cheon Shim Won sitting down, and I felt I should offer even more devotion. In my dream, the place I usually sat, that chair was vacant in the crowded Cheon Shim Won, so I thought to do until the Holy Birth Celebration of True Parents. Also, in my dream PL was looking down to me sternly... so I extended doing it. Then, True Mother gave the message to quit all of your programs and just pray like Anhojol. Then I received the robe and rod, and in my dreams, True Father was giving the lecture and said to me, 'If the tiger comes down from the mountain, hit it with the HJ rod.' I hit it and Father said, 'Is it dead?' (This has a deep meaning but I think I'm not able to say it)

I received a commemorative plaque, and I saw that all of the ancestors are receiving it as well. And I would pray to the ancestors, all wearing white clothes. And they said to take care of my body and eat well. Then a couple gave me two roots of ginseng, and I don't usually like it, but since the ancestors asked me, I am eating it well.

Usually, before the Cheon Shim Won, I nap for about 30 minutes, and I ask the ancestors to wake me up, and up until now they always wake me up. So, I never missed the Cheon Shim Won... Weh sleeping, I met some reverends and saw the SW and received messages from them. Believing the miracles of Cheon Shim Won and without the environment set up, it's really hard to witness... and we gathered our H tribal messiahs to speak about how to witness. We should do one-on-one witnessing as the only way. So we set up a strategy for it.

We don't know the result yet, but we will do one-on-one... It's really hard to witness one person for year. However, we felt that this one-on-one tool would be good. This month is the month of family, and we went to meet the leaders there and they really loved it... the pastors met us with warm love... True Mother said to become one with the shimjeong and act... I truly ask for your prayers for our church...

The H tribal messiahs never missed offering their utmost devotion conditions and meetings... (Show pictures of those families) There's a song that I edited and I want to share this song... (Singing the special songs, so moves the people... As Mother said, It is major for witnessing)

Hoon Dok Hae

A BF is one to whom God's Treasure has been transmitted. God is the Essence of True Love. The Word of Creation began with True Love, God's Fundamental Attribute as its Motive. This is because God's TL

requires an object to love and care for.

All is Created as substantial object made by God for the purpose of loving that object. Among them, human being are the ones in the closest relationship with God. God is the True Parents of humanity and human beings are to be God's true sons and daughters.

If Adam and Eve had married and had children upon the foundation which is completed by attending God in their hearts, becoming one, they would have become the external and horizontal True Parents, and God would have taken Position as the Internal and Vertical True Parents. Then Adam and Eve would have stood in the Position to 3 dimensionally resemble God 100%. Then human beings would have lived perceiving God daily in their substantial lives and be in God's Image. God wanted this completion of achievement of perfect oneness.

God would have become the True Parents of humanity Substantially, by Adam and Eve forming themselves to be substantial True Parents and forming substantial children, achieving the ideal of family and world.

Centering on the HW of True Parents, 4,000 years of history was indemnified over 40 years, creating the realistic era in which purity of the realm of the Blessing of all humanity could be achieved.

The problems of family breakdown are the biggest problems today. No person or organization knows the method of how to solve this but True Parents. They have resolved the secrets of the SW and the secrets of earthly history. Because M and F have been victorious about everything, when you achieve the realm of oneness night and day with AFAL and AO, you can ascend centering on true love.

True Parents received permission from God to organize the Lineage of True Love, the Kin of TL and the people of TL. Therefore, as more precious than anything else in history, a BF is one to whom Heaven's Store House of Treasure has been Transmitted to each individual.

Wherever the Word of God falls received, the works of Goodness and Resurrection takes place. Therefore, we become people who possess the Word, people who are liquidating evil, bringing about the work of resurrection and exercising the power of re-creation.

'Let Us Go Back to True Parents'

Pres. Lee Gi-seong's Message

Today, where the SW and PW are offering devotion as one in the 1,556 Cheon Shim Won, TY and congratulations.

Today, there were several meetings with our leaders coming now... Michael Balcomb and others... applause

They have been walking such a long path with meetings and events, they might be thinking of sleeping, but if you are dozing off in Cheon Shim Won, you can see visions... truly listen and see Heaven's Voice when you overcome your physical barriers. It's really hard to listen to Heaven's Voice without such devotions, so those who are, the SW will say, 'Wow, look at that devotion'...

We have been piling up the devoting until 1am, but this did not happen in the past.

More than 40,000 are offering devotion. And we filled the Cheon Shim Won Palace, feeling Heaven SW working and overcoming and gaining strength all the more...

Messafe give to him, Pastor Amico was sleeping while offering devotion and was sent to the hospital and a pastor's couple went there and constantly offered devotion and they became the representatives of the church and other elders offered special devotion and felt they needed to protect this place and when Saturday and Sunday comes they will go to the DC. And the church I believe has done the devotion to be marked in the history books.

Let us offer this devotion so that True Mother will never go back to a DC. For True Mother's absolute recovery and liberation, we offer devotion 24 hours and are still currently offering special devotion for True Mother, HMM. The path of True Mother is for the Dream of Heavenly Parent ultimately. It is not Her Personal, Individual Sacrifice but for the entire humanity, the absolute way of sacrifice, the Blood She is shedding is the epitome for the world. Let us inherit the Will of Mother and with unwavering determination (in the outdoor tent) not losing its grip.

If all around the world offered this devotion of Cheon Shim Won without fail, we could truly see the Works of Heavenly Parent.

So, during this SGWs, the 59th Heavenly Parent's Day and the 66th HW and 1st of Entrance, and we have set up the victory and True Father and HHDMMN truly working. Looking through the eyes of faith, as True Mother is asking, have you seen their work. True Mother going the path of suffering, we should show that we are going that path. When we show the devotion and results through this GWs, when we went over the goals, that matched the Message of True Father what was needed and exceeded it. more than 210,000 is the goal now in mind.

All continents made new record. H Korea, 26,601 and last Autumn over 24,000 and this WGWs 26,000 and H Japan 87,262 even among this crisis of dissolution, when we are scattered in family churches. But True Father said He would go to the Family Church. Let us truly attend True Father and know that True Father's Office is connected to your house through Cheon Shim Won.

I truly hope H Japan President together with us can shout out the victory. There are those who offer calling out more than 6 million times. If we do 6 and 600 million and together, more great miracles.

Europe 11,164 set the biggest record... If the people in the PW are clapping, the SW is also clapping as we offer devotion together...

H South America over 6,671 registered... In these hard times unprecedented growth.

N America 2,693 and Taiwan 1,543 and all continents set a new record...

2,749 for the ancestor liberation 6,897 families for the special liberation of spirits 3,811 for the ancestor Blessing, some via online, however the Main Hall was filled, even amidst dior situations.

Tomorrows report will be about GWs by Direct Cheon Yu San. So, tomorrow please be attentive. The Tree of Love, there was an event and a lot of members saw the Heaven on earth with all colors of people feeling like family and seeing people so joyful, realizing that True Mother wanted this visible scene, so that I truly invite you to come to Gapyeong.

Each booth has 3 or 4 menus. I went there and barely found a place to sit and ate noodles and people shared the food. But it was an atmosphere Heavenly... And Hori Maraichi gave the coupon for Japanese members. We could truly experience the Heaven on earth and M's Word 'buhung' (?)

Mother said we should clear the trees there so it could be a place for many people's meeting.

We set up the tiles, so that the cars could go to the Tree of Love Arena. Every Friday, this Cheon Shim Won Palace is full. I truly believe we need to move into the World Peace Center and it would be so surprising for guests to see and be witnessed to at that moment.

Our guests, last time Gapyeong Governor came last time, but every Friday should be the great revival. We need to set up the screen and everything. If you determine, we can be able to see this where we open up that path, from 7:30 to 9pm doing a revival and praise session, and those who did great in Japan will give a message, and when we enter the Cheon Shim Won, the SW will be moved and realized.

We need to fulfill everything when True Mother is still on the earth. HyoJN is doing his utmost best. If we truly resonate, we will be able to compose songs. Among those at the training, one was singing, Spring Maiden and last week, a musical person, all are here. If we mobilize all of these people, we can prepare for the new era, where we are attending True Mother substantially with a culture of Shimjeong where we can surprise the world.

The uncureable illness is cured... And during the Chanyang, you shouldn't just clap like this... or you won't be able to see and feel things happening (PL has said this repeatedly about the right way to do CY)

True Mother was asking us to pave even more path of True Mother, and you can see the spring water

coming. The next GWs, we are organizing for the experience there. Before there were azaleas up until Cheon Shim Won, however last year in July, seeing True Mother's suffering all of the azaleas weren't able to fully bloom, I realized. This is the first time the area without azaleas as all creation reesonate with the sorrow of Heaven, unable to blossom.

Let us earnestly more pray for Mother's liberation so that blooming can greet Her.

The Jardim TC was closed for so long, and M and F went and revived it. The result, I believe is now seeing fruition... 1st batch 20 and second batch of 10 people went there with the SW working.

True Mother has said: Through True Parents and BF's the 2nd, 3rd and 4th gen are going throughout the world and Heavenly Parent, starting today, please embrace and love Your children. To America nd Europe and Africa, they are receiving revelation that they are needing to go. We should recognize the work of the SW.

Those interested among the Moshim and Spiritual Academy, (and our Japanese missionaries that invested so much all the way up to this very moment, and I hope they will be connected to this generation as well)

Director Anhoyol, there was an assignment that he couldn't even grasp, with such an annoucement that was almost impossible to be broadcasted on national television, but True Mother said by Cheon Shim Won we can solve what is unsolvable by human effort alone, and finally the broadcast was made for an hour as True Mother wished. And True Mother said we should pray like Anhoyol, and in the SW True Father said to pray like Anhoyol.

When you pray, you should be specific, asking your ancestor to come. Also, in the HW, he was there and Mother said he should offer devotion until he dies, and so Mother has placed him where he is.

Mother has said, even we don't have the national foundation, let us attend Gapyeong so that the national foundation comes. And in September I appointed the pioneer church and tribal messiahs became the leaders of every town and street and we did the events. And the Gapyeong governor did so great, and all the institutions in GY offered devotion for Heaven.

And Mother did not stop there, but ten days after the Entrance Ceremony, we should research how we

could witness and educate about HMH and the Ideal of Creation. Even after the Entrance, going over Somyeonyon, we should make the results for the report to True Mother.

True Mother for Her to truly not be concerned about Gapyeong and have check points in every town. True Mother's Profound Will is that during the kick off ceremony of the Cheonon Church, there were 5 people who, the HQ of Korea was also here in Gapyeong and the foundation... all of the Providential Institutions came here for the restoration of GY, if all became one as we were not able with other institutions, True Mother was so urgent and gave the Word that H Japan should not think this is a separate issue, but H Japan should love GY and come to every church and town.

If we do connectin with them, there are a lot of pensions and if no place for accommodation, could go to their pension. During this GWs, all of the restaurants were filled, even H Burger had to line up for 30 minutes. So, all guests can know that the FF is thriving, and then we can thrive more.

A lot of mansions are also in GY. Also the European HQ, if they have a sisterhood relation with every town, it will be really great. Last time the youth came and the Samyeong people saw people from Benin for the first time. So, if we become one, it is easy to prepare for the foundation to move the people, and they do not fail to greet True Parents. Let us offer applause for their hard work, fulfilling the first Verse of Family Pledge...

True Mother said that this HJ Complex should go over Soerok and Gapyeong and we need that environment. True Mother said this several times. We might not know when we go to the SW. If we go tonight, and if the SW accuses you, True Mother has said even a single person accusing would be so unbearable for you.

The character of devotion must be realized, and we have nothing to fear of... Let this be the night of this realization...

This GWs has been especially a great work for H Japan... After the dissolution, churches closed but now a neuro network was brought back to life by the SGWs. Even Mother is in the path of the cross, She gave Her Word that the 66th Anniversary of HW and First of Entrance is important with this GWs when the establishment of the stature of HMH must be realized in the entire cosmos.

May all become completely one with HMH through this Cheon Shim Won devotion, through Epic education let HMH be revealed and entire cosmos attend Her and become chosen BF's who fulfill their responsibility to welcome this 66th Anniversary Day in 2027... May all members inherit the H Heart and become models of true love and true families, the citizens of H who reveal H throughout the world, citizens of Cheon Il Guk

the 2nd month after the dissolution, I received this Cheonshim rod. There's a word in Japanese, my

husband received this rod and I thought I need to receive one myself and I went to PL's Office and said I need one, and I was able to receive it. At this time, the entire members and the SW is concerned about H Japan. The day of the dissolution, I heard the voice, 'It is not a dissolution, it is a liberation. We were liberated from all things. True Mother is going through this cosmic level fulfillment and completion and we should not be bowed to the PW but be liberated and not be afraid, because we have nothing to lose, only marching forward and victory is only left for us...

At this time Pres. Lee Bom Sok, said again that we are seeing revival with our youth shouting out in the streets, and also our elder members, and 150 youth came to Japan with the ACLC pastors and went out and shouted, 'We thought we were alone, but it is truly a mother-and-son cooperation. And we received so much strength.

Please do not be concerned about J families, because only victory and growth is ahead of us. And with that heart of hope...

TY (and we love you)
