YSP Project: Regenerative Agriculture

Friday 1st July at 5pm BST

[Join Zoom Event](#)

Our monthly Youth and Students for Peace event will take place on 1st July at 5pm and will be a partnership between Geoffrey, a 2nd generation member who is a social entrepreneur studying in Denmark.

The virtual event/discussion will surround developing a sustainable farm across Uganda and/or Angola. Our aim is to eventually set up a self-sufficient, sustainable agricultural farm that supports minority groups. We are in the initial stages of project design and development, and are inviting people to join and collaborate with the project!
