Letter to Our Beloved Brothers and Sisters

Dear Brothers and Sisters,

Today marks the 12th day since our True Mother, Holy Mother Han, was imprisoned. Throughout this time, brothers and sisters in Korea and around the world have been offering prayers and devotion with tears. I would like to express my heartfelt gratitude to everyone who has been praying - whether in front of the prison, at local centers, Family federation offices, or in your own homes.

Prayers Echoing Inside Seoul Detention Center

Every day, brothers and sisters gather in front of the Seoul Detention Center to pray and offer devotion.

Afternoon: 2:00 PM - 5:00 PM

Evening: 8:00 PM - 10:00 PM

Even when it rains or the wind blows strong, no one stops. Many stay from morning until night, singing holy songs and praying earnestly for True Mother.

It has been reported that our prayers are reaching inside the prison. When Chairman Song Yong-cheon visited True Mother and told her,

"Brothers and sisters are praying outside,"

True Mother replied,

"I can hear their prayers. They give me great strength."

Therefore, we firmly believe that our perseverance and tears will reach Heaven and bring some change.

Moving Forward - Never Stopping

The Headquarters of Heavenly Korea remains in a full emergency response state, as declared by Chairman Song Yong-cheon upon assuming his role, to ensure that all members can continue their life of faith with stability.

On October 4, Chairman Song Yong-cheon visited True Mother in the detention center. True Mother remained calm and said,

"Let more people know what the Family Federation has done for Korea and for the world."

She urged us to "keep moving forward without stopping," even as we cry out of concern and longing for her.

Sharing Good News and Truth with Our Families and Communities

True Parents have lived their lives like marathon runners, striving to fulfill the dream of our Heavenly Parent. They have taught us that "we must not stop moving forward."

During this Chuseok holiday, may every blessed family fully take on their mission - share the story and mission of our True Parents with relatives and people around us. Let others know of the good works that the Family Federation has done for decades in the fields of peace, education, welfare, environment, and family development. Through this, false rumors will fade away.

It Is Time to Rise and Take Responsibility

True Mother continues to care deeply for the Family Federation and for all members. Her words are not just a plea - they are a clear direction for how we should act in this time.

Now is the time for us to wipe our tears, rise, and fulfill our responsibilities - within our families, our federations, and our communities.

Let our voices rise together to proclaim the truth and defend True Mother.

When our voices unite, strength will emerge - and True Mother will return with dignity and glory.

May Heavenly Parent and True Parents always be with us all.

May the blessings of Heaven and peace rest upon every family during this Chuseok season.

With love and prayer,

Kim Dong-yeon

Vice President, Family Federation for World Peace and Unification
