Summary

The voice of heaven can be heard when it crosses the limits of the flesh. When I see everyone from the spirit world who strive for good things even though it is hard and hard, I shall boast that the Messiah of my clan is wonderful. There are many religious organizations, but worldwide, more than 40,000 people continue to do their best. In front of the detention center, which is now on its 225th day, the tent was taken down at the request of the authorities, but despite the cold wind, we are continuing to pray for the mother not to enter the detention center again.

This spring period's major affairs are the 59th Heavenly Parents' Day, the 67th True Parents' Day of Heaven, the 66th Anniversary of the Holy Marriage of Heaven, and the 1st Anniversary of the Tenzu Shrine Tenichi Shrine. They set the standard for a great victory, so they crossed one barrel. I can see with faith that Heavenly Father played a major role through this major role. Being solidly united and united as

one with his mother, he was able to achieve great achievements. Last year I surpassed 100,000 for the first time in summer daiyakuji, set a record of 120,000 for autumn daiyakuji, and surpassed my father's message saying "144,000 for winter daijiji" and reached 160,000. I believe that my father's summer service for Seiwa Memorial, has a spiritual background that can go beyond 210,000,000. If you have a goal, pray and work hard, heaven will work and see miracles. This time on every continent, a new record was set, and God Japan achieved a record in the midst of a tremendous crisis of dissolution of the church. Father said, "When I go to the spirit world, where do I go, I go to my home church." If you think that your household is connected to your father's office and pray and be devoted, you will be surprised.

In a major role, young children of the first generation, second generation and third generation gathered in the square of the Tree of Love, and met for the first time in decades, and the five-colored races harmonize as one, and it was like seeing heaven on earth. Friday's Tenshingen all-nighter season will be filled with many people, so we should prepare ourselves to create a mental cultural revolution, such as having a great revival meeting at the World Center every week. This is not a long way away, but now in the golden age of providence when your mother is here on earth, we have to start a cultural revolution that will surprise the world.

I received a report from the head of Central and South America that the students of the spiritual academy went to the Jardin Training School, which had been closed for a long period of time, but was revived by his mother, and ignited a fire of faith. A brief quote spoken by mother at the entrance ceremony of Tenichi Shrine, "Through many blessed families by true parents, the 2nd, 3rd and 4th centenary pure waters are advancing to the world to make heaven on earth known to all heaven." From this day on, please embrace and love all the molecular girls. "In order to fulfill this word, young people must go out to battle themselves into the whole world.

The words spoken 10 days after the entrance ceremony: "Kahei and Seppo return, must be studied how to achieve evangelism quickly." Teach the people of Kahei County Holy Mother Han. Explain the principle of creation. Teach and educate yourself clearly what Jesus said he will come again and have the wedding feast of the lamb. "The gods of Japan and Europe were instructed to have sister blood relations with towns and villages in Kahira, and to create an environmental area for Kahira County to enshrine your mother. We need to make sure that if the Unity Church develops, Kanhei also develops. With the sincerity of bone and flesh, searching for HJ Tengu, the home land of Hongo, and crossing Seppu and Kahei County, it was my mother's wish to create an environmental area for Korea. It's sincere to understand how your mother will achieve. If we all understand this and proceed, I believe there will be a miracle.
