Last year we started our trial mentoring and mentee programme, and since its completion we would like to start it up again with a better introduction and guidance.

If you are interested please join us on Saturday 25th April at Lancaster Gate, 2pm to 6pm. Sean Greaves and Hyanghee Kim will be guiding us through the afternoon and there will be some discussion and time to share.

This will also be an opportunity for mentors and mentees to meet together.
