During this special seminar I could strongly feel the presence of spirit world and Heavenly Parent. The lectures were very inspiring. I could feel, especially True Mother through the testimony of Mr. Tibor Krebsz. **The two Chanyang sessions that we did I feel, like spiritual showers to cleans myself.** I was focusing on my lungs as I have problem with asthma and coughing already for several years. I am grateful that the Branch Lecturer could help me with ansu during the Chanyang Yeoksa session. At the end **we had a Cheonshim Won prayer connected to Korea through Rev. In Pyo Moon. When it was my turn to do the resonation prayer I immediately started to cry because I could feel Heavenly Parent's love flow through me. Usually, it takes me some time to come in this state in prayer, but through the resonation prayer it is very easy to reach this state.** Thank you, True Parents, to show us this way of prayer and connecting to Heavenly Parent and spirit world more easily. Thank you, Heavenly Parent, True Parents and CheonBo staff for this special seminar in our Cheonshim Won in the Netherlands.

Johannes Campman, Male, 68, Netherlands, Bergen aan Zee 2023. March 4-5

It was a wonderful, healing experience. I gained a deeper understanding of True Parents' love for us personally. I became aware that True Mother in her love for me, not only wants to heal me and take care of me, but also, she has faith and trust in me. True Mother believes in my goodness more than I believe in it. True Mother believes I can become a purified person, more than I believe it myself. True Mother trust me to be able to stop committing sin in deeds, words and thoughts, even when I myself did not believe it. True Mother believes I can contribute something to make the world better, even now, despite of age, health and inner barriers of the mind, even when I did not believe it. I was especially inspired by Mr. Tibor Krebsz's vision *-during his participation in one of the Chanyang Yeoksa session-* about his running race with True Father. **The desire of parents for their children to become even better than themselves, is the highest token of parental love, and is an essential element of Heavenly Parent's heart. I had reflected on this before, but my awareness of this very important point has been truly deepened now.** My great thanks for this wonderful workshop!

I would like to thank to Heavenly Parent and True Parents, the CheonBo Branch and the Dutch Church for providing this opportunity to join the Special CheonBo Education Seminar. **I was able to feel that I was in Cheongpyeong again after so many years of not being able to return. I felt and realized all the guidance of our Heavenly Parent and Ancestors have given throughout my life journey.** Also, I felt further guidance and embrace from the Spirit World. **I will be able to go through the life stronger and with more confidence as 2. Generation member by my own again.** Thank you so much for this opportunity.

I enjoyed this workshop. The testimonies, the explanations about the importance of the CheonBo activities including the Hyojeong Offering papers. The presentations were well prepared, the contents and the references were well illustrated and helpful. **The resonation prayers were new for me but very fulfilling. I felt that change is coming soon and my heart and mind have been purified from fears and insecurities.** I hope to keep purifying myself with prayer and HDH to become better instrument for God. Thank you!

I am very grateful to be able to participate in the CheonBo Special Education seminar today. I feel it is great blessing and grace for us and our nation of the Netherlands. The program was well planned and I felt much Jeongsong preparation went into it, therefore we could all feel much blessing from Heaven. The testimonies were really inspiring and I was very moved that I decided to offer at least one Hyojeong Offering paper this time. I did many in the past especially as we lived in Korea for sixteen years. **Today I could experience again the spirit of CheonBo like in Korea and I was moved to tears. I realised that I still have a lot of work to do on myself and family, and of course as a CheonBo family. There is no limit to what one can do, even though it is sometimes very challenging. We are reminded again that Heavenly Parent and True Parents are with us and wanting us to be better and successful children. I feel so blessed personally to have such loving eternal True Parents.** Once again thank you Heavenly Parents and True Parents, I will continue to invest more of myself to fulfil our responsibility as CheonBo couple to bring substantial result this year. With all my love and sincerity.

First of all, I am very grateful that we were allowed to establish a Cheonshim Won (prayer room) temple in Glory House. Furthermore, I consider the fact that the CheonBo Branch representative came this time is a major step forward to Gods providence in the Netherlands. To receive them as a representative of True Parents was a great honour and it felt like they were sent directly by them to help us on our path. **The lectures were very clear and helped me better understand how God and True Parents are moving the providence forward and what they expect from us at this time. I am very impressed hearing about the night vigil prayers in the Cheonsim Won temple in Korea and I realize we need to inherit this tradition in the Netherlands. The same with the resonation prayer which I thought would be very challenging for me. However, by attending the actual session I became very hopeful, and I felt deeply moved by the prayers. During and after the Changyang Yeoksa sessions I really felt God's grace and love.** It was a very precious experience. Thank you so much for the CheonBo Team.

It was short but powerful workshop. Especially the testimonies from Mr. Tibor Krebsz, about the Grace of Hyojejong offering paper, how it worked in his life so far. It moved me to tears. **I felt True Mother's and True Father's love and also their tears. Also, our brothers and sisters in Japan who suffer so much incredibly. So much injustice is done that breaks my heart, but how much more God and True Parents suffer but they keep giving themselves to this world. It is difficult to share it in words but I felt deeply the tears and also the love of God, True Parents and brothers and sisters.** Sorry it is difficult to express. Thank you very much!

Steven Yap, Male, 2. Gen. members 30, Netherlands, Bergen aan Zee 2023. March 4-5

First of all, I am very grateful for the wonderful seminar given by CheonBo Branch and was also very surprised at how well the program was organised. The Divine Principle teaches us how valuable each and every person is. But when it comes to my personal experiences with the Changyang Yeoksa sessions or the writing of Hyojeong Offering papers, I didn't feel that I have anything useful to share. But Mr. Tibor Krebsz however told us and ensured that all of us do have precious experiences regardless of what we might think. **I now feel inspired to do my approach differently so that in the future I can do even better and in return have a way to have more valuable experiences. I feel more inspired and motivated to do more for the community and for the foundation of Holland and beyond. Really everything in the seminar was just amazing. The words that the CheonBo Lecturer shared with us really resonated with me on many levels (spiritually, emotionally, hope and faith) And the wonderful vigil prayers shared by our members as well.** Now I want to write my Hyojeong Offering wishes better and follow my every course of actions so that my life becomes more valuable. I want to pray more from the heart so that I can be more honest to myself and to our Heavenly Parent. I want to work better with my brothers and sisters so that we become more united as a family and support the Providence even further. Thank you very much for this inspiration and experience.

It was a very deep workshop with new realisations for me. Furthermore, **I prayed loud for the first time during the Resonation Prayer meeting in such a way that it was easy to hear the members nearby who were too loud. But it was liberating. I was surprised how the words left my mouth so easily.** This is one thing that I am going to keep up at home. **I am very grateful for True Mother's grace and love.** The lectures were very nice. The lecturer was very focused but at the same time has a very deep heart. Wishing Heavenly Parents' abundant blessing for the CheonBo staff including Rev. In Pyo Moon.

After the Corona pandemic and Flu, I couldn't sing anymore since at least one year. Yesterday the Lecturer told us that he had a little throat pain but that after the Chanyang Yeoksa session in the morning it disappeared.

So yesterday in the afternoon Chanyang Yeoksa session I hit my vocal cords. This morning in the Sunday service in Amsterdam Center, I realized that I could sing again after a long time of not being able to sing. I thought to mention this because it was really a very nice experience to be able to express myself again through singing. I wonder why I never realized that I should also hit my vocal cords but Mr. Krebsz's explanation gave me the inspiration to do so.

In gratitude to Heavenly Parent and True Parents for their love and grace to us all. So much grace that I don't even realise how blessed we are. I am grateful to participate in this workshop here in the Netherlands. **I am grateful for the explanations that helped me to fine-tune my understanding of the CheonBo providence. I am happy to be reminded of the meaning and value of what Heung Ji Nim and Dae Mo Nim offering their lives to save and assist True Parents** and to begin the work of salvation in the spirit world on behalf of True Parents. Hearing again True Mother's directions to call on for True Father and that I can become the further connection and to help to fulfil the things that True Father would want to do and have done was empowering. **Loved the resonating prayers, to do this could kick off a mighty revival in each land and want it to start in the Netherlands here in Europe as well.** Deep appreciation to all our CheonBo staff and thanks for a well organised, educational and uplifting program. We need more of this.

Thank you beloved True Parents!
