Beloved True Parents of HEH

TY TY We're grateful for you throwing the Gates wide open at this time and presiding over the vigil... Heavenly Parent. please guide us in this holy sanctuary to be one with Your Heart, by connecting with Your Heart and Hope with True Parents. Heavenly Parent, please guide us. Let us realize that restoring the sinful world of death and all humanity in Heaven and on earth is Your Holy Mission and hope.

Let us awaken to the fact that the historical foundation and mission, beyond all trials and hardships lies with us. Please work so that we may practice and put all our strength with devotion that moves Heaven for the Will entrusted to us, and testify to all the world that You are the True Parents, the Savior King and

Queen of Peace.

You have walked a Life of BS and Ts solely to save humanity for peace so that we may welcome a shining new morning of lights. We earnestly hope and desire that You will bestow Heaven's Power and Authority upon us and lead us, so that we may advance without stopping, until the day of victory, shedding more tears and offering all our devotion for this nation and humanity.

According to the Words Commanded and the Path True Parents have already shown us first. HPs, at this time at Cheon Shim Won, which is like the Palace of eternal Life, we will be newly reborn with Spirit and Truth and march out as Heavenly warriors who can return the glory and victory to You.

Therefore, please be comforted and work upon us, in particular all BFs in Japan the Mother Nation are becoming completely one with True Mother and are miraculously resurrecting and proudly rising up and advancing through a fire-like works crying out with Spirit Works of Spirit and Truth. Therefore, please work among them.

Please answer the prayers of the children all over the world, who are praying earnestly with all their hearts at this time. Please work so that we may offer actual results of victory before Heaven. Please work so that all good multitudes and righteous people who are offering devotion to achieve that nation of peace and that Will, which You so deeply hope for, may be gathered and united as one on this Place, the Cheon Shim Won.

Please work upon us, earnestly hoping for True Mother's long Life and Health,

Kim Jong Jin

Just as You have founded and raised us with endless devotion and Love, let us see to repay Your Ocean of love, and be filial, deeply awakening that

Longing to live in deepest joy and love eternal, God was ever seeking for a

offering flower banquet and the miniature Hyojin jong

today is Parent's Day, so today we'll offer flowers... and the trainee who received the 6th and 7th Hyojinjeong Workshop and received much inspiration, he actually made a Hyojinjong himself and sent it here, so with coordinator Yun mo mi and Hiyong, they will be offering it as representatives and flowers offered by Cho Won u and elder Pastor. and the Hyo Jeong Motto will be offered by Coordinator I Ji Yong and I Won mi...

Representing all of us, they offer the flowers

And spiritual trainee Kim Ari prepared the song 'Mom' or 'Mother'

lyrics:

I met You for the first time. I cried as soon as we met. Whether it was out of joy or out of sorrow, I cannot even remember. I had nothing to give, so I only received. Even then, I didn't know what gratitude was. I have lived my life knowing nothing at all. True Mother, why does my heart ache so much just by calling Your Name. To You Who gave everything and yet regret not being able to give more. What should I give to You? True Mother, my True Mother, why do these tears fall so freely? More precious and more

beautiful than anyone else. You are my, my True Mother. I only now realize how hard it was for You. You cried so much because of me. Why I was like that then, and how many times it happened, I cannot even remember. Please don't be too moved by my small gift. After all, You gifted the whole world to me. True Mother why does my heart ache so much just by calling Your Name. To You Who gave everything and yet feel regret for not being able to give more. What should I give back? True Mother, my True Mother why do these tears fall so freely? True Mother, True Mother, Your are my Mother...

President I Bon Sok from H Japan

Due to the dissolution order, we don't have our own churches, so I connect with you from my home.

Respected leaders and family members, hello

Approximately 157,000 participated in the GWs... records were surpassed in all areas... True Mother's path of Heart and suffering is giving rise to miracles of resurrection. In particular, H Japan faces a situation where the nervous system of the FF was paralyzed due to the church being closed corporately, yet more registrations were made than before where dead nerve tissue was brought back to life.

As Mother said, when you look through eyes of faith, H's Will is being prepared with a new path opening. Gratitude to PL and staff to prepare the GWs.

Now is the 39th cycle of the vigil devotions, meaning that now meeting the Parents' Day makes me feel special preparation and guidance. With the Original Root of Parents' Day, I am grateful to meet this time by becoming completely one with HMMH, the Substantial Manifestation of H Parents.

In other words, on April 25th, Mother emphasized the importance of this 60th Parents' Day, when the Substantial H Mother must be established throughout the cosmos, and all AGSs and chosen BF's will become one to return honor and glory to HMMH, King Mother, our Wang Omma and will report Hyo Jeong Testimony from H Japan

'Because this was the first GWs (Hayashi Shijo) since the dissolution, I had no idea how many would attend but it was explained the value, and the volunteers set up environments and cooperated with the neighbors and continued outreach house by house. The family members voluntarily set up internet environments and cooperated.

There are many rising changes regarding understanding of the Word and vigil devotion and current Providence, so that we could surpass applicant numbers reaching 291... (in that area)

another: While H Japan is situated in the dissolution, so we attended from home, by connecting a temporary Cheon Shim Won, our house was like a sanctuary and my son's addiction to smart phone has improved. He is exercising outside and helping with housework at home. I feel True Mother personally embraced the heart of the children with love.

My first spiritual child was miraculously matched with a Rwanda sister, and he who had left the church, returned, and that the Blessing was right before the GWs was miraculous.

The Words Mother left pierced my heart and with repentance we were able to make a new start with great gratitude for such grace.

another testimony: I wanted to apply for as many liberations as possible, but then an accident occurred with someone running a red light and speeding. The impact was so large with the truck completely crushed and the other completely crushed and in a situation where either could have died, both being unharmed was miraculous. Even GWs were not just begun, I am sure that the protection was just even from the registration, and he said he was alive because of the volunteers teaching and reaching out for us to be registered...

Respected and beloved leaders and members, we will march forward from this foundation...

New Branch Leader of H America Welcoming Address via Zoom

Respected Leaders and Family Members, Hello.

I am Shin Dong mo, Branch Leader of H North America

I arrived in LV where the Cheon Shim Won is located on May 6. I am scheduled to be inaugurated this Sunday on the 10th.

Here in LV, in the last years it is the Place where True Parents offered devotion upon devotion, and I along with our members and leaders on May 8th are facing the morning in True Parents Bedroom and on Parents Day we are longing for our True Mother even more, and to bring comfort to True Parents, we will do our utmost.

As soon as I arrived, the members wearing the Cheongshim robe, they welcomed me and we did a photo like this. And President Kim Ki Hoon introduced the Place to me. I was grateful for that. Then during dinner we talked about practical things. Then it was time for the Cheon Shim Won devotion, starting from America time 10 to 1am, and we start with Aboji/Omoni and Fight Song of the will and 210 times calling out and resonance prayer with similar program as the Main Branch and then on Thursdays connect to the Main Branch Cheon Shim Won...

Here is the subtitles in English, the audio is Korean and we put the titles in English and convey Pres. Lee Gi-seong's words like this, and here are Yeongseong Academy trainees and several volunteers offer live

Hyo Jeong Praise and sing songs from Korea and offer devotion together. Next, our Academy trainees and volunteers pure waters from Korea are here and now we are on a Pilgrimage and putting all our efforts to witnessing. And the Pilgrimage is where True Parents went Themselves, and even to the Bryce Canyon.

Please come to this N America and revive this America spiritually and tour around the places where True Parents had most devotion. And every day and night the Spiritual Academy conducts witnessing activities and recently we had two new youth witnessed to, and they are connected with the LV Family Church, and they are at 'Dinner Night' and let us lay a foundation for them to become core members. Truly they are saving many lives, and for America to fulfill as the Elder Son and to fulfill and amplify this, we will do our utmost.

Brothers and sisters who are participating from around the world, I am immensely grateful.

Testimony

journey of 3 children returning to the mother's bosom, with the mother's devotion serving a fertilizer.

Being with the church would change my friends attitude, one who was a Christian pastor's daughter and I was called to that house and scolded severely...

My sister when you were wondering and lonely at high school and no one to connect with heartistically, feeling that every time I brushed my teeth even. Every time I argued with my mom, but I wanted to spend time with my family and receive love, but my mom kept going to church and talking about church, and I felt I was a stranger in my own home, and maybe it would be perfect if I weren't there. I felt I had no

parents or dreams and did not know how to live.

No matter who I was with, I wasn't happy. I felt I could never return to the time when I got along well with my family. But then my sister's Blessing came. I thought I wanted to receive the Blessing, but if it doesn't work out, I doubted. Everyone around me said I should go to a 40-day, but since I never had any thought of that before, I just let it pass by. But I had the experience that the whole universe was telling me to go. When Director Kim Myung wok came, she said, 'You who are the oldest daughter should go to 40-day' and She said PL's Words that ' You should send your daughter to 40-day even if it costs so much money'

My first Blessing didn't work out. I went... I found a 7th-grade girl who came alone. I approached her and made friends, among the Workshop participants. And her mother said, 'Jeju Island, what's that name?' And it turns out that she was the cousin of my present husband, who I met at the matching gathering.

So, we said, 'Let's meet again at CP. And during that period, he came from Taegu to CP twice, with that meeting continuing until now. At first I thought it was a coincidence meeting. But I continuously had a hatred for my former Blessing, thinking, because of him my Blessing was broken. But my mother said, 'Only when you can truly forgive that person and wish for that person's happiness, will you be able to have a new start.

When I chewed and digested that, I thought those words were correct, and I poured out everything inside me, and prayed for that person. I didn't realize how my sister had forgiven and then met my current brother-in-law.

That day, my sister looked beautiful, and my mother looked so happy, and I also wanted to be happy. So, on the way home, the words just popped out (with the help of my ancestors, saying, 'It is time') When I went and heard the 2nd gen around me calling out so sincerely for Mother, tears came without realizing them. I difficult for True Mother to be the only One that remains for this Dream, and I wanted to hold Mother's Hand and bring comfort and love to Her... I wanted to love True Mother, and I heard that M loves CP and I made my decision.

I was so happy for the time spend serving and it felt too short. Just as much as I struggled and sweated, I

have come to love Gapyeong.

My dad was surprised by us, and his negative feelings changed. He had been so stressed and he tried to relieve such feelings at his house, but I was difficult to accept it, but closer to Mother, hyojeong was planted in me again. Thanks to my mother's devotion and True Mother, when I see my sister restored and working hard at the CP, all feel resolved.

'Dad, the fact that you now tell me you love me naturally, it is so amazing to me, and I see that you are working and trying so very hard. I thought I hadn't felt your love so much until now, but now I think you were expressing your love through all your actions, trying, and I too will try'

'Dad, coming to this Workshop, I thought a lot about you, Appa. I realized that I never once offered devotion for you or tried praying for you, only blaming you and turning away thinking you were strange. Before you were my dad, you were truly a son of Heavenly Parent, and I'm so sorry for ever hating you'

The mom: 'Because you loved art so much, it was hard to be closer with you centering on the church. I didn't realize the delicate heart and passion you had. But now, seeming that we are becoming one through the children and seeing you offer bows to True Parents, every morning and evening makes me so happy, and you are the one Heavenly Parent and True Parents gave me and I hope we can come to CP together sometimes.

For giving me these daughters, gratitude to Heavenly Parent and True Parents...

The daughter: It suddenly occurred to me that I wanted to receive the Blessing, not for myself but with a grateful heart for True Parents, and no longer torment myself. (Now she is doing missionary work in America) I believe this family will work for the Will until the end. and applause to our N American Branch... There she is attending vigil with us...(Me eh)

The final news is a poignant confession of a mother and daughter who had suddenly lost the father, and the daughter's tears after the seonghwa and the mother, through he husband's empty seat, experienced the heart of True Mother. But the communication one-on-one time conducted by Pastors Moon Daeg Gwon and I Gan Gwon and who considered Cheon Shim Won as life itself, became a catalyst for opening the hearts of many 2nd gens.

I and 5 siblings just went to church on Sunday and I was not wanting to hear that I should receive the Blessing...

Mother: She was at an age of puberty and distancing from her father... I heard that on the way to the funeral, he realized he had forgotten to pack his medicine but he went to the funeral regardless and then was undiscovered in the rest room collapsed. When I received the call, my tears wouldn't stop. Because my dad who I thought was strong was lying unconscious, he didn't seem like my dad. Looking at his phone he had a medal around his neck that I had won, but at that time his face looked in so much pain. Why couldn't I love my father then. I would hide and cry while looking at the photo, wanting forgiveness but feeling I couldn't, and I still hear the sound of my mother wailing.

He left so suddenly, no preparation heartistically. Because he had stamina, he got up before when he collapsed from a heart condition, and I thought he would get up not matter what... I was not prepared and I had relied on him my whole life. He had continued to farm, because it was hard to live with a family of 9, I took work also and helped him on weekend. With the in-laws we were a large family. A void was created when my busiest... and how to handle all those tasks alone.

I had no luxury to look after mental matters of the children and then the children didn't go to church when I didn't. I turned my children into dormant members. My eldest brother and third brother decided to receive the Blessing out of filial heart to my mother... My eldest son, I think, wanted to give his mother strength by doing what she wanted.

Mother would just change clothes and step forward to go to church. I felt Heaven was helping, because of the devotion. The children asking, 'What is making her so earnest?' and she said it was for the family, for all of you. My husband and in-laws are in the SW, so it is like preparing dinner for the family in the SW. Thinking that way, I could go to church and offer devotion even more. After performing the rites and doing the dishes then I would go with my mother.

I learned the true meaning of prayer. I laid down my anxiety about employment, wanting to join my mother's devotion and plant my roots of faith more firmly, and even in socially difficult situations felt the shimjeong of my mother and True Mother. When dad was here, I didn't know well the love and preciousness of that. (tears)

After learning how much he endured, I shed tears of regret with the heart of missing him so much (scene of him with her as a baby in a basket in the water, him sailing her in the water holding her so precious) My regrets burst from my heart.

True Mother Who sent Her Son first... When my mother passed last year, mother having sent you to the nursing home. While I was at my job, my mother wouldn't eat alone, so I couldn't live without attending her and eventually she regained her health from the nursing home. A few days before she passed, she said she could see my husband, and she said she had come to pick you up. Sending her son to the SW, how much her heart must have been crushed, with entire will to live. But True Mother had to endure what kind of pain with sending multiple sons...

It was difficult to go to church because of the way my mother-in-law viewed me. If she saw me negatively, bad rumors would spread to the world. Even so difficult and I had hatred for her even, but that disappeared with the heart of worrying about my mother was Yours, and I would think of her as pitiable. I felt I understood the Words of True Mother about True Father and Her thoughts being the same. Those Words had some understanding for me.

Such a power to share each other's heart arose. Because Cheon Shim Won exists, there was an opportunity for the heart to gain victory like this.

One the occasion of Parent's Day, I am apology for not to personally be able to pin a carnation on Mother's Chest and with Mother's lonely, pierced Heart. I will achieve to become the resolve and determination to fulfill filial piety.. applause

Now the time for HJ Reports... Everyone, if you look upon CP Lake, you can see it was an island... we call the Owl Island and there is a House of True Parents there where True Parents would go fishing...

Director Kim Ju Han gives an amazing report

He wears fishing gear...

Chun Yu Chang... PL said that when F and M first came here, the first place they stayed was here and offered fishing devotion. Hearing this, we are preparing a Workshop for fishing... In 1970 summer caught a 1 meter-long fish. For one hour he would go back and forth for this fish and finally got it and he gave it to the members for their health... from fins to tail a Carp of about 1 meter.

And this is the island, and through storms, a lot of sand was blown by the wind and this small island of sand was formed. And True Father said to plant a tree there and it became many trees and HyoJN would train and do recreational activities here, so many memories.

Pastor Handoyol is actually taking care of here personally and our academy will take care of it from now on, planting and cleaning up. And the big rice bags, 20 or 30 of them we would fill, and working so hard, and preparing the Workshop. And I'm learning via You Tube how to fish, and I thought I should actually catch a fish, a Carp. On May 6, I started a Carp fishing and my class finished early and I threw my rod and just sitting and offering Omonim Please stay healthy and please return to Cheonjung Gung... and Then I thought Father caught a Carp here... and I prayed

'Father, I am wanting to show our members and if you work, I could catch a Carp and for about an hour and a half I prayed, and then it was almost time for Cheon Shim Won... and I thought a beginner cannot catch a fish...so I pulled the rod, but there was something on it, and I struggled hard to pull it in, but it felt like it was caught by a big stone instead of a fish, but then it moved and it was a fish, but I couldn't wind the fishing rod and we started a fight and I didn't know what kind of fish it was and I caught a very big Carp. so the Cheon Shim Won started and I was exhausted but hearing the song Grace of the Holy Garden, I gained strength and then for about 30 minutes then eventually I put my hand in the gill and tried to pull it up ---and one scale is the size of a ping pong ball and I could see my hand was bleeding a lot, but it settled down..

Offering the report to PL, he said there may be some significance and we prepared a bathtub thing and this is the fish I caught was 13 kilograms. So, this is my first catch and it was so amazing. PL came and offered this benediction...

'This 14th year March 21st HC, where this difficult situation came again, we offer gratitude for catching this big Carp. We will release this Carp again, hoping for True Mother to also be released. That was yesterday. May this benediction come true... Today is Parents Day and the day before, sending this Carp back to CP Lake, we have faith that it will be fulfilled... so let us offer gratitude to True Mother...'

Through this fishing devotion, I believe it has great significance. You may have been a little bored through CheonBo but now we will start our fishing applications... We ask your support... TYVM

'Let Us Go Back to True Parents'

Pres. Lee Gi-seong Message

Japanese members level of devotion reaching higher... Offering Cheon Shim Won around the world...

True Heaven is a place where you give and want to give more, more than wanting to receive. Do you know how much love exists here? If you don't practice love in the physical world, you will not know how

to give it in SW... It is the most beautiful and precious. You are the most beautiful and precious to Heavenly Parent, so just offer what you think is the most beautiful and precious thing on this earth, train to feel Heavenly Parent's Love or you cannot feel it in the SW. I hope you feel this love.

In front of the DC, it reaches 229th day and members around the world, offering devotion, today he praise of mother's heart, you heard it, and our two elder pastors offered flowers and the 'heart of hyojeong' is mine, we offered a motto of hyojinjeong...

The song 'Omma' was also inspiring and the art of the created hyojeong won...

In Japan, the miracle escalation of heart and activities and result...

A new Providence has started in H America... Our Dr. Ki Hoon Kim who has worked so hard until now for 4 years, he pioneered the Cheon Shim Won in America, the greatest gift... For his health applause

And itinerant Shin Dong mo who trained for such a long time was also a CARP Central Leader and a continental leader, and attending the leaders' 40-day and all the WSs he attended and receiving special ansu education and he toured and accumulated so much experience and knowledge, for the first time such a person to take care of America, to fulfill its mission.

And all the martyrs and spirits of America, their spirits can be mobilized and that wind will reach the world.

Many profits say the winds of the Korean Peninsula will spread throughout the world. Let us all pray for H North America... The contents relate to Parents' Day. Our H American members joined H Japan and the Rally with NABI and do not languish but all stand up more boldly, and that will move the SW.

Without a life-and-death inspiration, it is hard to experience the SW. When you cling on earnestly, you can experience the work of heaven...

The mom, to create 3 daughters and raise them and the in-laws and then her husband passing, so difficult,

but she understood the value of the Cheon Shim Won devotion, thinking that this was like offering dinner to those in SW of the family and that this was proper spiritual rites. She made the confession that it was Heaven that made her children so filial, overcoming darkness, you too, do not just watch but participate in this devotion.

You also saw a 13 kilogram CARP, though unable to see the video. So, last Sunday evening, our pure waters had an intensive all-night prayer and True Father said, 'Do you know how good fishing is for health? (nakshido) through fishing, although in danger, you can calm yourself in silence, fishing alone looking upon the ocean and sky and conversing with them. I truly enjoy fishing. At that time, Heavenly Parent is alone and you too are alone and you solely feel Heavenly Parent's Heart and you keep on thinking, about your life and concerns. If fish ten times, think ten times and empty and know we need this time.

Do you know the greatest problem of the pure waters, they lack patience. They rush too much. They must have the power to be patient, the power of endurance of patience to go until the end. Fishing, spiritually and morally, there are many benefits. So, rather than lying down and looking at your phone, go to the ocean and fish and look at what Heavenly Parent has created. Sometimes you don't want to eat the fish you catch, but release it.

This is the true way of fishing, becoming selfless and this is the benefit. Do you understand this? No one is answering. We have our fishing with the Father and the things that elders learned I hope you will inherit it for a truly joyful time. And I hope you participate in our first fishing Workshop.

Truly Heavenly Parent has given us many precious things, but we can't always understand the value. This CP Complex, there is not a place that is not stretched with your devotion and tears. They went all around this Complex with Father and offered devotion, the only Place in the cosmos that has such BS and Ts of True Parents... In this very Place HyoJN's Seonghwa ceremony. In front of the Tree of Love, True Parents's Words, centering on True Father's Office, if we truly become one, then nothing is insurmountable, but if not our Parents shed Tears of Blood.

We are educated that we are to become one and attend the True Parents, but for so many days we could not. We had a lot of excuses, but that was tormenting our True Parents. It became the pain of True Father and True Mother, and thinking of that as our fault and truly repent, the authority of Heaven will come to

this land.

If we don not make a foundation for the Messiah, the Messiah will be crucified... We need a cosmic foundation so that the works of SW will come about, so that everyone will know that Heavenly Parent is with us and True Parents and the Unification Church family... We are at such a time and if you pray with such an earnest heart, each and every one of you will have the grace of Holy Spirit poured onto you, on this day when we complete 30 and 40 laps, may this become such a time of grace.

Prayer and Praise

Now we face Parents' Day. Our True Father and True Mother came to us to love us. We offer our deepest gratitude. Truly serious times are now. We are so sorry that we couldn't stop this situation because we lack devotion. Please allow the leaders of this nation to stop, to no longer block H's Will but hear the heart of their conscience.

Please allow them to stop hearing the voices of evil spirits. What we only believe and rely on is Cheon Shim Won Devotion, True Father's Office True Mother's Womb. We believe that amazing love awaits us in the Cheon Shim Won. Then our lives will be more alive and we will become one and all the family members will become one. We are truly grateful for You granting us this devotion, that the strong works of Heavenly Parent will come about.

When True Mother brought the Entrance: 'Now, Heavenly Parent, please love You children to Your Heart's Content' Please let these Words manifest as a reality among humanity. May Heavenly Parent's Power be with the churches of H Japan. May the power of HPs be within every family that is attending Cheon Shim Won devotion at this very moment.

Now the time has come for all Korean people, all people to recognize the status of True Mother, and let the chosen people of Korea... This moment is a decisive moment, so let us bring back all the members who are dormant. Let us bring back the righteous people, bring back the wandering 2nd and 3rd generation.

Through this devotion, let us resonate with True Mother's Heart Who is clinging onto the Truth of Heaven and with the Heart of True Father and Heavenly Parent looking upon the situation with Tears. Now, until the 1,600th Cheon Shim Won devotion, let us give continuous devotion.

This is the first Parents' Day after the great Anniversaries of 66th Holy Wedding and 1st of Entrance. We

have the sorrowful heart of not being able to offer carnations to our True Parents in Person, but we cannot stay here stagnant. (Let us go forward all the more)

TY (and we love you)
