On May 13, 2023, Shine City Project participated in the Spring Cleaning event at Mt. Charleston!

Our four Shine City Project volunteers were again led by Sara and helped to pick up litter near the Mary Jane Falls Trailhead.

Our volunteers found an inner tube, as well as some artificial rose petals.

The weather was cool and refreshing, and there was still some snow left over from this past winter season!

Overall, we enjoyed our time at Mt. Charleston!
