The Eastern land of the morning calm with the rising sun, in the original homeland where Heaven is to be established, The Lord Who promised to return has come.

Now that God's only begotten Son has come to the land of Chungju, and God's only begotten Daughter has come to the land of Anju, everyone in the universe puts their hands together and offers a bow. They dance in joyful delight.

True Father Speaks:

'Now that the True Parents that were lost 6,000 years ago have come to the earth, it is time to shout, "Humankind, you are sleeping; wake up!"

True Parents Who are One, but also Two, yet also One, have come in the new Garden of Eden

(Singing Their praise ...)

Narrator:

Your Coming is glory for Heaven, a Blessing for humanity and peace for this earth

Written in Korean : 'True Parents' Birth Heaven's Glory, Humanity's Blessing'

True Mother Speaks:

The 'eulmi' year is the year of the blue ram, isn't that right? We think of the color blue as being clear and pure. We need to be very proactive and active during this year of the ram. It is in the year of the blue ram that we must be active and lively, rather than spend time sitting about together relaxing.

Narrator: Loving Mother, things must be very hard for you. Even though you shoulder the heavy burden of establishing the kingdom of Cheon Il Guk, Your desire is for the Blessed family members to find happiness in their life.

When we look at Your face from afar, Your lips cracked from praying to God day and night, our eyes well with tears.

During days long past we sacrificed ourselves to work for God's unfolding dispensation for all humankind. That was our life and our joy. Our lives were filled with love and hope. However, we cannot help but confess that our passion slowly cooled; and, we were unable to form a protective fence around the True Parents' Family, and some have suffered as a result. We have become spectators in God's Providence.

### **Holy Wedding Ceremony 3.16 by the Lunar Calendar, 1960**

Our beloved Mother, how much You have had to simply endure the indescribable challenges of the past five decades. When darkness loomed over us after True Father's Seunghwa, You solemnly raised the heavenly torch and guided us on.

We cannot describe the relief this brought to our hearts or how proud of You we felt. To the depths of our hearts we felt sorry that we were unable to share Your Providential burden.

Mother, You have elevated our hearts, which were saddened by Father's passing and proclaimed that we will move forward without stopping.

We could see Father in You as you spent 40 days in a special period of devotion, following Father's Ascension; and, You showed us the direction the Providence will take.

True Mother Speaks:

"We will move orderly in unison as one in heart, Okay ? If you have such a determination, why don't you give a clap to report your new beginning to Father."

Narrator: The proclamation of Foundation Day, The Proclamation of The Cheon Il Guk Constitution, the publishing of the Three Cheon Il Guk Holy Scriptures, all of these were vital to the great task of establishing the foundation for the future of Cheon Il Guk, each demanding great care and attention.

True Mother Speaks :

"If one nation is established, you must establish the way to protect it, the means by which to protect it. Therefore you need to create the eternal tradition of attending our Heavenly Parent in every situation."

After spending time to pray in the Swiss Alps last year, True Mother instructed that the Text of Cheonbumo Gyeong be further revised; and, while She was in Hawaii recently, True Mother read Cheonbumo Gyeong, which has taken two years to complete. Mother then gave some detailed directions regarding edits for the Text Book and then allowed it to be published on the occasion of the Foundation Day Anniversary.

With the completion of the new Cheon Seong Gyeong, Pyeong Hwa Gyeong and now Cheonbumo Gyeong, the age after the coming of Heaven, where the world is recreated by the Word can begin.

Mother has also invested much support for the raising of new global leaders centering on the 2nd generation members. She has established the Won Mo Pyeonge Foundation, The Universal Peace Academy, The Top Gun Workshops and The Hawaii Special Workshop and The Cranes Club.

True Mother Speaks:

"I understand that there are some among you second-generation members who think that your parents worked hard for the church and you don't lack anything in your daily lives, so you will just make money and live good lives. The one thing you must understand, however, is that you are born as, for the first time 'pure water and must not revert to being 'muddy water. The realm of True Parents' love is where you must stay."

(Thailand) We know that True Parents eagerly want us to fulfill our missions as heavenly tribal messiahs.

We can vividly remember how happy True Parents looked when members in Thailand and the Philippines recently fulfilled their 430-family heavenly family messiah mission.

As True Parents desire, some families now in Korea too have now fulfilled their tribal messiah mission.

In the Philippines, the 144,000 interreligious peace festival was held successfully and 70,000 people joined a Blessing Ceremony held in Nepal, at an Event raised by that nation's prime minister and 30 government ministers and law makers. The heart of that nation is being moved. These exciting events in Asia flying the Cheon Il Guk flag on the peaks of the Himalayas make our hearts beat again.

Notably, in Las Vegas the United States, a miracle of life is occurring in the barren landscape. There are even entire families who have joined our church; and, many young people are also becoming part of our movement. We can feel something stir inside when we see the fruits of our efforts.

Cheon Il Guk has no future if we lose track of the Providence of restoration and of True Parents' tradition. We realize that this is the reason that True Mother has offered the historical archives center to Heaven; and, we are working to establish the Cheonji Sun Hak Won.

True Mother Speaks :

"We will make Cheonji Sunhak Won into the most modern facility with multi-functioning cultural areas. Everyone is welcome to come and they will want to sign membership of our movement as they leave.

Looking back, we were only able to walk this path because Heaven guided and protected us. We are Blessed with a special relationship with True Parents. That is the reason for our lives. True Parents' Love, that has been the source of power that moved our immobile souls.

True Mother Speaks:

"Those in comfortable situations cannot become good children. Children who are living comfortably while their parents are working in hard situations are not good children at all. Their parents are suffering and shedding tears. This is the most important year in your entire life. This is the highest position. You are in the position of owners. You can become noble families.

The Parents have given you everything equally. It depends on you whether you can fulfill your mission or not. "

\*\*\*\*\*

We who have met God and experienced true love and received the great Blessing from our True Parents now feel repentant with tears for our past days when we stood at the side as bystanders.

True Mother Speaks:

"You should be in the main stream centered on True Parents. If your beloved children are in a tributary, you should support them so that they can enter the main stream. I am saying that you should not just keep on observing. I am asking you to not become mere onlookers. This is a position where a person puts one's life on the line.

At this moment, as we work toward opening of the Cheon Il Guk era, you must be able to find the perfected original mind while carrying out your own responsibilities. You must become one with True Parents through the Holy Spirit and the Truth, through the true teachings and through the three great scriptures. "

\*\*\*\*\*

Our beloved True Parents, the darkness of the night just before the coming of the bright dawn. We will raise our torches for True Mother and share the burdens with Her. Mother, we pray You will feel nothing but joy.

With the Authority of Their Victory, True Parents, Who have completed, concluded and perfected the Providence of Restoration, through Their Blood, Sweat and Tears, have released our Heavenly Parent from bitter sadness. They have given new life to all things, from the smallest micron throughout creation. They have poured out true love from earth to Heaven and They have opened a new Heaven and a new Earth overflowing with peace.
