Heavenly Parent made us ONE

TESTIMONIES

Marilyn Angelucci, Female, Israel, CheonBo Event, 2022. 11. 25-26.
(online participation)

As I reflect about this Cheon Bo Event and share my experience with others I realize how universal this program is. **The fact that Jews, Christians, Druze and Unificationists attended happily and all had amazing experiences remind me that the work of our True Parents is universal.** If people can accept the CheonBo event with all of its unusual traditions than certainly they can understand the Divine Principle and certainly the heart of our True Parents. It is our own concept and inability to understand ourselves and therefore our short coming in knowing how to explain to others which is the problem.

The CheonBo Branch Team did a wonderful job of explaining the program and the contents so that everyone could understand and readily participate with a happy heart. This is a good lesson for all of us. **We must not leave anyone out of God's Providence and not be guided by our own concepts but simply be guided by the love of Heavenly Parent.**

TESTIMONIES

Umberto Angelucci, Male, Israel, CheonBo Event, 2022. 11. 25-26 *(excerpt of the testimony)*

I had a chance to welcome the CheonBo Branch Team and could spend meaningful time with them, especially with President Moon In Pyo. In the Israel event, at Peace Embassy 56 people attended, **most of the participants came from the Tribal Messiah work, and 16 are new members.** Total number of registered people were 259. There are a few important things that I learned from these events: The CheonBo Branch Team under the guidance of Rev Moon In Pyo helped us **to create the spirit that we are part of the same family, the Holy Community centered on True Parents.** In our events we had people from different background, different faiths; Druze, Christians, Muslims, Jews and Unificationist. One common factor of these events is that even though people were not familiar with the content of the lectures, they responded with a positive and open mind. Thanks to the investment of the Tribal Messiah to raise new members, the new members invited their friends, so there was a total trust in the ceremony and ultimately people **responded to the internal meaning of the CheonBo event.** They asked us how long we have been affiliated to the Holy Community and how they can be part of the Holy Community. The atmosphere created by the people involved in these events became very beautiful. **The Vigil Prayer the night before the main CheonBo event, helped the participants to open their hearts to Heavenly Parent and True Parents.** During the Chanyang Yeoksa Session people understood the value of liberation and wanted to make a new beginning in their lives and have a new relationship **with Heavenly Parent.** With this beautiful atmosphere the participants were relating to each other as a family and did not want to live the Peace Embassy, until the conclusion of the Victory Ceremony.

TESTIMONIES

Umberto Angelucci, Male, Israel, CheonBo Event, 2022. 11. 25-26 *(continues from previous slide)*

After the victory ceremony the Core Members had time to share their reflections with the CheonBo Branch team, **everyone was so grateful to Heavenly Parent and True Parents for such beautiful experience. In Israel several members felt the presence of Jesus, his longing desire to have a family, a Holy Family, where he could share his heart.**

We understood that the work to restore the Middle East is so important, we really need to be confident to testify to True Parents. Only by knowing the love of our True Parents people can have a new determination in life to unite, to forgive each other and to establish a Holy Community. People do not have much hope in the Middle East, by attending the CheonBo event the participants understood that Heavenly Parent is longing to bless each person in this world.

I want to take this chance to thank President Lee Ki Song for his support to send the CheonBo Branch team to the Middle East. I believe that by the presence of the CheonBo Branch team our members gained so much love and new energy to invest for the sake of the providence.

We really want to use this experience to boost our activities and reach out to more people to become part of the Holy Community.

TESTIMONIES

Weiler Hill Luke, Male, Israel, CheonBo Event, 2022. 11. 25-26.

My feeling and importance of Chanyang Yeoksa Sessions. These past few days have been a roller-coaster of emotions and experiences. I have had the pleasure to be part of CheonBo events on many occasions, but this time felt a little different, especially during the Chanyang Yeoksa Sessions themselves. During the previous times participating in the Chanyang Yeoksa Sessions online over the last few years the duration of the sessions has always been of a shorter nature around 30 minutes or so; this amount of time I felt was just enough to get started in the release of evil spirits from the body as it takes time for us to become one with the spirit of the event and time to break our shell of self-doubt and concepts, that are preventing us from removing the evil spirits. **This time was magical!! The Chanyang Yeoksa Sessions started the same as it always had, but continued to gain in momentum, after the half way point the number of spirits that were released were growing and growing exponentially everyone united in heart and it gave the foundation for more and more angles to come. It was by far the most angles I have ever seen in one place. The atmosphere rose and became a place full of miracles as the spirits were lead off to the 100-day workshop in the spirit world.** It was a truly an honour to be a part of this inspiring event and eagerly await the next.

TESTIMONIES

Anonymous, Female, Israel, CheonBo Event, 2022. 11. 25-26. (online participation)

We are a CheonBo couple with my husband, and I had for several days pain on the right side of my neck and shoulder and could not move my neck properly. After finding out about the suicide of one of our 430 tribe members, a mother of 3 young adult women, we felt responsible to liberate her. We went to this family's home in our neighbourhood to express our support to the husband and the 3 daughters and I participated in the funeral ceremony in the catholic church. Before entering our home, we holy salted ourselves. We applied this lady for ancestor liberation, during the Israel CheonBo event including also the liberation of the central evil spirit of myself. During the zoom connection there were technical sound difficulties, I could see all the videos but the sound during the clapping sessions was missing. So, I decided to sing loudly all the time and I felt several spirits were leaving me, specially while hitting my neck. During the unison prayer I said the name and encouraged the suicide lady not to worry but to attend the 100-day training session whole heartedly. During the break, after the ancestor liberation session I realized that the pain in my neck has completely disappeared. I am very grateful to Heavenly Parent and our beloved True Parents for the grace of liberating persons in any kind of situation and give hope that a solution is possible for everybody. Thank you.

TESTIMONIES

Anonymous, Male, Israel, CheonBo Event, 2022. 11. 25-26. *(continues on the next slide)*

During the Chanyang Yeoksa session on the first day I saw a number of recently murdered Israelis, young and old, like the 18-year-old IDF-(Israel Defense Forces) female soldier who was shot dead in October 2022, the 16 years high school student who was blown up by a bomb a few days ago, and the 18-year-old Druze student whose car accident brought him to hospital in the West Bank where a terror group removed all his life support and stole his body from the hospital, also a few days ago. I could see those young Arabs who had murdered them or had been killed fighting against the IDF. **They were asking me to hit harder during Chanyang Yeoksa session so that many of them could arrive into the brightness of the Peace Embassy where they could find solace and comfort. More of them appeared from other attacks going back a few years and there was a general realization among them that hatred and revenge were not correct, they had been wrongly taught about such emotions, the truth is that we are all brothers and sisters of the same Heavenly Parent's family.**

TESTIMONIES

During the Chanyang Yeoksa session on the second day I began to see that Jesus had appeared among a large group of my ancestors (Jewish) and was welcomed and being accepted by them, something that has not happened during the past 2000 years. Even at home we could not talk about him, we had ignored his existence. In the front of the group of ancestors I recognized the generations of my parents, grandparents and great grandparents.

I had been asking why Israel received a second chance by being allowed to exist again after almost 2000 years in 1948, Rome had wiped out all Jewish resistance in Israel a few decades after Jesus' crucifixion and the rest of the Jewish population were almost all expelled, even Israel's name was changed to be called Philistine (the enemy of Israel) and later that became morphed into Palestine. Jesus expressed his unchanging love for the Jewish people and he wanted them to recognize him as the Messiah, and through that attending True Parents, the Jewish people can comfort both Heavenly Parent and Jesus' broken heart.

TESTIMONIES

Viki Ben Zvi, Female, 24, Israel, CheonBo Event, 2022. 11. 25-26.

(continues on the next slide)

Before the CheonBo Event our nation was going through many challenges and misunderstanding between us but the real issue was beyond us - and so it became difficult to solve. **I feel that the CheonBo event occurred at the time we needed it the most.** The first day was really deep for me. I had a lot of unresolved emotions in me and somehow, I felt a lot got resolved after the Chanyang Yeoksa session. **During the Chanyang Yeoksa session I hit the back of my neck and the moment I hit it, I felt tears running down my face and a feeling that all the unresolved emotions in me disappeared, I could feel that there was a spirit holding me there and causing me to feel confused but thanks to the Chanyang Yeoksa session he could be removed and liberated.** After that experience my mind felt much clearer and I could think more about my community. **During the vigil prayer I desperately prayed to find unity among us, so we can move God's providence forward and bring a united Jerusalem, Israel, Middle East, Korea and World.**

TESTIMONIES

On the Second Day I was determined to find a way on how to bring this unity. I was doing my best during the Chanyang Yeoksa session and it was after the ansu, when a 'Mission song' with True Parents was playing, I received a deep experience. I closed my eyes and saw a beautiful drawing of Jerusalem from the sky perspective, it looked so beautiful and peaceful and suddenly a drawing of Moses appeared, then Jesus appeared, then Mother Mary and finally Noah. I felt that the spiritual world was telling me to ask help from the important central figures. Moses also had to struggle to bring unity among his people and it took 40 years but with his determination he achieved it. From Jesus we can learn about True Love and about loving our enemies. From Mother Mary I can feel a desperate heart to do the impossible to achieve God's dream. And finally, through Noah we can inherit his deep faith and trust in God.

For me the CheonBo event was really mind blowing and powerful!

Thank you once again! 

TESTIMONIES

Daniel McKewen, CIG Missionary, Male, Israel, CheonBo Event, 2022. 11. 25-26.

I've been part of the Movement for a while and I've done Chanyang Yeoksa quite a few times. To be honest I've never had deep experiences with it. I'm not what I consider spiritually open so I didn't really know how to connect with these events deeply. I'd say I'd believe in them but don't really notice much difference in life maybe at most feel a bit better afterwards. **This one was different**, not so much on the spiritual level because as far as I know I still have no spiritual awareness. **It's more about how much this event showed me True Parent's love.** As I was helping with setting up the event, I saw how important it was to get everything right. Yet I found myself looking at this event with new eyes, usually it's just something I did, yet this time I looked at the different things we did everyone giving their best and I felt connected. **I felt like this is the type of event True Parents wanted for us to have not stuck on the formality.** As we had new people at the event, we were able to see reactions of those who saw it for the first time. Also, the atmosphere we had setting it up was beautiful Mr. Angelucci really made us feel at home offering food, making sure we were doing it in the right spirit. He made an atmosphere where **I felt God's love. Later when it started instead of focusing on what I couldn't feel I found myself thinking about how unique our community is, and where else are people hitting themselves chanting a song, where else do you have people of such diverse backgrounds get along and unite together. I felt that True Parents really wanted to create a family environment even in our ceremonies. I found myself feeling so blessed to be in this Movement because no matter where I go or how far I am from home, I will still have family anywhere I am. Ones who share in these unique views on life and ones who I can trust from the bottom of my heart. Thank You Israel community and thank you Heavenly Parent and True Parents!!!**

TESTIMONIES

Dinis Morita, CIG Missionary, Male, Israel, CheonBo Event, 2022. 11. 25-26.

I had the amazing opportunity to participate in CheonBo Event here in Jerusalem, Israel. **This was actually my first time ever participating in a CheonBo workshop, and experiencing a Chanyang Yeoksa session.** So actually, when first participating so many concepts were broken, I was expecting something so much more intense, but at first glance it was a little awkward. **Like I said, as the workshop continued, so many concepts were broken, I fell in love with the atmosphere that was created, and even the people participating in CheonBo Event. The experience gave me such a deep feeling of hope, hope for myself, in who I want to become.** Everyone around me, embodied true love, and I felt peace and calm where I was at. **Another thing that brought me hope was hearing about the wish fulfillment papers from Mr. Tibor Krebsz, which we would later offer up. Hearing the testimonies about it, and making sincere offerings to Heaven really inspired me to do the same. So, I also filled a HJ offering paper out, really seeking out to deepen my own relationship with God and True Parents.** Overall, I am just grateful I can experience such an environment filled with people who I would like to be like one day.

TESTIMONIES

Miae Iwasaki, CIG Missionary, Female, Israel, CheonBo Event, 2022. 11. 25-26.

I am so grateful for the chance to attend the Hyojeong Cheonbo Special event with our brothers and sisters here in Israel and the Cheonbo Branch team. This is my third time attending a Cheonbo event and each time is so special. **The day before the event I was praying to God and asking him for guidance. I was asking him what his vision was for me and for the team during our mission here. I felt that He was asking us to get ready to move with full force and not hold anything back. I felt that he was asking us to let ourselves go and let Him fully transform us.** Throughout the Cheonbo event, it was like a confirmation that Heaven is urgent and we must surrender, **so that we can truly belong to Him and be His true sons and daughters. Mother has been saying that Heaven cannot wait any longer. We as Heavenly Parent's children has made Him wait for much too long. This is truly the time to unleash everything and not hold anything back.** From this Cheonbo event, I was truly moved by the spirit and fire within our leaders and the Cheonbo Branch team. I thought that these are the sons and daughters of God who has fully offered themselves to Heaven.

TESTIMONIES

Sae, CIG Missionary, Female, Israel, CheonBo Event, 2022. 11. 25-26.

Upon reflecting on my experience on CheonBo Event, I feel so grateful to take part of this event once again. **To liberate our ancestors and the spirits surrounding us is something that more and more I realize how important it is. Within my own experiences, I see how apparent the spirit world is around us and can affect or assist us in our life of faith.** I cannot deny that they are there and they depend on us to be liberated. And we were given the chance to do so, so why not take the chance? And the preparations and the amount of jeongseong put into this event is so inspiring and reminds my heart to be proud that we have these profound experiences. **We can relieve the agony of our ancestors, so they can feel the true joy and happiness that our Heavenly Parent wanted us to have together as one family.**

TESTIMONIES

Maya Sasaki, CIG Missionary, Female, Israel, CheonBo Event, 2022. 11. 25-26.

This event was indeed very special for me. I have been part of a couple CheonBo events, as a stage assistant and Chanyang Team, and every time it's an amazing experience. **I remember that every time when I was part of the staff in a CheonBo event, I was having a hard time internally.** In the first CheonBo event I staffed, I felt physically challenged. Then, in the next event, which was in Israel 2019, I felt challenged mentally. I wanted to cry, and was so full of emotions that I couldn't even eat. **But this time... remembering my past experience, but having a fantastic team- the CIG Missionaries and the CheonBo Branch team members, who are strong, uplifted and centred on God absolutely saved me from losing my focus and sinking into abyss this time.**

I'm not a spiritual person at all, and many times in my life this has been hard on me. I've always wanted to feel God or be spiritually inspired. But seeing participants have such deep profound experiences, so I greatly appreciated after having worked so hard to prepare and execute the event. Even though I didn't experience the spiritual aspect myself, upon hearing the reflections and sharing of others, I was able to resonate and experience the heart, the passion, and the impact of the event.

I'm so grateful that I had this opportunity once again to work with so many great and inspiring people, and to give my all for the success of this event. **I could learn and inherit so much from them and I'm sad we couldn't have more time together.** Yet, I look forward for the next event, where I can have my own experiences to deeply resonate with God and the liberation of spirit world in my own heart in the future.

TESTIMONIES

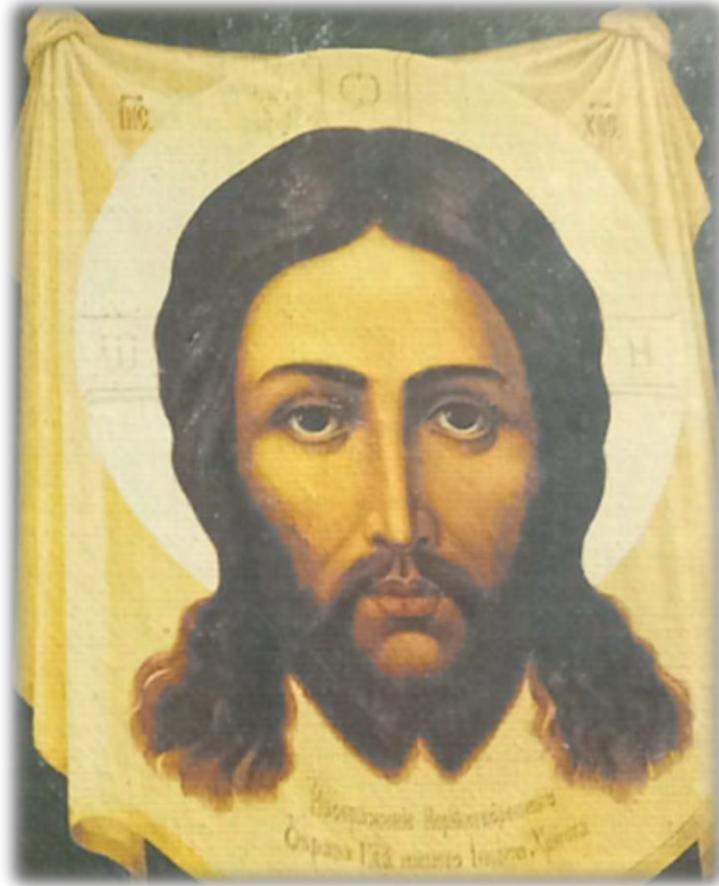

Takahiro Morita, Male, Israel, CheonBo Event, 2022. 11. 25-26.

During the Ancestor Blessing Ceremony, I tried to say “Congratulations” to ancestors. Then I felt ancestors were around me. I asked other brothers who have better spiritual senses than me. **One of them said, he saw Jewish soldiers and Palestinians young people’s spirit. These people kept resentful feeling and couldn’t go to spiritual world until now. Today angels brought these spirits to the spiritual world. Through listening his experience, I could realized how this Cheonbo event is important to let people overcome their resentful heart.** How much precious are the Cheonbo Branch team and President Moon have done in Israel and Middle East. I really appreciate President Moon and Cheonbo Branch team for their amazing investment for our region.

TESTIMONIES

Haruko Morita, Female, Israel, CheonBo Event, 2022. 11. 25-26.

The 2-Day program content was so rich and inspiring. I tried to concentrate during the Chanyang Yeoksa session and I wished to be cleansed like crystal. More I tried, more I felt I become lighter. **For some reason, I was asked (by Prs. Moon) to help for a Druz lady to do ansu. I was calling Demo nim and Hyo jin nim and Heung jin nim while I was tapping her. I asked them to use me for their sacred work. Then different feelings started to fill up my heart for saving and liberating this Druze lady and all the spirits. I felt deep love and my tears didn't stop. Through listening the lectures and testimonies, I felt that Heavenly Parent is so close to me and understood me, my happiness and my suffering was shared with Heavenly Parent. I wrote HJ offering paper this morning, and one of my wishes – related to my husband - was immediately fulfilled, even before I could offer it. It was so amazing to see my husband was released from his internal deep suffering. I appreciate so much this incredible Grace. Mrs. Angelucci (video testimony) also testified that in this age our wishes can be realized so fast centering on Cheonshim Won. It is really true.** I am so grateful to True Mother and President Moon and all Cheonbo Branch team who expanded this Cheonbo providence to our Middle East Region. We could see based on our devotion by participating in Vigil prayer and Cheonbo event, the physical world really received influence. **The explanation on changing the name of Training Centre and developing the Cheongpyeong area, I felt True Mother's Hyojeong heart toward Heavenly Parent and her love to us as her children. Through all the changes, True Mother is trying to testify about the living Heavenly Parent and let us connect to Heavenly Parent.** Heavenly Parent, True Father, True Mother, kamsahamnida, sarahamnida

We love you!
Thank you so much!

Thank you dear True Parents!
