The French members writing a Thank you letter to True Mother

Mr. Krebsz offered a Sunday Sermon to the Slovenian Family to conclude the CheonBo weekend in Ljubljana

Anonymous, Female, Hungary, Budapest
CheonBo VOD event, 2022. 05. 07.

"Dear Heavenly Parent and True Parents, I am grateful that I could participate at the CheonBo event. When we (with my husband) travelled to the workshop place, I saw True Father and my physical father. They were watching over us. ...True Father was leading the Chanyang Yeoksa session, his unconscious and conscious mind were in the proper balance. True Father said to me "Be the Principle." Thank you, True Parents for your guidance."

7. a TESTIMONIES

Dear Beloved True Mother,

We, 40 French members representing West Europe, are very grateful to have gathered here in Paris for this CheonBo event on January 14, 2023. **We offer this CheonBo as a preparation to enter the new Cheon Il Guk year and the Cheon Won Gung. We feel your love and spirit dwelling with us in our hearts.** Many of us had deep spiritual experiences where we could feel our ancestors willing to help us. **So together, we are determined to help you, True Mother, to bring a victorious offering to Heavenly Parent in the year 2023. Please don't worry!** Also, as sons and daughters of filial piety, we will celebrate your 80th anniversary together with you. Thank you for your concern, love and prayers for each one of us! With all our love. On behalf of all brothers and sisters from West Europe

7. b TESTIMONIES (continues on the next slide)

Michael & Fumiko Balcomb, EUME Regional President, United Kingdom, London, CheonBo VOD event, 2023. January 14.

A Cheonbo Testimony with the Queen, This morning we had an interesting experience while attending the Cheonbo Branch workshop in London, England. It was the first program of 2023, by the solar calendar; or, looking at another way, the last program of 2022 by the lunar calendar. There were programs in France, Finland, Hungary, Latvia, Slovenia and Spain as well as the United Kingdom.

After the Chanyang Yeoksa session, it was time for the ancestor liberation prayer. We were not liberating any more ancestors at this time, having finished 430 a few years ago. Well, I confess I was not praying as seriously as I did back in those days. But suddenly, **I felt the strong presence of the late Queen of England, HM Elizabeth II. Fumiko and I had liberated her a few days after her passing in September, and the year before we had liberated her husband, Prince Philip, Duke of Edinburgh.** Also, just before the Queen's state funeral, we had queued up for 12 hours with tens of thousands of others to say our final farewell and to promise her she would be liberated.

And what did the Queen have to say today? She seemed to say “Hey, don’t forget us! We have finished the 100 days workshop already and now we are waiting for our Blessing! When will it be?”

Well, to be honest I had indeed forgotten a little, so after the prayer I checked with the EUME Cheonbo Branch Office and they confirmed “yes, it is time.” So now, we will hold the Blessing as soon as possible, at the next Great Works.

True Mother very much wanted to meet Queen Elizabeth but it didn’t happen during the Queen’s lifetime. Yet, **I was again reminded that True Parents came with the authority and love to save all people, whether on earth or in the spirit world. Not only that, but True Mother always reminds us that we cannot fulfil the dream of God by human effort alone – we need the help of God, the angels and the absolute good spirit world.** Yet it is also true that God and the spirit world cannot act alone either. If they could, then restoration would have been finished a long time ago. So, our effort, our participation, and our faith are very, very important. Thank you, True Parents.

7. c TESTIMONIES

Kicheol Kim, Finland, Helsinki CheonBo VOD event, 2023. January 14.

First of all, I would like to thank Heavenly Parents and True Parents for the grace that allowed us to bless our ancestors. **In order to hold an ancestor liberation and a Blessing Ceremony before, it was necessary to visit Cheongpyeong with a lot of time, money and efforts. But, in these days, ancestor blessing is being fulfilled in the midst of our lives as we directly feel and experience the spiritual grace of the Cheonbo Training Center.** Thank you very much. During the time of sharing among blessed families, it was said that blessings come true due to the high developed technology of the Internet and because of the disasters caused by the corona virus. However, as I feel that today's ancestor blessing, God's providence and True Parents' love and passion for humankind's liberation makes it possible and brought the advanced science and technology and even natural disasters that no one can resist. **Today, I felt the victory of True Parents through the Branch providence of the Cheonbo Training Center is delivered and bestowed upon blessed families around the world as an incalculable grace, beyond of time and space.** It is amazing of God's grace. Once again, Thanks for the victory of Heavenly Parent and True Parents, all leader's dedication for the God's providence.

7. d TESTIMONIES

Esma Beshaj Jahja, 2. Gen. member, Spain, Barcelona, CheonBo VOD event, 2023. January 14.

Today (01/14/2023) we have celebrated the CheonBo VOD event in Barcelona and I wanted to share a testimony of two experiences I had at the event. I have to mention that I am a person who is very sensitive to spiritual experiences, so this type of event overwhelms me, but in a good way. **Well, the first experience I had was in the Chanyang Yeoksa session, to enter into context, I wear glasses because my vision is poor, I took them off for comfort but, since I also sat in one of the last rows of chairs, I could not see well** (or almost not at all) the lyrics of the song that were projected on the big screen when performing the Chanyang Yeoksa session. **But, after the round of "face-hitting" I SWEAR, I could see the lyrics of the song more clearly, it was like the things that were not allowing me to see clearly were taken away...** And that surprised that much that from that moment I started to sing the song Grace of the Holly Garden in Korean fluently and with maximum passion.

The second experience I wanted to comment on occurred at the Blessing of the Ancestors ceremony, there at one point it was requested that all the spirits of the ancestors enter the room and it was at that instant that I felt some shivers down my entire body, my first thought was that maybe it was cold and that's why I had that chill but then we asked the spirits of the ancestors to leave the room and I also had that same shiver, it's like these spirits have crossed through me to go in and out so, of course, at the end of the blessing event I said goodbye to them and surely we made a mutual promise to see each other and be there for each other in 40 days since my father had already liberated his ancestors generation from 1 to 7... And that is basically my testimony, it has been a very interesting and intense ceremony (spiritually speaking) and I hope to participate in something like this again in the future :). Thank you very much.

I have come to realization that participating in the CheonBo seminars and writing the Hyojeong Offering papers I have been healed. My back pain is gone, my stomach ache disappeared, even my severe headaches are gone. It has happened gradually. And also, our family has received the natural blessing as we wished or we are close to that. **I can see that the Hyojeong Offering papers work if I make them clear. I would encourage others to write them too.** I am grateful to Heavenly Parent and True Parents for their grace and blessings. Kamsahamnida!

During the event many different countries came to my mind and because of this I had a strong feeling that caring about only our own nation will never help to create Heavenly Kingdom. Until even the countries cannot serve other countries and sacrifice for their sake, we will always have difficulties creating Cheon Il Guk.

Already from the beginning of the Ancestor Blessing Ceremony was very nice atmosphere, it became brighter and brighter. Suddenly I felt the presence of True Father, he was very happy to see us dressed in white on this special day. Few moments after him, True Mother appeared, and I felt warmth of her motherly embrace. A few times during the ancestor blessing ceremony I could sense True Parents' presence. Both were smiling, and very strong energy shone from them. Also, I could sense how the room was opened and many spiritual people were there together with us, mostly ancestors who came to this event to receive the Blessing and be liberated. While singing Grace of The Holy Garden I started to feel, when we sang about Heavenly Father, that something is missing and that we should add Heavenly Mother too. I could feel how important it is to recognize True Mother as the embodiment of Heavenly Mother and that we need to be more aware of our thinking and praying in connection with both sides of Heavenly Parent – many brothers and sisters still pray as usually – Heavenly Father, but I felt so much importance in raising Heavenly Mother's presence and making Her equal as Heavenly Father. I am very grateful for these experiences and the understanding, I decided to be more careful and sensitive about that. The love of True Parents is incomparable with anything in this world. It is truly Heavenly Parent's love for us, His/Her children. Thank you!

This was a special event with a special atmosphere. Personally, I could feel the separation from spirits, how heavy they were and a sort of kindness around them that seemed to be guiding them away... **The understanding of the liberation process helps us to have some empathy for these spirits even though they want to harm us.**

Erna Kosmrlj, Female, 52, Slovenia, Ljubljana CheonBo VOD event, 2023. January 14.

I have the chance to visit our Cheonshim Won Prayer room often and I pray usually twice a day there. I always need some time to feel and connect to Heavenly Parent, but sometimes I can't... In Cheonpyeong in Korea every time when I went and prayed in the Cheonshim Won Prayer Hall I felt immediately Heavenly Parent's love and care. **And now when we gathered a day before the event to offer the Opening Prayer in our Cheonshim Won, I experienced the same strong feeling and embrace of love from Heavenly Parent** and also from the CheonBo Staff members. I just cried and was overwhelmed by Heavenly Parent's desire for each one of us. Then on the day of the event, even though there were many preparations and also lots of external things to do, but at the start I felt peace, joy and gratitude. **The Chanyang Yeoksa session brought up very deep feelings in me, especially for all those evil spirits and their suffering. Then during the Ancestor Blessing Ceremony was such a light and joyful atmosphere. Even though during the morning outside was a very foggy weather, when we concluded the Ancestor Blessing Ceremony, it became sunny, and the sunlight was shining into our place. I felt it is like the new bright life of these newly blessed spirits.** Thank you for all the love and care from the CheonBo Staff: Rev. In Pyo Moon and Mr. Tibor Krebsz. They helped to create this love-filled atmosphere.

Kristian B. Irgl, Male, 22, Slovenia, Ljubljana CheonBo VOD event, 2023. January 14.

I felt a very strong atmosphere already a few days before this event. I could feel how strongly the spirit world has been working through the people who are closest to me and through me by bringing people to the event, especially a Blessed Child, a brother who recently has been more distant from our movement. He came and I could feel God's longing heart for him. I have felt utmost joy and gratitude throughout this whole event. I shed many tears in the last days and especially today at the start of the event and during the Ancestor Liberation and Blessing Ceremony. This has been an amazing blessing for our country. Thank you so much for this grace!

During the CheonBo event I really felt relieved. I thought about all the difficulties I have at work and God inspired me to fight to overcome the pressure and the challenges. I felt relieved after the CheonBo event as if I run 10km. **Spirit world really inspired to fight for True Parents.** I hope I can help my couple to inspire Heavenly Parent and I can fight for True Parents. Aju!

Thank you beloved True Parents!
