opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Today as well in this Place of Cheon Shim Won which is filled with Mother's boundless love, so sincerely TY for allowing the precious grace of 1,449th Cheon Shim Won vigil... Now, one day before Parent's Day on May 8th in Korea, please engrave deep in our hearts the grace to fulfill the Dream of Love that Heavenly Parent held since the beginning of time. They untangled that tangled thread with Their Whole

Bodies and were victorious by embracing billions of satans with true love.

In particular, as we pass the first anniversary of Cheonwon Gung, Cheonil Sanctum, we come to know that the revealed substance of H Mother is the most amazing and greatest Blessing of our lives. Please forgive our shortcomings in not having realized this grace sooner. Please work so that the remorseful Heart True Mother confessed in Tears now becomes the Heart of us all, making this a time of earnest prayer.

Please work at this time. Even at this very moment while thinking about True Mother Who despite Her failing health, is Personally showing the path of forgiveness, love and oneness. Please work so that our hearts are awakened and may yield before the footsteps of that Sacrifice. Please work through us.

I earnestly beg and desire that, through our devotion, the Truth will be revealed and that You will work so that True Mother's return to Cheonjung Gung will be fulfilled as soon as possible, especially at this time, please hold True Mother's Heavenly Body with warm care. And please work so that it may be a miraculous time of Her complete recovery and strength.

Testimony

Hwa Quin Kon

gratitude

I am the 13th child son among 14 siblings

I received the Blessing with my wife. When I was 17, I promised my parents that when I came to age, I would take care of them, but at 18 I had a serious accident. The doctor told my parents to prepare for the worst, but still I survived.

A quiet realization came to me about a Spirit that came to heal me in that time. I believe it was HyoJN and Heaven had already been guiding me.

Four months later, my father passed away, and the filial piety I had promised was never happened. And that stayed with me for years and was not healed until True Parents.

In 1991, I joined and 1992 received the Blessing. My mother accepted it naturally and having given birth to 14 children, I believe her heart was already connected to Heaven.

In 1993, wearing a suit in Malaysia, I found myself in an elevator with True Mother and a member of staff directed me to carry Her bags. As the door closed, True Mother said simply, 'Please be My son.' And I was nervous at the time, but those Words became a compass for my life.

From that moment, our family held to a simple motto, 'If you have money or time, you go to CP' and that was foundation for all else. I made the promise to bring my children to receive the Blessing and stand on the front line for True Parents.

Today, I can say Heaven has been faithful to that promise. My elder son and daughter have been Blessed and my daughter serves at the TC and my son is enrolled in the UPA and also my other son is involved and in Malaysia, we are the only family to have sent a son to UPA.

applause

I will not pretend I'm not pride, but more so I'm grateful. I never once pushed them, just came to CP to report. When one sister here asked how I raised my children, I replied that I didn't. CP raised my children.

But honestly, the road was not smooth and I didn't know if I could continue. About 4 years ago, everything collapsed at once. My daughter fell seriously ill, and all our resources were poured into her care and then my elder son told me he wanted to run away from home and church and all of it, reaching his breaking point in the darkness.

I stood before him and said, 'True Parents gave me four children. I love all of them. No one has the right to run away, but if you do. I will find the way for you to go to CP.' He looked at me and asked if I had money to send him? I sold our car to send him. Before I did, something had moved me deeply, and I realized that True Mother had sold the helicopter for the next generation. If True Mother had sold something that precious, how could I hold anything back.

All I did was to send him to CP with a heart of offering my son to Heaven, and he came back differently.  
applause

Within a year my daughter's engagement and my other son's joining UPA. My wife quietly held my family together through all of it. There were nights I wanted to run away from my own situation, but I listened at CP to others with a worse situation, and I could repent and take the next step.

Last Monday, our family's 700th attendance came. When I first attended this session, I had in my heart to visit everyone in my region that I did not want to go out. My family became one of the first one to begin the vigil and now to 700th... During the last two nights here at Cheon Shim Won, something happened that I'm trying to understand. At first I was busy and tired, but when I began to reflect, something opened in me.

I looked toward the front of the room and saw colorful light and it was at one point my hand moved out on its own as if Someone was trying to give something to me. I have never experienced anything like this, with the clear inspiration, 'Whatever you prayer, Heaven will give you, not for yourself, but for the Providence.'

Every time I come here and call, Aboji, Omoni, every CY I invest everything I have, and I cannot help but weep. Because in that moment, I felt that True Parents as They move forward with faith, it is what has kept my family from giving up and instead staying together going forward.

Now, all my children understand Korean even my wife and I do not. We never thought they would come here and Heaven would teach them. And here I am offering testimony before you about the things that were inconceivable to be possible.

I do not know all the reasons Heaven has called me, but I know that Heaven needs someone to pioneer the path for Malaysia and I have resolved to be that person. (tears)

My brothers and sisters, every answer I ever needed every time when I wanted to give up, I found it here at CP. I hope all of you receive that same grace.

HJ Report

Kim Myung Wok

Director of True Family Counseling Center

Hello everyone. I would like to offer all the leaders with respect. To reach this level, when I think of all the BS and Ts that have been shed and tears well up, thinking of Pres. Lee... And today thinking of Father and all fathers, and applause to True Mother as well to bring Her comfort.

Today on grace of GWs and on touring...

TN's Words: Now is the time to experience resurrection of our own mind and bodies and for all who have been torn asunder under Satanic dominion and found and established true families. If you attend your grandparents guided by Heaven and become your own true parents, and raise your children, born without sin as they establish 4F couples, those without sin establish a family realm in one home. Heaven will be with that family eternally.

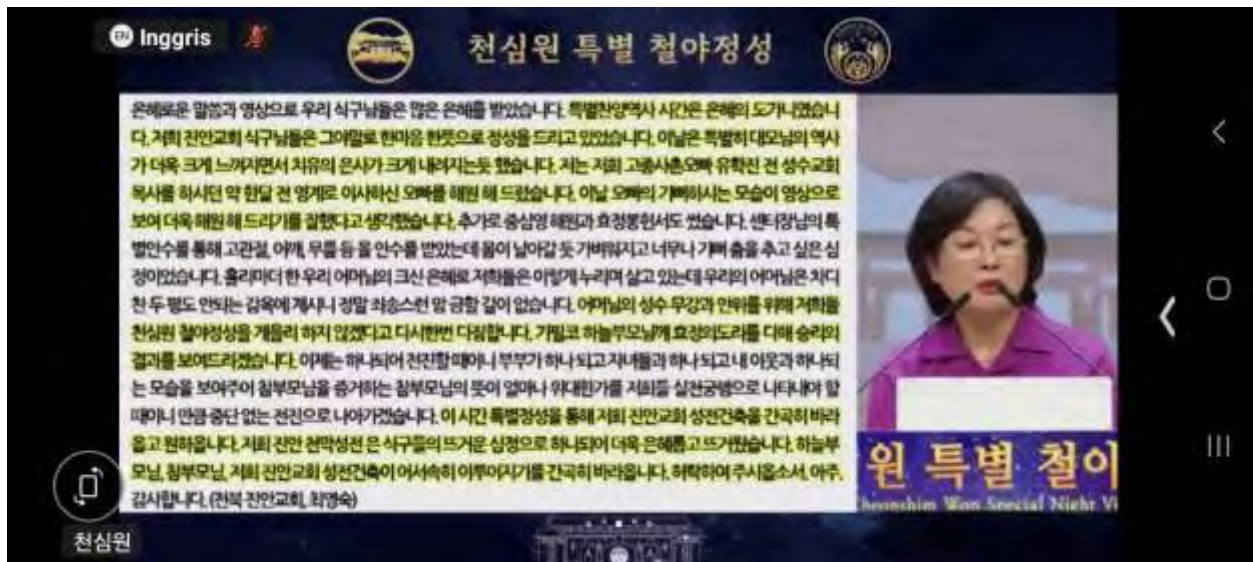

Although we receive Blessing, within the BFs there are a lot of difficulty, there are dark spirits, and we should make sure there is no sin left in our body. That is why you must go to CP often and do the work of separating spirits, an average of 3,320 per person.

Many of True Father's Words are difficult and not so easy to really understand as well. True Father said that when you love your husband and long for you husband, that itself is educating your child. You don't need any book while your child is in the womb. Even if you don't read any book, long for and love your husband more, but it doesn't mean you don't need to read at all... Like this, we need to decipher Father's Words (to emphasize importance of loving spouse)

Now, we don't just drive them out, but send them to the Workshop in SW so that they come back to help us and Providence. True Mother, knowing this situation of BFs and dark spirits, all of us must receive the education and organize and clear and have only good spirits. So, the GWs are held 4 times a year, and gathering all devotions, we could reach close to 600,000 registration... applause of gratitude for this grace.

True Father's Counseling Center during the GWs, we had the 30 volunteers who came, and we were able to offer 523 special ansu and consult 41 people... It seems like 500 but it felt like 600 came, some we had to have come back tomorrow and I believe we had more than 800. It takes 30 minutes to teach the value and held that 12 times, and we hope for their understanding in order to really receive all the grace. That is why we also held the consultation for 41 people, some coming with family, a mom with son and husband having a hard time and ill treating the wife. I told the son, now it's time to take care of the mom, and until the husband realizes, do not comfort him, do not wash his dishes for him, etc. If you do not do anything different, they will not realize what he is doing is a negative... by these difference it will trick them to check themselves and realize what they are missing.

I hope many members can change through this consultation and ansu, and we had the moms come to volunteer, and I am very respecting them, as they put their family behind, to work hard to share their love with the ansu workers.

testimony of having sciatica and could barely walk from the pain. I received it the day before it was supposed to be available. Now it was like soaking my body in a hot spring that I feel even now and so grateful...

(On the way to the CP like this and coming back like this with such a smile of liberation) When walking to the subway, she had to grab the railing and go bit by bit and the missionary with her took the video. (Treatment at other medical places and medication did not work, but now like a completely different person. Actually because the missionary has cancer was debating this form of treatment but now will go)

another from Chaewon Church said he could not swallow nor breathe well and is aged. Then she said she didn't think they could give him ansu in this state, but he held her hand and said, 'Please save me'. He had had anger accumulate in his heart, but that resentment was healed and now he can swallow and breathe. He went back carrying the Autobiography and saw the #13 near his home and after distributing copies of the Autobiography, he strengthened his faith and resolved to witness. Now, he is putting himself into action.

This is the wife of the International Director, Michael Balcomb, her left leg in great pain. Many dark spirits came out and she became light and is truly, truly grateful.

When I looked at her leg, the blood was not circulating well and a lot of spirits came out. Now she can run up and down the stairs.

This sister a former pastor. Last year while trying to take a photo at the mountain, she fell and did some ansu, but still it did not function well. Suddenly, Rev. Kim Yong jeong appeared to me and it seemed to be that I should receive the ansu from his wife and she could read my symptoms and the ansu was very effective. All doing the ansu have such passion heart and I'm so grateful...

I toured 284 churches meeting 33,933 members and peace ambassadors. This church I couldn't yet report about from all 3 tours. It is a church with a tent... In summer really hot and winter really cold, and they have to use the bathroom of the supermarket next door, but they put Hyo and HeungJN's portrait... then the police came because of the neighbors complaint for the noise. So, with no other choice, we made that tent and began to buy a lot of land until now.

True Father said, 'I miss that place in which we formed what we have now, and they kept that tent. They sold our church ground to build a church, and set up the tent first, but in that situation the members were

so passionate to attend with one heart and will. One day a great gift of healing was bestowed and the pastor that ascended, the son saw his vision and felt well that he had liberated him and will surely show the duty of hyojeong to Heavenly Parent and True Parents.

Beloved Heavenly Parent and True Parents, thank you for sending the missionary this time. I told the central spirit to please go to the H Workshop and receive the Blessing. The best group was established on a foundation of devotion. I the master set up a tent and stayed here for 2 days straight. The True Father put up a tent there and offer devotion.

This is the place of the tent for two years before the development. And these were attending the Workshop.

When revival was held it was two weeks after my 3rd child but still I felt I should go, and as we spoke of having children that all 4 were daughters, the Director said she should have more and this time a son will come, and this ansu the child still in my womb and when having a gender, before asking the gender as a son. The Director touched my belly and said, 'Do you know you are pregnant'... applause

another in leg pain... and then stinging fingers even she had liberated and then received the ansu and after patting for a while it got better... before could not form a fist

next church too hot and cold with summer and winter, but they do their best to encourage each other and go forward... Mt Mi is a sacred and proud mountain on which True Parents stopped to pray and said, 'That mountain is my mountain' Again, the police came because of the noise. And we should not cause difficulty to neighbors. But relief came for the pain and one for Parkinsons... and Lee Song Je, a son, 3rd child is currently in Workshop.

At first he was not diligently working, and the pastor came to the TC and asked me to watch over her son and I told him, 'Su ho, you should work diligently but the Workshop had already ended at that time and he was about to leave. But it happened by my suggestion he attended again and now I said again he should come to Yeongseong Workshop and he did and attended well.

In front of the Mountain, we bought the land and waited for construction again. This pastor went to CheonBo Unversary has a younger brother with Parkinson's and he left the precious words. 'When the

morning light rose over the mountain we stood at this place like a sanctuary, and a place where the sorrow of Heavenly Parent had flowed for generations. The grace flowed like calm waves, but beneath was a deep labor pain that shook thousands of years of history since the fall. After the first choice by Adam and Eve, humanity left the Bosom of Heaven and moved away from the orbit of true love, true lineage and true life.

To reclaim one piece of that lost Principle, Able and Cain, Noah and Abraham, Jacob and Joseph and Moses and Jesus, countless central figures led the era with tears, but the Providence could not be completed.

Finally, with the Coming of True Parents of Heaven and Earth the lost Lineage was restored and an era opened where the Roots of Humanity once occupied by Satan, were liberated through the flame of Hyo Jeong. This Workshop was the evidence of that very era. But this testimony flows and soaks our hearts, not as individual motion but like a stream and river of the Providential history which has flowed

The words if you have earnest faith, it will be achieved, were not just an encouragement but a formula through which Heaven works and a mechanics of Principle. We placed our bodies under the waves of jeongyeong, and when the touch of special ansu descended upon our heads, we felt the record of Adam's tears, Jesus crying and BS and Ts of True Parents trembling within our souls. At that moment my central resentment spirit woke from its sleep, the shackles of fallen nature shook coldly, and deep bindings of the ancestors began to loosen.

We were standing on the path of CheonBo, totally sanding up to bring peace to the world. If one family stands upright, it can bring the seed of Cheon Il Guk.

I alone am honored above and below Heaven. Spoken by Shakeu Shakyiah Mooni.

I had to move toward responsibility love that transcends myself. Now, my salvation must not be my salvation alone, but a Providential Salvation where family, tribe, nation and world are liberated and restored together.

Therefore, we pray for the day when words of religion stop and the walls of the earth crumble and the cries of hunger and the wounds of the environment are healed. When that day comes, Heavenly Parent will smile upon all Creation. The shadow of Satan will completely disappear and the sun of Cheon Il Guk will rise above every soul.

And I realized that today's Workshop at Cheonin yeon was not a simple Workshop but a step toward the Completion of the Providence of Restoration connected to 6,000 years of human history. I am standing on that path as a person who walks following the Dream of True Parents, a person who testifies to the era of liberation and agrees for the dawn of Cheon Il Guk

The person who wrote and send me these words, truly he is a precious person to have. After he retired, for the farmers, he is working diligently, providing and supporting, and his father was also a judge in a high court... such a smart family. So, our District Leader has witnessed to him, and he even has a title in the church for working diligently... applause

And when you go to Jinan church there are many, many, so precious people, even that I don't know how I can introduce everyone. But one of the sister's said that, during the Service, the heat center flared up from deep within her, and every single word pierced her ears perfectly. Every evening her legs hurt so much and cramp and twist. She tried to find out why.

Heaven told her that in faith you must fight and find out to master yourself. I had not found out about the central resentment spirit until now. And I said, 'I am so sorry. But now that I know, please go to the Workshop at the TC, receive the education, become an absolute good spirit, absolutely cooperate in everything HMH True Mother does. Will you become a good spirit so that our True Mother can return to Cheonjung Gung? They replied that they had already arrived at the church, and that is why I didn't hurt this morning.

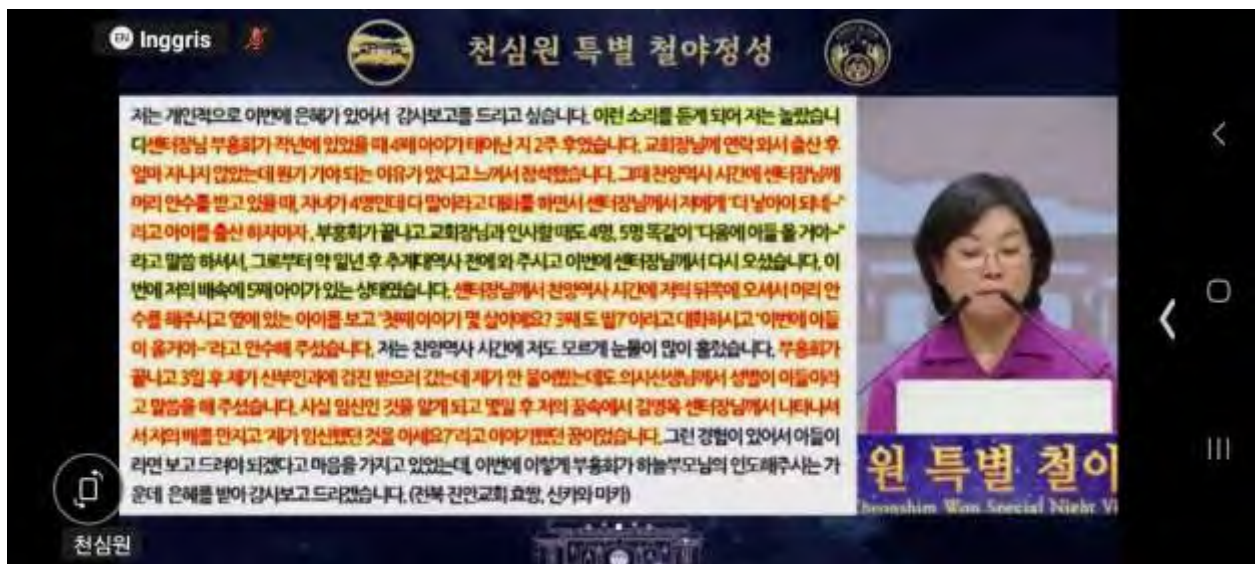

Earlier when my body was heating up and I was shouting Aboji, Omoni, three people came to me and said, 'TY' and left. How happy must I be today. Also, I have had five spinal and back surgeries and the pain went away from that as well. I am so thankful, and I love our central director so much... applause

This person is very spiritual, so the pastor introduced her. And the choir practiced very hard too. So, the sound of the drum was so clear, and I felt like my body was moving by itself. And the person on the piano and clarinet and the leaders of the choir and one member always plays to Sachs phone when I come, like this... and in the time of service the pastor and all the members dance, made to do that with his Sachs phone... A month ago he ascended and I so missed that playing, but we pray for him to settle well in the SW...

Also, there is a director (showing her singing. I asked the drummer, I want to learn that too... had pain, started coughing and felt something exiting from her lungs and what was cold from an old fracture became warm, and her heart became so happy and so thankful to the Director and ansu volunteers...

She did a checkup and was told she had breast cancer but it didn't spread and I felt there was a central spirits and in a dream two spirits appeared for two days, and after the liberation she will receive the surgery well that will end the cancer.

These three play the clarinet with all their heart and effort... and there are soy bean and pepper paste and a sister works on this as a profession and she is very familiar with leaders in the area and she sends this paste to the pastors and members. And the 3 sisters attend the church as our family, and she is the master in the pepper and soy bean paste. So, this tent church have passion and abundant grace and without complaints the pastor says 'We'll just endure through it and make it happen'

Last year on November in April 19, the pastor and his wife are a grand church and there were many to receive the grace.

Last time during the consultation the Director asked about me and prayed for me, also my wife prayed for me so hard, so I decided to come to the church. I usually tell the wives to do 4 things so your husband comes... cooking and cleaning well was 2 of them that she did... I will share more next time.

There are the Yeongseong graduates there. I will be someone who conveys the deep love, and through the praise, 'I Will Love You with My Life' and it was a time to deepen and feel grace through Director's words, and I resolved to work even harder in the ministry and join Academy next year, and the one feeling so comforted and to feel the Love of HPs a lot, and it became an opportunity to convey this love to all the children who are surely receiving it, but do not feel that they are.

I served the Academy and also working in America, and looking at the people who were so fallen and to serve the people of the church who are dormant and do not have faith. I thought of my mother-in-law who is not restored, and how her dark spirits could be separated with more hope...

I felt so joyous to see these pure waters.

another I felt more grace than ever, and thinking of this Heavenly opportunity and especially now during True Mother's difficulties and the ones who absolutely needed it have more grace. There were testimonies of dark shadows in the heart disappeared and then the member could feel the Love facilitated by the words of Kim Myung Wok that came from HMH.

One who is not our member received the words that she must go to this church. 30 to 40 years ago, my father believed in Rev. Sun Myung Moon and spoke about him day and night, and I received that I need to go to this church. During CY, she was dancing like that, but not wearing white thinking she must be a member, but because she came by recent revelation I understood...

another healing... Kamsahamnida

Missionary from Philippines... and could not walk properly... so bright and happy... another showing how improved her arm is after a year of pain... grace surpassing other times for many...

... saying more grace is being extended even just with sincere Cheon Shim Won prayers...

'A Child is being born with the highest participation in the Parent's Love. That is conjugal love. We must embrace these words within our heart and I hope that my report can serve you all to become one with Heavenly Parent and True Parents and make great victory

Break

---

Hoon Dok Hae

The person who lives for the sake of others does not perish. Originally, God centering on the first ancestors, Adam and Eve, intended to settle a world of true peace on this earth. If they had not fallen but grown only according to God's Will and perfected their character, they would have, along with God's Blessing, formed a true family and an ideal Heaven realm without sin and suffering.

That very world would have been one of peace, and God's direct children from generation to generation, would not only have communicated directly with God, but also enjoyed a happy life, while freely communicating and coming and going with ancestors who went to the SW first.

Also it would have become a world of absolute sovereignty of goodness where one could not commit sins even if they wanted to. In Genesis, it says that there were two trees in the Garden, one the Tree of Life and the other the Tree of the Knowledge of Good and Evil. What are those trees? They are the true men and women who God must find.

Because humanity lost the ability to become a true father and mother, they are words symbolizing that. I have taught all of it that way. When leading the Israelites in the wilderness, there was a pillar of fire by night and a pillar of cloud by day. That symbolically showed that the people should attend Parents when They come in the Last Days, representing a Man and a Woman. Anyone who does not will perish.

If you do not do the work of passing on Heaven's Blessing to those around you, your ancestors in the SW will make you, yourself pay indemnity. It means they will rebel. They will keep blocking the way and interfering. They will say, 'It is written like this in the Pledge, so why aren't you acting?'

Therefore, I am telling you to share it all. If you don't do that, you will be caught when you go to the SW. It is the single most important contract document. The person who lives for the sake of others does not perish. Also, the spirit world keeps coaching them, making them form relationship with new things.

Because they form relationship with new things, that person naturally becomes famous, and known worldwide.

'I Will Give All the Love in My Heart'

---

Pres. Lee Gi-seong Message

We have passed 40 Sessions 49 times, when we come to tomorrow's vigil of 1,600th. So, I believe for amazing things coming.

More than 42,000 have gathered

Grand Church pastor message

228th Day since True Mother's Detention. They pray at the DC. As we gather our devotion, the time will come for True Mother's Status to be set strongly before the world. Our True Mother walking the Course alone, the path that True Mother sowed through Her Tears, Heavenly Parent remembers. True Mother, Your Heart is deeper than the ocean and wider than the sky without unchanging love.. We long for Your Love and to see You soon, and we want to repay the love as your filial sons and daughter

TYVM for unchanging devotion. Now we have come to May 5th which is Parent's Day in Korea, which began as Parent's Day but changed after 70 years to be Mother's Day in 1956 and today is the 70th Anniversary but after 53 years it changed so this is celebrating Mother's Day for the 70th year, and we cannot but confess that our prayer has been lacking and we want to show ourselves earnest before Heaven...

Today Cheon Il Guk leaders, we had a meeting, and they were supposed to go a long distance, but they came here instead of resting.

If you move forward with Cheon Il Guk devotion, you will be victorious, and we witness the report of it from Director Kim Myung Wok...

And Kim Hyang Jang, the spirit leader in the SW, she appeared to the sister and said, 'You do not know

me,' but he guided her to receive the ansu.' To think about it, our leaders in the SW are working hard, and you must believe that and call them out diligently. If you do not remember them and call them from the SW, they do not have any power to work through you. They will work only when you call them.

Also, True Mother told us to call out to the SW and mobilize the SW, telling us to pray, 'Father, I will go to such and such a place, so please work.' You heard True Mother saying those words, right? So, I hope you offer prayer so that True Father can work.

And if there is someone closely connected to the SW, and you offer prayer with that person, you will realize how Heavenly Parent is working, giving Blessing to those spirit beings. True Parents have laid that foundation so that each and every one of you are the tribal messiah who have inherited Heavenly Parent and True Parents ability and wisdom.

So, if you accomplished the mission of tribal messiah, your ancestors are waiting, and if you don't call and mobilize them to work, you are more prone to make the give and take action with the satanic spirit all around. The energy comes from the give and take action. And the person who is influenced to commit suicide has created such strong energies to make one person die.

So, all of human beings have sins: hereditary sins, collateral, individual... all those sins are connected behind us, so that is why dark spirits, evil angelic spirits work through people by that, but we as BF's must change the world through the energy and power for goodness. So, that is why we must communicate and hold give and receive action with AGSs.

So, the more you offer prayer, the more you call out Father and Mother, you will receive strength. During heongseong and during the Workshop, you must call out diligently, offer prayer and devotion in that way. And by doing so, such power of faith to carry throughout one's life is made.

So, that is why many members still do prayer and devotion when they go back home and they are the ones igniting the fire at the church. So, as our 1st, 2nd and 3rd generation come to the WSs and transform, you should not stop lighting up that fire, but encourage that fire to spread in others for all Korea to be ignited.

Our sister received revelation to attend the Workshop, even she was not a member. That she came and was dancing so energetically is because of the power of the SW. You can be able to inherit the Will and set such a standard and authority together.

Offering prayer with his life, he established Busan Church and now become where it is at. The pastor and his wife offered so much devotion and many great works happen there. There are security who wear the nice uniform of that spirit energy. And one of them had a very severed heart/emotional problem and decided for the suicide. He came to the TC shouting he must hang himself to kill himself, but now is so handsomely working security. And this must have his and our gratitude to spread throughout the world.

The testimony of today I hope you will listen to over and over. His mom had 14 children, and he is the 13th. True Parents said that if you give birth to a lot of children, you will be reaching to Heaven closely. He resolved that he would attend his parents when he came of age, even he had older brothers and sisters. Then Heaven looked on him favorably to choose to do Malaysian Providence.

He had an accident, but was protected and it was HeungJN? who came and supported him. The history of finding the OBS and OBD who can understand and liberated God's Sorrow, that person of filial piety is very precious, and to give birth to a child like that is the most precious fruit of Providence.

He met True Mother in the elevator, and in that moment Mother said, 'Please, become my son.' And our brother remembered those words precious. He had his faj8o6 motto, 'If we have money, time, we go to CP' This family motto I didn't hear before. It is so precious.

13 years ago, he made the promise that all his children will receive Blessing and bring them to the frontline for our True Parents. Heaven kept with that promise with him. His children, attending language school preparing for UPA, the other son joined UPA, working at the TC and other two received the Blessing.

He said that he did not raise his children but CP raised them when he came to CP and report, and no matter what he sent his children to CP. (He sold his car to do it for his struggling son at time of financial devastation and he wanted to run away (the son said). If you run away, if you go to CP and resolve, I will do everything to find a way.' His son said, 'Do you even have money to send me to CP? (And that was when he sold his car, remembering how Mother sold the helicopter. He changed completely and came back.

Through this we can realize how important 40-day Workshop is. No matter what, I hope you send your children to Workshop, not just look at them as a bystander, but offer devotion for them and desperately ask them and send them to 40-day. Whenever he wanted to run away, he offered devotion. Seeing others with greater trials, he repented and connected the more to Heaven and took a step forward.

I hope all of you take a leap greatly forward. Our brother reached his own devotion with all of his family together, the 700th. You must actually attend, not just watch. They don't clap or do CY, just vigil and some make great actions and pray hard. Those just sitting and watching and falling asleep are not a

consequential offering... We need Heaven's people of attending and offering. Offering tithing, service, donation... instead of myself, I offer this, so please accept.

As you gather those kinds of devotion, you must gather it for the fruition of the mobilized SW cooperation works.

700th vigil centering on True Parents's Heart, the resonance prayer of Cheon Shim Won is the greatest gift, as he calls out Aboji and Omoni and sing Songshingja and he cannot help but tears and resonance with Heavenly Parent and True Parents's Heart.

He realized that no matter what he prayed, Heaven would listen but not to be just for yourself, your emergency, but pray for the greater Will and Heart, and then you will receive. Cheon Shim Won prayer then will never fall to the ground, so do not fear. The Living Heavenly Parent is with you. What should you fear, as True Mother is telling us.

Even the church is dissolved, it is being used as a tool for victory...and they will see greater works of

Heaven unfolding before their eyes. Jesus' disciples ran away thinking everything is gone, but Jesus said, 'I have completed' and He stood before the disciples and was resurrected and given authority by His True-Love Life.

In 1907, there was a great work of the Holy Spirit by foundation laid for that. That great work of offering prayer and devotion, Jesus came and offered His Mission to True Father. In the early days, so many attended church through revelation, and she was dancing. They received strength and work of Heaven was unfolded, as needs to happen in every church today through Cheon Shim Won. We read the amazing Words today. The pillar of cloud by day and fire by night. Any who do not follow these pillars will perish. We walk the difficult course, but the Cheon Shim Won devotion is the pillar of fire, and then we will see hope. Otherwise, you will be tested and fall into despair.

Those who offer their life will see the work of Heaven for substantial results of victory. You have read True Parents's Words today. The SW keeps coaching the people who live for others, and they grow into new things. Because we are living for the cosmos, more and more will come out in the future, and that will be done by Cheon Shim Won.

Our brother Qwakook (kook sounds like a soup in Korean) but he said, 'All the ancestors I received and praying I always found the answer and I hope all of you receive the grace I received' Providing a proof that True Mother's Words are substance. (And if you cannot resolve, you must make the difference yourself to receive the response from prayer by diligence praying for the Wish of Heaven for all others, praying for the Heart and Will of Heaven and consistently going forward with faith that Heaven Parent is with you, and the circumstances given to you that are difficult, spur a process (a shake up) for organization and disciplined faith that makes you a victor of overcoming for God's Joy, in a filial motive, finding true happiness and joy ourselves...)
