## Peace Palace International Education Center Appeal

Dear Family,

### Becoming Owners of True Parents' Dream in Las Vegas

In the past few days, our True Mother has been pouring out her heart and soul in Las Vegas, sharing her deep love—and high expectations—for America to fulfill our role as the Elder Son Nation, taking responsibility to honor True Parents, and lead the 'younger brother' nations of the world by example.

One very important project for the United States is the completion and opening of the *Peace Palace International Education Center* in Las Vegas, NV. During his final years on earth, True Father was filled with the vision of making Las Vegas known as a center of God's love and truth, and not just a city catering to the physical and selfish desires of human beings. He personally directed the purchase of the Peace Palace site, and guided the architects to create a lasting monument in the style and tradition of the *Cheonjeonggoong* in Korea.

Today, the steel framework is complete, the concrete floors are poured, and the exterior will soon be finished. We are now working with all speed in order to finish the entire project this year. When complete, this will be our flagship facility in the United States, as well as an international educational and conference center. True Mother has shared that all our national workshops and training on the *Divine Principle* should be here, as well as national and international UPF and other programs for the sake of the world.

On Foundation Day, Dr. Kim and I had the opportunity to present a large framed picture of the completed Palace to True Parents as a sign of our commitment to quickly complete this project. As we did so, we were yet uncomfortably aware that to date, ALL the funds have come from overseas. Now we have a great opportunity for all American family members to directly support True Parents vision for a global Peace Education Center.

We are asking that every family raise \$2,500 between now and August 1. In addition there are many other levels of contribution as explained on the attached guideline. Businesses are also invited to help raise this offering – which will be the first national and international education center that we have built in America.

We are strongly reminded of the time when the Israelites built the first temple in Jerusalem. At King Solomon's invitation, every family and clan contributed according to their ability, considering it an honor to be included. I hope you'll feel the same way, and join in completing the foundation for this magnificent building.

On the following page, you will our basic donation plan for individuals, families and for businesses. All donations are welcome and will be recognized and acknowledged at the Peace Palace. We know and trust that our American family will rise to this occasion. Thank you very much!

Sincerely,

Dr. Ki Hoon Kim
