opening prayer of gratitude

Most Honorable Heavenly Parent

Most Beloved True Parents of HEH

We offer thanks for the grace and love that guided us to Cheon Shim Won so that we can go forward in S and T with True Mother on this earth. True Mother has constantly emphasized Cheon Shim Won and said it is like a war and you must not run away. But so that True Father can work every church must go forward. Already we have the secret to victory resonating with True Mother's Heart with our utmost. True Father 365 days works.

We know the great victory of the GWs was by True Father mobilizing the SW, and when we come to resonate with True Father's Heart that causes us to advance without ceasing (with gratitude that we can). We believe we can achieve... and True Mother will rejoice. The tide of the war can be reversed, and True Mother will be proudly testified throughout the world and True Father can work even more powerfully.

We are so grateful for the Womb of You True Mother, 100% with Mother as a healthy child, let us do our best at this time to be reborn as children of True Parents.

Testimony

Cheongshim Academy

gratitude

18 years Bang Gun Yang Ok 9th term student of the academy

Naturally I was with the church since my mother is active and would go often to the WSs. But in high school with friends gradually distant, and anxiety about the future, wanting to live without thought going with the flow, but the anxiety and guilt grew. Then going to the pure water Workshop, I felt I should hang on to faith. I decided to cut of my cell phone and focus on the lectures.

He said there were many moments I wanted to give up, but Mother did not give up. And I thought, 'How could I live like that?' Before the vigil, I saw the news that Mother's release was cancelled and tears gushed... I realized that was for living without the love Mother was given. I had not yet practiced anything for True Parents and I didn't want to return to ways of the world.

I joined the academy. I started doing thinks one by one wanting the academy members to grow even a little bit. By feeling the heart of the trainees, it was a time to come closer to True Parents. Since I had to balance activities with chores around the house, I joined the devotion team.

I talked with my mother about the future and at one point sat next to the leader at dinner who told me that that devotion team establishes devotions to receive from the SW. I resolved to offer 1,000 bows, 1 hour in the special prayer room and HD. I also had to handle the schedule and it was tight and ended sometimes at 5am... I wondered if I should enter the public office or another direction. I earnestly shouted the name of HyoJN HeungJN DMN 13 times twice a day until reaching my limit and my voice was gone. I picked a card said to live practicing true love...

Although I did not get a clear answer, I took it to mean I should ponder more and strive more in daily life. Now I will finish the academy this month and return, with the realization to live while offer devotion for True Parents, faith will inevitably grow distant. As I get used to the social environment, I wind up living for myself, but with thinking of and living for Mother, I can stand up again and move forward. I will strive to live for True Parents.

Ya mu jong

40-day Workshop

gratitude

2nd child of 3 sons and 1 daughter

Born in Japan until 3rd grade then to Korea. bullying in school and my heart collapsed with a deep illness in my heart and had 3 spirit world experiences, but until being an adult, I lived as if nothing was wrong, distancing from the church with work as an excuse and thoughts of death and staying at home.

My parents told me many things to try for me to return to True Parents side. I learned about the spirituality Workshop by those around me, and I thought if this did not make a difference, that would be the end. I did not listen well to the lectures, staying trapped in myself. But I had a conversation with the coordinator to try to pray with my honest heart. I heard True Father saying, 'Welcome back. It has been hard until now. I am sorry I couldn't protect you.' I burst tears and began to make confessions coming out of my mouth as well as repentance and resolve to be filial and protect True Mother.

In the midst of those worries, I felt best was to join the academy and went to the 3rd Workshop and heard a testimony that one was at the point of death due to the persecution, but heard from True Parents. I called out Father, Mother so that many children could return. I began to forgive and love those I had hated.

Continuing academy, I received much grace even there were trials. I did liberation for both sides of my family. When I heard the news of Mother's detention, I collapsed feeling I could do nothing, but then went to the DC. Seeing the members from all over the world...

I began the prayers with the Overseas Service and heard Father say, 'Go to America' At the time the Workshop was ending, I completed my devotion, met with my Blessing partner and felt it was through Heaven's guidance and began to participate in the Blessing Ceremony.

I looked back on my entire journey and it felt that the choices were not by my will alone but the guidance of True Parents. I will live a life walking the path of the Will together with my beloved and will move forward not matter the difficulties.

HJ Report

Director Chun Yu San

Grace of 2026 Spring Great Works

True Mother: Beloved family members, have strength. Heaven is truly working. Looking with the eyes of faith, Heavenly Parent is by no means silent. Even now working to fulfill the Will with beloved children and the Will to be surely fulfilled.

True Mother was concerned about the Will and about Her children in Her difficult situation. We were able to see the natural phenomena of the rainbow

An upside down rainbow... Below the clouds and circular rainbow around the sun... resembling True Parents... It feels that Heaven is giving the message that True Mother will be protected. This is during the GWs, and the lighting shining down represents Heaven's Blessing and that all will go well. Among this natural phenomena, both the SW and PW together, we were able to make the new record of 157,749 registrants...

Provisionally we are in the difficult times but the more people united with absolute faith. TY applause

Comparing the 2025 GWs we saw 113% increase We could see a lot of devotions of our pastors and members. To connect the grace and miracles to the field, there was a Cheon Shim Won Branch Workshop for 2 days and currently the District Leader is being the Branch Director, but there was a time when the District Leader was demolished and Mother made the Branch Directors.

video of Workshop

PL What kinds of conditions we set in this time could be a Blessing or a curse. Just don't think only to offer Cheon Shim Won, but a time to offer devotion for the future. Go forward to solve problems no human could solve and hold onto the Words of True Parents and apply that to the field, and with that thought I made this Branch Director meeting.

Become one with jeongseong and seek fruition with devotion... This is our Branch Director: I received grace... I felt like electricity was flowing throughout my body, feeling the SW is here. A clear direction for the district came to mind that we must first have Cheon Shim Won resonance and I will guide for the 3-day resonance and cheonshim and resonance Workshop.

Oh Chin Wan District Leader... realized that only when one devotes as on the verge of death can one feel the Heart of Heaven. Fourteen of our District Leaders and Branch Directors made determination and because of their efforts, we were able to register twice as much as last year... Song Yong Chon and all leaders... applause

We made WSs five times, and determined ourselves and with sacrifices of the volunteers hyojeong

Hearing the goal, our church established resolution to take responsibility of more than 300 people and

with the sessions of Cheon Shim Won and devotions at WSs and revival meetings, one week before the GWs the goal was achieved.

Also, in H Japan, even the great trials, centered on Cheon Shim Won devotion, the staff made the determination for the victory of this great works. We could see a 57.8 increase from last year.

Pres. I Bon Sok... We held a meeting at each place and felt the amazing spirit and determination obtaining the goal in just five days, and even the neural tissues were paralyzed, they were brought back to life... applause

After the great works, there was a Branch President Workshop, and hearing the reports of 7 of them, we became one with the Continental Directors and could see achievements of devotions. The national registration 673% increase from last year...

Applause

True Father said: importance of GWs. You must say, 'I must add strength to True Mother through this GWs. I wish I could be even more help like this, establishing a condition even through a proxy registration through your family. Because this GWs could resolve all the spiritual problems in your family as well as helping True Mother.

There was a prayer meeting to offer lists of the participants... video follows

placing the list names in the box on the Cheon Shim Won Altar and praying, shaking the HJ rod...

Many testimonies: My son said his work was hard and was smoking electronic cigarettes, and as soon as I made the liberation, I got a call from my son that he wanted to quit.

For two months, I struggles with feelings of hate and jealousy for a certain person, but with the liberations, that left and a joyful heart came.

another... my son changed 180% from having no friends and always being irritated... then made friends right away with good feelings

commemorating the 66th Holy Wedding

PL: To become one with True Mother, if we have a new resolution for this GWs, we can organize and miracles will happen

There was a big drum like the beating Heart of True Mother beating for the fetus. The CS dance has the spirit of the Monarch Butterfly that will fly from Mexico and migrate to North America from generation to generation, and the 4th is a super generation that migrates on mass, and this reflects the Life of True Parents passed to 2nd and 4th gen with a meaning of determination.

Upon that foundation, PL read the Letter to Heaven with the heart of hyojeong.

In the year of the red horse, may the children become one. The loyal subjects and martyrs have waited for this moment. We will fulfill these things and there will be many good things in the year 2026.

With the 1,555th Cheon Shim Won devotion, I believe there is the Providential meaning 'Let's unite and

one and go' and in Korea, it feels like an exclamation where we go over so that Heaven can exclaim and say, 'Oh', with a heart of unwavering faith more than six years, let us offer applause for PL's health.

Also, Director has said this is a time to mature ourself and offered up a grace-filled words to touch the hearts of our members. Prophet Radebe said he was not disappointed upon the news of HMM, and the revelation came and I was able to see Mother's Spiritual Form that those who are spiritually awake can see. We must wake up.

Bishop Rosaria said she received strong feeling to offer the prayer meeting with her husband and saw True Mother as the OBD Who holds the Heavenly Mission. They offered more than 20 minutes, and every word was so meaningful, given by our WCLC leaders. On the last day of the devotion, they knew True Mother was able to go to the hospital and they shared that grace with us.

The special prayer meeting in the special prayer room, there was a lot of healing and grace for relationships.

testimony... saw a gap filled with things that looked like eggs and an intense light was there. I could feel angels together with me and taking away the bad spirits and the pain in my neck disappeared. The 2nd day, the pain in the souls of my feet completely disappeared.

Another member has said about the cancer difficulties, and realized that I am truly a loved being and it is okay to love myself more and it felt that Heavenly Parent and True Parents are right by my side, telling me it is okay to do it this way. The cancer was removed without additional treatment.

So, our 40-day trainees are changing instantly because of being able to experience the love of True Parents. A lot of our members say they don't know if their own parents love them, neither True Parents. But through this Workshop, they feel True Parents Love pouring down to them and their own parents they realize also truly love them.

These children resolve to go to Africa, South America, with resolution to be children of hyojeong... such transformation...

Also in the ansu room, there is Director Kim Dok Su with diagnosis and treatment. The 44 volunteers had testimony: one with breast cancer, and tears flowed the moment the ansu began, feeling both sorry and joyful that True Parents loved a person lacking like me.

another with an ankle injury for nearly a year, receiving ansu while calling HMM in my heart and for the first time could walk properly and offer a bow. There were 30 of the ansu volunteers and 41 did the counseling...

Since bearing a child, pain in knees and ankles, and that disappeared after ansu. applause to their hard work

Also, a new program was Hyo Jeong testimony festival. We collected five of the most grateful, and there is a couple participating. This member received such persecution from their parents, but with the Japanese wife attending her parent so well, she even became an ambassador and his first child was able to receive the Blessing.

another had 3 generations of families. He served public mission and attended with his wife. The testimony people were able to receive the coupons and prize

There also was the newly launched event with the birds and animals from the Begonia Park, where humans and animals were resonating.

and too many other programs to go through but a yoga and Pilgrimage of Mother's Path... Our 40-day volunteers did so many works, organizing details of coupons and moving things, so much work...applause

So, this GWs is where we are under the direct dominion with the AGS world and were able to achieve this profound and amazing time.

We need to untie the historical knots tied for thousands of years and become needles to be Providential children... a time to be united when we pray in unison for the firm establishment of the H unified Korea and world and the coming Heavenly Parent's Day.

Hoon Dok Hae

Tribal messiah is the greatest blessing among blessings. God created the Heavens and the earth and said they were beautiful, they were good to see. Then God created Adam and Eve and gave them responsibility.

God Wish and human beings wish had to coincide. God wanted to become the Parent of humankind. He wanted to become the Parent of the substantial world, not just the Spiritual Parent. Therefore, God gave Adam and Eve a growth period. They had to fulfill it being in the absolute position with God. God intended to Bless them when they reached completion.

In that way God Providentially worked to establish them as the true ancestors of humankind. Because all of you received the Blessing of becoming tribal messiahs, you must fulfill the mission and continue until Cheon Il Guk is established on this earth.

Tribal messiah is the greatest Blessing among the Blessings given by True Parents. This is because, without the victorious foundation of the Providence of indemnity, fallen human beings cannot be established as messiahs of their tribe. Therefore, within the Providential management of True Parents Entire Life, the mission of tribal messiah has always been emphasized.

Because the completion of Cheon Il Guk becomes possible through the realization of a peaceful family as tribal messiahs fulfill their responsibilities and inherit the world Blessing and a life of living for the sake of others in each tribe and reach a sovereignty of goodness.

True Father is always with us in the SW. In an incorporeal form, He does not leave our side for even a moment. What does True Father want from us now. He would surely desire for us to march forward without ceasing. God's Providence must continue until Love and Peace overflow throughout the world, centering on True Parents. And until the culture of heart is settled and a new order established.

Furthermore, based on the Victory of the FD, we must press forward even more single-mindedly to offer

great glory before Heaven and True Parents, and bring great hope before the world and history. We are a one family heart community centering on One Parent.

Although the world is still rife with division and conflict, our unification family can easily leap over race and any barriers to become one brothers and sisters. If we show living for the sake of others, it is a dream that can definitely be achieved, especially in this great transitional period of the Providence.

Please keep it in mind that all of us must become one with True Parents.

Pres. Lee Gi-seong's Message:

---

presentation of the plaque of appreciation to our special missionary

Shin Dong mo

This person following True Mother's Words with AFL and O as a Cheon Shim Won special missionary and toward 132 churches and we present this Plaque of Appreciation to commemorate his hard work. PL will do a commemorative photo... (True Parents we love you) applause of gratitude and appreciation

---

A lot of our Cheon Il Guk leaders are here even among such busy schedule and so grateful... applause

Today all around the world more than 40,000 are offering devotion...

Today, in front of the DC with this day the 126th day, and Pastor's Message: Those who went it is such a hard burden but True Mother said not to pray about Her, but seeing Her in such a position with such graceful endurance, it cast away the darkness on the earth and we will be able to see the Love of True Mother revealed and we will offer devotion like a battlefield.

(Even they don't have a tent, they still offer devotion outdoors.

If we didn't have the trainees, it would be so empty... but even in the vacation time, we can see so many in the WSs and also in the field they are becoming revived and filial and loyal subjects of Cheon Il Guk, and those church who have the goal of sending members to the Workshop, among 82, 10% came from Cheonshim Church...

And in the Cheonwon Church, so moving conditions and goals they are making...

'Thinking of My Friends' the song, I believe you were thinking of True Mother...

The son of the Director Oh Sun Sok, such difficulty but deep-rooted his faith.

Also, last time we had the Jeonghwa student and they had such passion and volunteered. We think that they are young but I joined 2nd year of high school, I joined and did 7-day fasting. It was the same level as the adults, but I was so moved by the lecture. And a lot of 777 couples become missionaries in public mission. Although he is still young, he got rid of his phone and concentrated and was resonating the sorrow of Mother with his own sorrow and such tears with Mother's detention.

The first and second generation of participants have such a difference. The 2nd gen has the background of purification but even after the so unfortunate influence of the fallen world spirits, they can resonate so much more quickly, and the devotion they do are so moving. When you listen to his voice, I think it has changed for the voice of resonance. Have you recognized this. Unknowingly, he had overcome and grown.

If there are people who would grab onto trees, but everyone would scatter and just shout and after 20 minutes, the voice is lower and then it was so weak, with only a few people who received grace. So, what was the message. When there was a pastor that went up to the mountain and they did prayer until 4am, and that was only one person and others rested in the middle, and after that the professor asked the person who remained to the end, and he said, 'I didn't receive anything. But I shouted for four hours.' But the professor said that the fact that he did that in itself is a grace, and that person can become a great pastor.

I think the background of the victory is now in his voice, and built in his teens, later he can live for the sake of others and be after True Mother's Will, and this is embarking on the path of the filial son and loyal subject of Cheon Il Guk.

testimony of Yong Il Jung being bullied and attempting suicide 3 times, however he didn't show this to his parents. I believe it could have been a situation where the parents could suddenly see their child die, but Heavenly Parent saved him from that. He lived as a shut in in his bedroom for a year. If there are children like this among the BFs, just don't leave them there, but offer sincere devotion and prayers.

He said he would end it if he did not receive any revelation in the Workshop. The resentment spirits want to increase their minions and they want you to kill yourself and influence others to kill themselves and evil multiplies like that. Everything multiplied. Bacteria multiplies. If you sneeze a lot, it can spread to a lot of people. I think it's profound that we don't see a lot of people coughing like last time.

True Mother has said that the dark SW is not becoming white and our backgrounds as BFs are becoming whiter. Until this brother's 30th year, he didn't feel anything, but the coordinator suggested he try really giving the honest and sincere prayer and then he heard True Father's Voice, 'How hard it was for you until now. Now you have returned finally. I am sorry I could not protect you.'

He went to H America to be the Overseas Volunteer... When truly going through difficulties, when you pray honestly communicating what is within ourselves, saying everything sincerely, and then you can see great works happening.

I experienced that for the first time when I was honest prayer, everyone around me persecuting me saying, 'It is because of you in a cult that your mother is having difficulty' I offered prayer, 'What did I do wrong for my mother to have difficulty?'

Our listening also should be an honest heart, and see the work of Heaven. That profound experience was given through him by listening to the testimonies of our elders for what should inherit to 2nd gen. But looking at the elders, centering on True Father, because of that there are times they are not able to connect with True Mother. Because they are lacking in that aspect, there are times that it is hard for them to be on the podium. But with the precious experience of True Father, on top of that they need the substantial Holy Spirit and with the Love Embrace of HM, if that can be your testimony, that will be the really great one to flow to our 2nd and 3rd gen and bear fruition.

Our Special Itinerant would say, sometimes we just say about True Father, but True Father says to become one with True Mother. We as itinerant worker should be deeply understanding True Mother and what is the Dream of True Mother, and then deeply understand True Parents... Itinerant should be able to educate with that. But some leaders are making it much harder for True Mother. The Cheonbumo Ron and True Parents's Theory and The OBD can still be only intellectual without the Cheon Shim Won devotion that becomes the most important. Through Cheon Shim Won we can have experience. Because this TC is the Mother's Womb, there can be individual, family, tribe and nation rebirth.

There is a message there in the bathrooms that this is a place where the entire cosmos can be reborn. This is the Place of the ambilocal cord that we need to connect with the True Life. In the past it was the Cheon Shim Won prayer, but now it is the third stage where we can connect to the ambilocal cord. All the praise around the world and all the Cheon Il Guk spirits can go to this TC and receive the Workshop with great helps.

It's not the CP TC any more, but it is the HJ CheonBo Heaven and Earth TC. Those are the Words of True Mother. So, we need to offer the Cheon Shim Won devotion becoming absolutely one with it to be reborn. This is a Place of revival, resurrection and rebirth. Individuals and family can have the deep experiences of Heaven in this Place. That is the Words of True Mother. We need to truly realize that.

And anyone who comes to offer devotion at Cheon Shim Won needs to have testimonies and give them. He was a shut in and thought of killing himself (but now he testifies his honest things, with trust and faith openly before so many people).

Because of how he turned around, there was a person who wanted to receive the Blessing. And he did.

Because at the academy they are singing and crying out and praising and tears all around you. So they will gravitate toward each other and stay connected to each other, to their parents, and if you are matched in that process, it will become such a joyful time of foundation. And there are a lot of couples within the Yeongseong Academy. So, let us congratulate them... applause

Even if you are an elder person, if you are the good lecturer and do you best as Cheon Shim Won, you will look beautiful in spiritual eyes. And these youth made the conclusion that it was because of the guidance of Heavenly Parent an True Parents that they were able to come here. And he said he will never give up and make the ideal family Heavenly Parent can be proud of.

Our 2nd gen are receiving a lot of Blessing like this. So, please send your children here where they can be educated as you cannot do in your family.

Even True Mother is going through this difficult, it is such a miracle that we could go over our goals. We should offer up the condition that we become one (That was the message from the SW, as many pure waters offering the devotions are receiving often.) Some are accusing me that I am making up the stories of the testimonies, but I am too busy to even be doing that.

In the 1,440th we could conduct the GWs in the World Center. If we resolve ourselves we can conduct this devotion every Friday. We will be surprised how the youth together with the elders can offer this until 1am. We can connect with the frequency of the SW, we can go forth and see such miracles of the testimonies happening... The Shin Dong mo received the Plaque...

Someone gave me the message: I want to give a testimony (an elder from the WA church) going through dementia, and he would wake up and talk to himself until dawn. Through this GWs, with the DVHS necklace he slept until 6am without waking up. I actually hit his back, but he said to hit him one more time and he said he felt the resentment spirit liberated and experienced the miracle... He and his wife bought many of the DVHS necklace items... and we need to realize so much grace and blessing from the DVHS necklace.

True Mother's Words Hoon Dok Hae: Through the 1960 HW, we were able to indemnify 4,000 years and make the foundation of the liberation of the substantial era of liberation. Teen ager problems and the family problems are the biggest. No leader can solve this problem, but the Authority that can solve these problems is True Parents. Because They know the secret of the SW and the Providence, They can liberate everything and be Victorious. With ALAF and AO, centered on the True Love of True Parents, we were able to go up in that state of the lineage of true love and the Lineage of True Parents.

True Parents have the Authority from Heavenly Parent and the BFs can inherit the Treasures of Heaven. But today's Words of Hoon Dok Hae are that the (authority of BFs to become) tribal messiah is the greatest blessing that we need to fulfill. If we do so, we will establish the Heaven nation. We can be the greatest Blessing that can be given to a nation. And all people will know and attend True Parents. For the fulfillment of that Day, we should offer devotion and march forward.

We are educating the Great Epic of the Korea chosen Han people. The reason we are doing that is for the fulfillment of that day. And yesterday we heard that through the Cheon Shim Won devotion, everyone should be able to give the Words of resurrection. It is because we could revive and recreate through our words. And wherever we go and speak a message, we will be able to see great works, good works happening and see revival of the people, enabling them to come to True Parents. And the Place where we can report all of these achievements will be the Great Works.

At this time of Cheon Il Guk World Leaders' Devotion, all of the continents were able to make a new record of the registration, and if we become more one, in the Summer GWs, when we commemorate True Father's Cosmic Seonghwa Ceremony, we will be able to see what we have not seen ever before.

In this GWs, people were crowded like clouds, and also at the True of Love... All of the lectures now have unsurpassed beauty of their message and the grace given through their words.

Our staff is working so hard voluntarily. They are working in the morning and offering devotion at night. It's not an easy task. However, we don't give bonuses, even though they are so exhausted going this path. Also, in the ansu room doing 1,230 people the counseling 1,751 564 receiving ansu, a difficult path. But they are able to do so because they receive such grace. All of the blessings pouring down on this Main Branch should be spread out to the entire world.

Shin Dong mo was newly appointed as the Director of Cheon Shim Won of H America. And True Mother gave such important message: Faith is connected with Cheon Shim Won and last time we didn't have a Center, but now we need to offer devotion for the fulfillment of Heavenly Parent and expand the environment. You are on a great mission to spread the fire to this continent, where we can find righteous people. 99% is prepared already and 5% is yours. Be grateful to other members and live your life to realize with Cheon Shim Won that is doing such all-important Providence.

If you are one degree off, don't be... offer devotion through vigil without suppression. Don't think about yourself, but about True Parents more than your own ability. When you are one with True Parents, put on the full armor of the HS. If we research about True Father, you will know about the Providence living 53 years wilderness with True Father. To become leaders, you should not think of how you enjoy feeling. You should know the hearts of the members and you should also be healthy. Mother gave Cheon Shim Won so we could be healthy. M talked about the Olive Tree. And Mother gave us the Blessing to be healthy.

When Mother sent them to Africa, She said to restore Africa. And all the institutions and 3 nations, Korea and Japan and USA need to put their influence to Africa...

True Mother appointed Won Song min and Sakua as Branch President and sent them to the field and even now the building of the Continental HQ, and when Mother went there, there were so many mosquitos and

she actually caught malaria. We need to make a lot of registrants from Africa as we walked for the victory of 2020, True Mother said we are able to make the conditions for so many suffering. True Mother's Words should not fall to the ground.

If you think that it's bothersome or nagging from Mother and don't really listen and fulfill, the SW will so accuse you. We need to not think like that ever. Center on the Words of True Parents and risk your life to fulfill.

That is the reason why our Branch Leader Shin Dong mo has such responsibility. Do you know the parents of Shin Dong mo. Everyone knows he was given the appointment from True Mother, and he is the one who will lead the Oeg Monsei.

Let this time be a time of new resolution.
