opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

This Place in abundance of Heavenly Parent's Love being able to have vigil tonight, gratitude, and with all of our hearts and shimjeong we gather our devotion upon devotion and ask your works. This vigil devotion with 1,558th foundation we believe we are reaching greater heights, experiencing the Heart of Heaven and wanting to comfort that Heart of Heavenly Parent. We desire for more to make that determination and with more gathered, Heaven will use that and we will take more steps forward with the Will.

Please allow u to stabilize our hearts and walk toward the path of Heaven, laugh and walk together and resonate with spring and the Heart of our Mother, offering our sincerity. Here members from around the world have gathered in connection with HQ and cover the world like a net and the culture of night changed to day and we will offer with Spirit and Truth and Love and call upon You with tears.

For the health and release of our True Mother, we call to you and like our Mother has walked the path of sacrifice, and like our elders and our True Mother, we too will walk that path and with happiness to understand our Mother's Heart and to fill the Heart of our Mother with gratitude

hJ Praise

Dolari song of HyoJN

Through this praise let us communicate and resonate with True Mother's Heart

I would go if I could reach,
but why is this way too long
The sun and moon are gone
only clouds in the sky

The wind shall be my friend

Gone is my youth

What's left?

I would rather just roll like a stone

Over the mountain where moon sets and sun rises, I shall roll and wander far, far away

You migrating birds, who have a long way.

If you leave for your destination,

You pine cones on the rock,

come back tomorrow and cool down my sweat.

You, liars of the world,

Let' just roll and roll,

and live together

Over the hill and over the ocean,

Let's live together.

Along the path to the end of the world

Let's live together

Now those streets and days

I spent with loneliness

are gone, they've flown away

I've blown everything away with the wind

My loved one. This world is not the only way I have.

Although time passes and a new day comes, I will love you forever.

My love, I will roll with you like a stone

Testimony

Cheonseong Academy

Noriko Academy

gratitude

4th daughter of 5 children

When first starting, days of complaints and I hated to be like that and tried to change. I had to return to Japan for visa issues and I held these things still in my heart and it was the most difficult and painful time.

I had to constantly fight the invisible fear if it was okay for a lacking person as me to solve the visa problem and return to the Workshop... Those days were so painful and my heart of sorrow to Mother grew.

then when offering Cheon Shim Won devotion, I saw the video of Mother searching for the needle, the child who can become one with True Mother OBD. Seeing You today (tears) I think I am not alone, You said. There are my siblings. There are my children who understand My Heart.

My tears would not stop. I thought, 'Ah, I entered the Academy for this.' and I recalled again the reason to join. I realized that I had wanted to be of strength to Mother even if only small and offer devotion for Mother. I thought why in a place like this (Japan), and I returned to Korea. I thought of how Mother wished for me and wanted me to be a source of strength for Her.

Externally there are many difficult things but also a grateful place. Although I wasn't a great help at first, I looked for things to do, even if a small task. I thought all of this was possible because of the vision of Mother I saw that day, and because Mother had called me, needing and calling me to this Place.

However, after the dissolution order, I became distressed thinking of the hearts of the Japanese members. I made efforts to prevent it, but not seeing any change, I began to think there might be more things I could do to go back to Japan. My heart became complicated for what I should do for Japan. I realized the only thing I could do was pray, for Mother, for Korea and for Japan. I felt while praying, 'Please love Korea more than Japan' so remaining here with my full devotion I felt is the path for Japan.

I'm still clumsy in Korean, but I am active as the only Japanese person. I'm trying to transition difficulties to more know Mother's Heart and even we cannot communicate in language, we can here, no language of true love... to understand and fill each other's lacking parts, such a culture being exactly what True Parents's wanted to achieve. My teammates tried to understand and I felt we are heading toward forgive, love and unite as Mother Desires.

There were difficult things from the past, but I may seriously feel that things of past are connected to the present, and a path I want to erase is a precious memory of the process of growth Heavenly Parent prepared for me. I thought I was offering for Mother but instead I received love every time, and I will be one who shares it with more children, looking with eyes of Heavenly Parent and approach them first, and

create this culture of understanding and loving each other that True Parents wanted to make

TY for listening...

'Let's Go'

Cheonshim Won

Workshop...

Sagauko

Testimony

(She) After graduating, I was working as a pharmacist when I met my spiritual parent. I joined and had experiences of meeting Heavenly Parent deeply and decided to quit my job... I had an unforgettable meeting with True Father and in Tokyo I had only experienced an economically affluent life changed for an uneasy life in the Korean countryside.

Because my husband and I were opposites in every way including personality, educational background and upbringing, there was much confusion and conflict. But wanting to be victorious as a BF, I offered devotion every day and did Hoon Dok Hae together. We had 3 children.

My husband moved jobs and income was cut off leaving only debt. We had to pay settlement money due to external problems, and he even received an expedited sentence in trial. My husband ended up receiving surgeries every year, completed amidst grace but the recovery so different (and hurting the heart he did have for the children to be with them) He was always having anxiety and irritability. I had to handle everything by myself and I spent time praying how to love and forgive.

The refuge of my heart was Cheon Shim Won. Continuing accumulate conflict with my husband, I left for CP with my children and completed 430 generation and we were inducted as a CheonBo family. Then changes came little by little with economic situation better than before.

My husband had been critical of the church and even prevented us to go sometimes. With Covid, it became natural for the children not to go and I lacked time and physical strength after working and went to church only on Sundays. I felt alone having to create my own path to reach the summit.

Time passed when unable to do anything. I attended the vigil devotion for the first time, and then realized it was a highway Mother had prepared that was just waiting for me (tears of the love and hope) I did devotions for my mother and brother in Japan... I did 13 central spirits liberation... Then through meeting Mother deeply, I gained the conviction of being Mother's daughter and received the Cheonshim robe.

I continued with Cheon Shim Won thinking our family situation would improve but rather difficulties arose. One time my husband got angry and burned the photo of True Parents.. Eem thought I prayed, I couldn't organize my heart. But I realized trials after the devotion is not a bad thing but a process for settling and when hard things happened and it became difficult, I prayed, 'I'm sorry. I cannot do this any more' (tears) Heavenly Parent embraced me saying, 'Never let go of My Hand' I said, 'I will never let go of Your Hand'. And Heavenly Parent embraced me. and I realized Heavenly Parent was always at my side, and it meant to consistently offer Cheon Shim Won devotion, so I did even more diligently, and after 450 sessions, the Seonghwa Youth Service that had been stopped, started again, and then my daughter went and was healed through the Workshop of her headaches and biting her nails and insomnia were all fixed.

She even passed the GED she had failed twice before. She passed that and also the high school equivalency. After the 700th session, I received the call that my son had caused an accident, and I realized this too was a process of settling, and in talking with him, he decided to participate in the next WSs. Also,

the incidents of my husbands past surfaced again, but the issues of the past 5 years settled.

My husband said, even if I cannot leave behind assets, I do not want to leave bad things and he said he was so moved by the sight of me going to church and praying until 5am every day. He personally drove me to the station to take the SRT and lost negativity about the church. I was happy to know that my husband and I are one in wanting to open a path for our children.

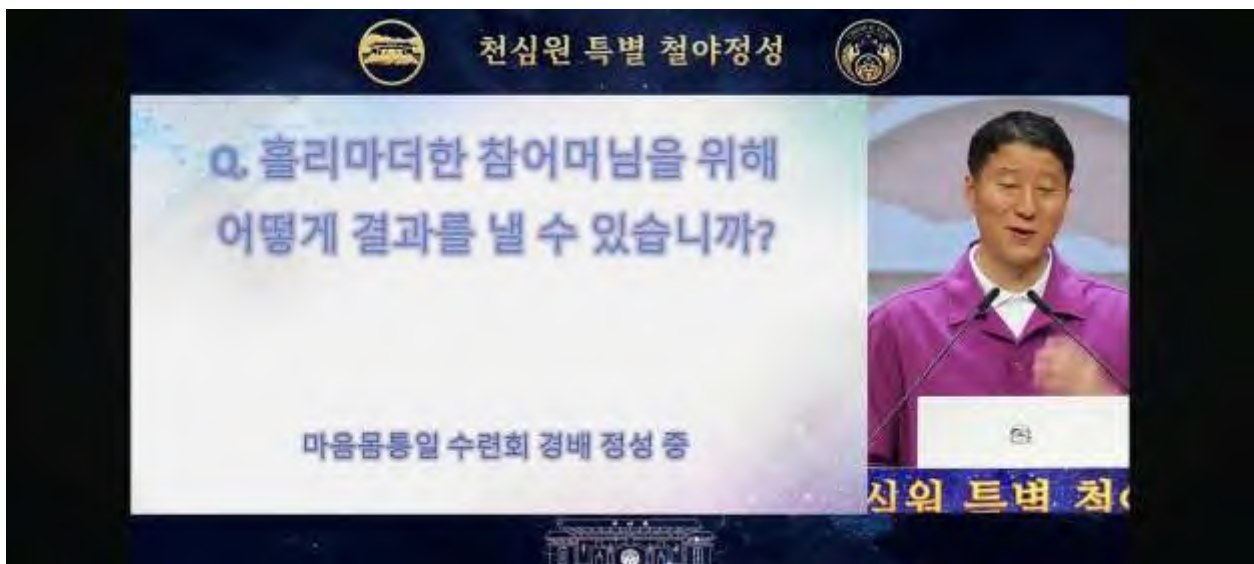

Looking back, the time when there was no path was when Heavenly Parent was raising me and everything is a process of settling and being grateful and I intend to walk with cheonshim and finish everything in my generation as True Mother does.

Japanese 40-day Workshop

'Stand Up

Rev. Sakua

West Africa Branch Leader

HJ Report

Starting this year True Mother said many good things will happen, so everyone work hard. With faith in this, I work diligently in West Africa.

May 9th, there was the 59th Heavenly Parent's Day and the 67th True Parents's Day. And there was the 66th Anniversary of True Parents's Holy Wedding and 1st Anniversary of the Entrance, and the Spring GWs was a great victory with 157,000 registrations applause

Although Africa is far away, we offer devotion wanting to be at least a little strength to True Parents... In Cote Duval, we had an 8-day mind and body unity Workshop with 78 participants. It was for the longevity and release of True Mother and for the cheonshim and unity of mind and body.

Korea and Africa can be connected with Cheon Shim Won devotion and we emphasize that. This is the HQ we connect with live. Like the HQ, we have our intensive prayers on the weekends and 130 bows and feet washing ceremony.

These are programs from the Korean Mind and Body Workshop. You are seeing couples washing each other's feet. I asked the couples to come up front and the husbands would sit down first, but I emphasized that the wives should receive first and they were very happy about this. I believe this is part of Mother's desire to transform culture.

And one-heart prayer and environmental movements we are doing every week. At the Workshop, I met Dr. Chun Yu San and received a book from him, and reading that I'm educating:

First observe

Second objectively separate

then face it and embrace

So, first observe how to move our bodies, how to react and be aware where your heart and mind are heading. And spiritual where you're heading as well.

If you observe, then you see traces of your essence. In True Father's Words, you can find traces of you

true self. And true love given by God, you are able to see such core things. And if you observe, then naturally, you go through the separate stage. What isn't a part of your essence.

And True Father said there's about 3,000 spirits attached that is not related to our essence. So painful experiences, you must face it willfully. then embrace it, forgive it and love it and then you can overcome it.

And then affirmation and vision what you will become and make resolution to embody it. And although 8 days is a short time, if you experience Heavenly Parent even one time during that period, you must then work to experience Heavenly Parent from then on in your daily life.

Although this Workshop short by experience of Heavenly Parent and True Parents, it can be life saving.

And we received the lectures by Director Kim Myung wok and Director Kim Dak su and also Chambumo Ron and the Great Epic are the core things True Mother is emphasizing, and we even had faith and economy by Director Chun Jun Ah and by Lecturer Takaki, special talks about HyoJN and HeungJN... also the prayers calling out, resonance and one-heart that we learned in the Main Korea Branch, we are trying to educate.

Church leader reflection: Where I have grown up, many think they have achieved things only if they have 4 wives and how to witness True Mother to such things.

And I have witnessed and met many, many times and the answer is Cheon Shim Won diligently...

another... I wanted to participate but did not have the money and prayed at Cheon Shim Won and suddenly the money appeared for the whole family to attend.

I only knew about True Mother in my head, but now I have experienced Her, and in the future I will be a promotional ambassador for the Mind/Body Unity Workshop.

During praise (Rev. Sakua) heard Mother's Voice, 'If we unite with True Mother, we shall live' So, we were shouting out, 'Omonim, wanganghaseoseo' and I heard, 'Shout louder'...

How can we produce results for HMH, 'We must act to produce results, move our bodies, not just thinking' Knock and the door opens.

One-heart prayer is expanding throughout Africa and being quite popular. This was a break time and there was a 2nd gen with a troubled body, and even I didn't tell them to do anything, these are the members on their own praying together for that girl...

In Benin, also, on their own doing this prayer. Also, they connect via Zoom to connect with other churches, and they also all pray for the health or witness to this or that one person. I thought maybe this will be of great help to the situation in Japan. They can gather online and bring about the works of Cheon Shim Won.

This is the SS, and they were doing one-heart calling out during SS without my saying anything. So, the culture of Cheon Shim Won is expanding to the culture of the church overall.... applause

A member came up to me and asked how they could converse and report problems and ask HyoJN HeungJN... They speak French and there is difference of the ones who speak other languages. I realized that to take notes and write down parts that you received grace by so it does not disappear. And another is to write what you want as an answer, a line of questions... any question on your mind and heart, and then in unexpected ways some time, you receive the answer.

If I don't take notes down in 30 seconds of experiencing, I forget.

Third, is to put into practice what I learned from spiritual devotion, or there will be quite a few limitations. So, we had the 8th day, and the participants offered a gift that I am wearing now... Here with True Mother's Face and it says 'HMH' on the back, so I believe this means to engrave HMH in my heart and offer devotion, and wearing this, I concentrate more to attend Mother and live more diligently. So, our African members love True Mother very much, and many are wearing the clothes with True Mother on it. Aju

This is the Northern District with 400 registrations and we had 250 people... with the GWs, ancestor blessing and near Congo a total of 1,090 543 onsite and ancestor liberation and blessing and offering ceremony and with 200 members we continue the H Movement... and again another area and green

movement, and a 1/2 day Workshop online with about 100 participants, and I received inspiration to add another program to go out and witness, and before going out we take a picture, witness for about 2 hours and attend people at the church and if cannot come immediately we try to convince them to come next time and had a Principle lecture and we brought 15 and then 20 people.

So, Cheon Shim Won education, 2 years ago we only had about 20 CSWs in the West but with PL and the church leaders of Japan, they offered much support and we have now 117 and at the 66th Anniversary of the Holy Marriage, every part, 100% has the Cheon Shim Won and I was dreaming for this day everyone could offer the Cheon Shim Won devotion.

Africa has many difficulties, but through the support of so many, we could lay this foundation. So, this was able from the main Branch, receiving donations and second was taking the portraits and taking the sculpture of Cheon Shim Won how to transport it, and Heaven gave me an answer... around the world even African leaders gathered and then we gave them the CSWs to take back.

Then third, was making a room... sometimes it takes even more than a year (but there's more than one way) and the solution eventually to our Chairman and Continental Leader could offer and establish these... Angola, Nigeria etc. applause to our True Parents

Africa, being there a while ago, I talked about Blessing life and difficulties members might have with leaders. We had a seminar for 2 hours at a time centering on online meetings and through my experience and what I've heard, I tried to conduct these, even no professionals, but from my 29 years as an international Blessing of 2nd gen and among the Elders and eldest we are actually the youngest couple...

And my family is here and there. We are split up. I'm in Africa and my wife in Korea. My first son is in Croatia, and my second in America and third in France. But today, all of us are gathered here. Applause

So, first is communication

Second, is spirituality

Third, is finance

So, our first couples seminar was in Cote D'Ivoire and we had over 100 participants in the 2nd one, and the third was in Togo and the fourth in Congo. And online we had more than 200 participants.

The fifth was in Guana

True Father: "Through stimulus, a couple can live eternally.

Developments cannot happen without stimulus.

Conjugal love provides the stimulus that can develop the ideal Heaven realm."

So, plus and minus are different. Therefore, they stimulate each other. And that is what gives us energy to live eternally in the SW. That is what our True Father is saying. And

True Father: "One must have the heart to love all humanity in the entire world.

Half of you is loving and embracing the man who is like half the fruits of all the world... to love him as the representative of all men in the world."

That is loving the entire world.

Again, one must have the heart to love all people in the entire world. And to have the view that embracing or loving the man or woman who will have the fruits, is to love him or her as if representing all the men or all the women in the world.

That is love for all humanity."

So, how can I love this person? How can I communicate with this person, my spouse? I receive this

question many times.

Father's perspective is a little different, it's good, it's great... He also emphasizes that you need to be able to love anyone of any personality, but also emphasizes the more difficult thing that is to receive love from others, which is more out of your control.

So, as time passes, you must continuously be a charming man, or a charming woman. This is how I'm trying to help the African community.

True Father: "What kind of husband is a good husband? It is a husband who says, 'I was born for you. So I will live for you. I will die for you.'" A true wife is the same.

If it is a family that possesses the Principle, corresponding by saying, 'My being born is for you. My living is for you, and my dying is for you. And going beyond oneself to live for the partner, this family cannot be anything other than the ideal family, a family of love, a family of happiness and a family of peace.

So, True Father said that if a family did not fall, then a husband and wife would naturally trust each other, naturally love and naturally experience happiness. But, why isn't it natural. I received that there are an average of 3,320 spirits in our bodies. And I believe those spirits are what is in the way of the flow of this natural love life.

Some may hear the voice say, 'Don't eat this apple.' And then you would naturally feel that you don't want to eat apples. And if the voice says, 'Your husband is weird. You can't trust him.' If you hear that night and day, you are going to start being suspicious of your husband. And the same goes for the husband, and they would have difficulty.

But after liberating the spirits in the way of this naturally flowing love, then the spontaneous feeling comes, 'Oh, I love my husband...'

So, there is what is being passed down from our ancestors. These fallen natures (words) are habitualized in us. So, like being a right-handed person trying to write with your left hand, but I think it would be great if we could slowly recognize our habits that need us to effect change.

So, among couples, there are many situations where one spouse partner is more spiritual and diligent in the life of faith than the other. So, what to do about that? True Mother and F gave us great wisdom.

"Be patient, and endure, and respect"

And if you are patient and endure and keep giving respect, through spirituality (devotions) you could overcome these difficulties. applause to True Mother

So, spirituality is very sensitive. So, when you talk about spirituality to your spouse, if you feel love and feel like you're being protected by your spouse, only when you feel this, you can overcome the kinds of anxiety.

So, I in the past, had opportunities to translate at East Garden in America. When True Parents came, I had the grace to translate for True Father. And one night some people went to East Garden. And True Father called us to watch a soccer match. And I came too. And I was doing a translation for morning Hoon Dok Hae. And the night before going to EG, there was a slight conflict with my wife about something spiritual. I don't even remember what it was...a difference of opinion.

And I went with that situation still existing. And then trying to translate, I couldn't open my mouth. So, I repented. And the very next day, I could open my mouth again. So, spiritual things, whether feeling that you are right or wrong, important is not to fight. applause

The third day, we talked about finance.

True Father: "So, a husband and wife, even while looking at a mountain in front of them, and looking at the entire universe, they ask for whom this universe came into being. Then they answer that it came into being because of me, and at the same time because of you. A married couple is exactly like this."

So, it is the same way with income. 'This income came because of me and it came because of you'

And it feel that True Father is trying to teach us about income. And how are you going to use your monthly budget? And we receive this money thanks to me and thanks to you, talking about this openly how money is spent and donated and used, like tithing, donations, transportation fee, education fee...

wouldn't that be good?

And you could divide, 'You can use this much, and I can use this much.' If you are open like that about finances, then you don't have to have conflicts or hurt each other with words.

And when a couple talk about finances, more than the contents, 'how' they converse is more important, with what heart and attitude?

So, I asked my wife about this. So, we're going to talk about finance. What should we talk about finance? And my wife said a testimony she heard in America:

A wife bought a purse without the husband knowing, and he found this. And he said, 'Oh, how could you do this. We don't have money. You're so immature.' And the wife was hurt and left the spot immediately.

So, rather than acting like that maybe we can think, 'Oh, maybe she had a reason for that', or 'Sometimes that can happen.' 'Sometimes she may need something to cheer her up.'

So, don't think that your concept of money is just right, but also take into consideration the concept of money the other person has. applause

So, that's the advice that my wife gave me. So, in my house, I was in charge of the money. So, at times, when I was busy, I just gave this responsibility to my wife, thinking 'Can she really take care of this?' but she took care of it better than I did, I realized. So, I thought maybe changing these roles is good.

So I was asked, 'Okay, but shouldn't the one making the money be the one who makes the decisions about the money?' And I asked and received the answer that, 'The first and final One that makes the decision about the money is Heavenly Parent.'

And through my own experience, my wife is wiser about finance. So, I said that in my family my wife is 2nd to Heavenly Parent who makes the decision, and then comes me. I shared this with the members and ultimately what are we to do about this? My conclusion is that Cheon Shim Won devotion is the most important.

Why? Managing money is often very emotional. If you can't keep your emotions in check, then you can't manage money very well. But, if you offer vigil devotion, then you're able to control your emotions. And as you offer devotions to Heavenly Parent, Heavenly Parent bestows upon you financial blessings. And Heavenly Parent also gives you wisdom to manage money.

So, I believe the greatest way to receive financial blessings is to attend Cheon Shim Won devotion. Conclusively, communication and spirituality are the important things, but overall it is important to model True Parents.

So, we had the graduation of the 3rd batch in H Africa and 8 nations praying devotion for HMH True Mother... and we are recruiting from May to August for our 4th Academy.

We also had the art competition centered on the culture of heart, and music competition, and like this we are advancing our culture of heart and art.

And True Mother said to make a beautiful Africa and a healthy Africa. So, the Green Movement that start in 2023, we have expanded to 6 and then 20 nation as with 1,000 and 20,000 participants and we did it 613 times

And PL gave us these purple jackets... and we're spreading them throughout Africa.

And people gave donations, like this generator in Cote D'Ivoire Church, and we offer calling out prayers for many people.

So, I take time to express my gratitude. And we are using these instruments in Africa and May 24 is an event coming up.

H Africa also made a video to encourage our Japanese members (they are speaking in Japanese, and they are singing/chanting on the video and it seems like HyoJN is saying words here and there...)

Break

Busking

Hoon Dok Hae

To establish the Heaven realm, love the people of the world. God's Purpose of Creation was for Adam and Eve to keep the Commandments of God, the Subject of True Love and become perfected as true human beings.

Furthermore, it was for them to become a true couple united by God's True Love. Also, it was for them to become the True Parents Who could have sons and daughters and live within that true love and live happily.

This would have been God's Hope to Clothe in Substance, and it would have meant the perfection of God's (then in Position of H Parent's) Absolute Love Ideal, with Adam and Eve having children of goodness, the fulfillment of the ideal where God Substantially establishes the eternal Position of Parent, and Desires to have infinite citizens of the Heaven realm by prospering the human lineage from generation to generation.

The Atlantic Civilization Sphere has failed. Spirituality disappeared in that failed circle. They only paid attention to having a convenient earthly life centered on the body.

Although, they could live a convenient life, unlike before, due to the industrial revolution, in the space of having forgotten the spirituality which Christianity started, sad, unimaginable things happened in the African Continent. It is because they did not know the Essence of Jesus and Who God IS (nor the essence of themselves)

Christianity started waiting in earnest heart for the Messiah, Who said He would come again. But it means the roots were not certain. Christianity started by the apostles who were resurrected by the works of the Holy Spirit. But there was no Contents or Substance. Therefore, as the times changed, it could not become a spiritual foundation that could give satisfaction in accordance with that.

They imprisoned lives that were lost and wandering with things that were coming from the human (fallen) mind, and created such systems and organizations forcing them to live only there.

Looking at a precedent of faith, the heart was not comfortable, and in the process, the priests made many mistakes. How would the Heaven realm be achieved in the future. One must go beyond nations and borders to love the people of the world (for Heavenly Parent) whom Jesus was not able to (reach while in a Physical Body of God) and love.

It means to love people of the world transcending borders, races and nations. One must love anyone, whether a person of the desert or a person from Africa, to love them like ones own children. When this happens that will be the Heaven realm on earth

HJ Praise

Cheonshim Choir

'Our Promise'

Pres. Lee Gi-seong's Message

40,000 members tonight

Today during CY, I saw the Cheonon offering praise and the minister in the front and Kim Song Gun so sincerely stacking up this devotion

In H Japan being connected to 15,000 locations, they are offering devotion

testimony... She had so many complaints and returned to Japan for the visa issues and when she came

back she so changed to have gratitude and be touch then by the warmth around her even with the language barriers and culture of filling each other's lacking parts, and that heart changed showing us what rebirth is. From now on, she will go to the work that can give love and reach out her hand first.

If your heart changes in such a way, then happiness awaits you. If you complain and hate what turns out to be small things, then happiness cannot come.

We saw a video of the trainees dancing. And right now WSs are being conducted throughout the world and if we establish devotion foundations, much grace.

The H Japan praise was, 'Standing Up' and we can see they are truly doing this.

Today Sache Ahiko, did not live in Japan but started her family life in Korea, and it was happy while doing Hoon Dok Hae together with her husband, but with the difficulties with jobs and the youngest in kindergarten, the husband had many surgeries on parts of his body. How much difficulty came financially to them then?

Seeing her husband living health today, what tremendous love is that from Heavenly Parent. Most who have cancer with so much of his body, and we can truly see how much Heavenly Parent loved her husband, and despite receiving that love, he is irritated easily and undergoes anxiety, but despite that the wife had to work as a Japanese teacher and raise the children and take care of the housework.

How to change this situation? changing the spiritual background... She did the 430 liberation and even achieved being a CheonBo family. What was involved with that we can only imagine. Her reflection was that she found a highway, shedding tears of hope, ever since the first Cheon Shim Won devotion until the 100th session and then miracles happened. Her back pain disappeared and she could resolve issues with her family, and she could receive a Cheon Shim Won robe.

But then by anger, her husband burned a picture of True Parents... If she gave up then, how difficult. But she had a consultation of the pastor's wife who said this was a process, and Heavenly Parent opened the path to organize (indemnify and resolve) things on earth. She got this answer, but spirits wanted her to give up, and Heavenly Parent gave her a test and she even said at one point, 'I can't do this anymore. I'm too exhausted.' and Heavenly Parent said, 'Do not ever let go of My Hand' and she said, 'I will never let go of Your Hand' and then Heavenly Parent embraced her after she said that. She realized what True Mother emphasizes, that Heavenly Parent is always with us.

So, it means that Heavenly Parent loves our family more than we do, and is giving much more love to our family than she was. Then she consistently attended the Cheon Shim Won devotion more. She eventually reached 450 and there was a miracle, the Rev. Sakua, said he forgets if he does not notate it right away. Even I forget also if I don't write it down (PL).

So, Heavenly Parent gave them a miracle that the eldest daughter returned to the church and received 2 WSs, and through the works of healing her headache disappeared and she was able to pass the high school equivalent exam both in Korea and Japan. And after the number of 700 devotions, her son caused an accident, but she saw through that a blessing that he would be spurred to overcome by it. And she convinced him to enter WSs...

Also she was able to reconcile with her husband as she could not do for 5 years.

So, we also must know how many devotions we attended, 300, 500, you must know. So, after 100 vigils,

the Jeongshim Won was renamed Cheonshim Won. And on the 300th vigil the continental leaders were given the crystal CSWs... And on the 480th, the leaders here would have educational programs and then until 3am have the Cheon Shim Won and 230 churches of the world were Blessed to be given Cheon Shim Won.

In Africa, now they have churches in 117 in 4 years. If we know the true value of Cheon Shim Won, it doesn't take 4 years. To know the value all 2,300 churches of the world would be connected. And we would be able to show the world, 'See our faith. See our passion.' And showing how we offer praise, we should ask, 'Look at our belief, look at our praise' To become such a church, how good would that be?

Words were supposed to be fulfilled within 3 months, but unable to do that, we have experienced difficulty. But now we have Cheon Shim Won for a new start... a gift that solves what cannot be solved by human power alone.

Our Japanese missionary fulfilled these words. 'I will believe that everything has a process, and like Mother I will walk this path of the Will'

Branch Leader Sako Sachamitsa... and how diligently he is working in Africa. He heard the Voice of True Father, 'If you become one with Mother, then you live.' and 'Shout louder' (in the calling out prayer)

He was given his position without even attending a 40-day Workshop. He had the ten-day Workshop and was given an experience with the SW, and could hear HyoJN and HeungJN's voice. He was supposed to be sent as a Secretary General but then became the Branch Director...

I could not teach everything on his own, so connected to the Main Branch to do the education online.

Today in our Hoon Dok Hae, Christianity started with the resurrection of the apostles but there was not enough Content and spiritual foundation, so that there was not enough to sustain through the industrial revolution, and people started to live only for their physical comfort.

The Christians did not have foundation to understand and experience deeply enough Who God IS and the Essence of Jesus... There was needing to continue to be Jesus' Love beyond borders and races and cultures... but there was vulnerability for the Christians to be invaded to make unimaginable mistakes...

(Tape cut off so I'm guessing what he said from the Hoon Dok Hae: Overall there was foundation for the Coming of the True Parents, but also the failures were passed on to make that inconceivably difficult. And even Mother was Born without need for any indemnity, the chosen people (of Korea and the BFs worldwide) continued to be not enough and even complain and betray HMM, OBD, True Mother's Identity, that led to Mother's present situation, so painfully difficult for us all, but making a global witness of Who She is by how She forgave, loved and united deep as ever with Heavenly Parent's Dream and Her Promise, there is a power move from that.

But now, with the youth education, devotions and determinations of the Garden of CP, and with all the

Cheon Shim Won vigils that we need to continue to increase in genuine war-like participation, as True Mother said, good things can really be happening, starting in 2026 as never before.

And let us be able to look back and present to Heaven and ancestors how we invested into the chance of the Golden Age to make the transformation of this world to the Ideal of Heavenly Parent' Heart, and liberate finally, finally liberate Heavenly Parent as True Father and True Mother have Lived and Die and resurrect from many crucifixions for. Oh God, oh God may we join one with Them for it.)

Calling out / Fight Song

Chanting

Prayer and Praise

Bow

Oeg Monsei

TY (and we love you)

a few more abbreviations:

SW - spirit world

PW - physical world
