By the Sunday Service the CheonBo weekend was concluded in Lithuania, Vilnius

"True Father proclaimed, in 2010, the settlement of the True Parents of Heaven, Earth and Humankind. That is, God is the incorporeal True Parent of Heaven, Earth and Humankind, whereas **True Parents are established as the corporeal True Parents of Heaven, Earth and Humankind to complete and manifest God's true and essential nature in substance.**

"... I have dedicated my life, sharing the joys and pains of life with True Father as his companion, overcoming innumerable trials and difficulties. **On that victorious foundation, we, the True Parents, gained, in a providential dimension, the right of equality, the right to live together and the right of holding the same position bestowed on us by Heaven.**"

Let Us Inherit the Realm of True Parents' Victory and Begin a Future Filled with Hope; Hak Ja Han, September 17, 2012

HJ CHEONWON

- CREATING A MODEL ENVIRONMENT -

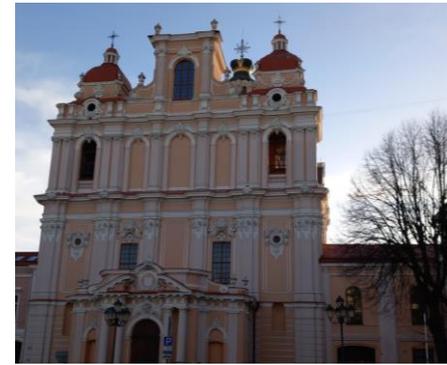

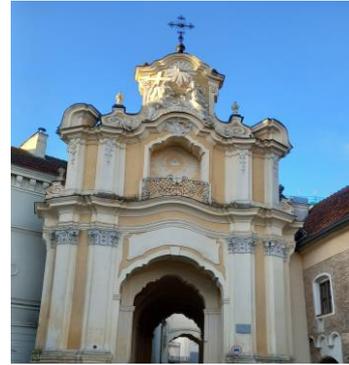

"God is invisible, yet I must be able to attend Him as the True Parent even better than I would attend anyone visible to my physical eyes. I have a responsibility to follow the way of light amid the light, to remove the darkness, and to reach the position where I can liberate all people from the realm of hell. I must erase Satan's footprints and even his shadow from the realms of the spirit world. **When I have completed my portion of responsibility, God should be able to say, "This is My world, My heaven and My earth."**

7. a TESTIMONIES

Andrius Jurkunas, 40, Male, Lithuania, Vilnius 2023. March 25-26

The Cheonshim Won resonance prayer was a special experience for me. I could really feel a special realm of resonance when the prayer is offered. It was the first time that I could experience such thing. For me this scene, this experience was similar like in the movie 'AVATAR', when the Na'vi Tribe was praying together as one. **The deepest experience was at the end of the Seminar, when the CheonBo EUME Branch President, In Pyo Moon offered a prayer. I started to feel very warm and an intensive love coming to me and embracing me.** I felt that this love was not a collective love, a love for the group which I was part of, but a personal, unique love for me as an individual. I started to cry like a child. **Then I realized that my physical father and mother who are in the spirit world and liberated and blessed already, are just standing right beside of me.**

Tamila Kavalskiene, 39, Female, Lithuania, Vilnius 2023. March 25-26

The CheonBo Seminar was renewing, encouraging and heart warming for me. I felt God's love, True Parents' love and I cried a lot. Mr. Krebsz's lectures opened up simple and deep truth about God's providence in our own life and True Parents' way. I felt natural desire to make a new start in my life of faith. I am grateful for the Chanyang Yeoksa sessions and for the sincere testimonies and prayers of the brothers during the Cheonshim Won resonance prayer.

7. c TESTIMONIES

Aram Karagezain, 52, Male, Lithuania, Vilnius 2023. March 25-26

As Mr. Mont-Lang Colleter (Branch Coordinator) and I began preparing the Cheonshim Won prayer room, I remembered a dream I had in 2018 when I came home from Austria, Vienna. I had a dream on the next day early in the morning around 6:00 am. In my dream I was sitting in my room in front of a computer and doing some work. Suddenly the doorbell rang. I went up and opened the door and True Father was standing in the door. He was barefoot, without shoes and socks. At first, I was confused by what I saw, looked into His eyes, and did not know what to say. Then somehow, I got ready, and bowed deeply to True Father and invited him to come inside. He smiled very broadly and said that he is in hurry and didn't have time to come in. He just came to ask if I could offer Him my shoes, because as he is barefoot and is very painful to walk. I gave him my shoes. He put on my shoes, thanked me with the same wide smile, turned out and left. Shortly thereafter, we learned that our National Leader, Akira San is returning to Japan and I was appointed as a new National Leader to Lithuania. As time passed, I somehow already forgot about this dream. And this time, when we were preparing a Cheonshim Won prayer room at the hotel where we were to hold a two-day ChenoBo seminar. When the preparations were completed, everything was in place, I lit the Cheonshim Won candles and began to pray to God asking him to bless this room that during the seminar it would become the Cheonshim Won prayer room. When I finished praying, I saw that True Father was standing in the room. He was wearing the same clothes as five years ago in my dream, and he had my shoes on his feet. He had the same smile on his face. After finishing my prayer, I opened my eyes, and behind of me stood our beloved brother Tibor Krebsz, also with a big smile on his face. He hugged me, I told him in tears about what I was going through and I myself understood with my mind and felt with my heart that, True Father came to bless the prayer room for us. I am sincerely grateful to the True Parents for such warm and infinitely deep feelings and experiences. AJU.

7. d TESTIMONIES

Mirleisy Izaguirre, 28, Female, Lithuania, Vilnius 2023. March 25-26

I am grateful for this CheonBo Seminar, I felt God, really deeply in my heart. I have all my ancestors liberated and blessed in the spiritual world; this weekend I could connect with all of them. I feel they are growing through me and with me and that is the best feeling to know that I'm useful in my life. Thank you so much for sharing True Mother's heart, feelings and intention with us.

7. e TESTIMONIES

Robert Karagezian 19, Male, 2. gen. member Lithuania, Vilnius 2023. March 25-26

Today I had many different experiences. Firstly, when Mr. Tibor Krebsz was talking about the ancestor's liberation, **I felt very deep gratefulness from my ancestors and from my friend's dad that I liberated.** And then also when Mr. Krebsz was talking about **how True Mother liberated African spirits (Goree Island in 2018) I felt very deeply their joy and also how much they went through.** For some reason, throughout my life I always felt great empathy and compassion to African people and I often want to be like them always so free, happy, joyful and warm to each other. Also when **I did my resonation prayer during the Cheonshim Won resonation prayer session,** I felt something I never felt before, **I felt like there was so much energy going through my whole body. Everything was vibrating and my voice felt like its breaking all the chains and barriers. This was truly a unique experience. I felt we were united as one.** Thank you so much and please come here more often our community needs events like this.

7. f TESTIMONIES

Marjana Tarvainiene, 42, Female, Lithuania, Vilnius 2023. March 25-26

During this workshop I was moved deeply at the Cheonshim Won resonance prayer, especially when Rev. In Pyo Moon joined us by Zoom. Brothers and sisters were praying loudly, and I felt very much the presence of God and the high spirit world in the room. I am very grateful to God for his presence and love. During this CheonBo Seminar there was the same spirit world, what I felt before in CheongPyeong, Korea. It will be very good, if such workshop will be held regularly and often here in Lithuania. Thank you!

7. g TESTIMONIES

Anonymous 23, Male, 2. gen. member Lithuania, Vilnius 2023. March 25-26

I think that in recent years my life of faith has become weaker in some aspects, especially when it came to believing in the spirit world, its presence and influence in my life. I think in some sense it was connected to the many difficulties I had been facing that made it seem like God left me to deal with my problems by myself. **I found myself in a state where if asked whether I believe in the spirit world I would surely say yes, but I would most likely refuse to go any deeper into actually describing what that belief means, and how it is present in my life. And honestly, I was not coming into this seminar with big expectations for that to change. Or at least I was not looking for change in this area, I was just not aware that I need it. In another sense I did not even recognize that in my spiritual life I am merely existing, doing just enough to survive, but definitely not thrive.**

Hearing my brother's testimony today changed something. Firstly, it just amazed me how deep my brother's heart was. I was so sorry to hear what kind of pain he had to endure. But even more than that his testimony reminded me of the powerful and real existence of spirit world, of the immense hold it has over us, both in good and bad ways, and the incredible love of God for us.

During the resonance prayer some very difficult feelings came over me. I felt that I had so much pain accumulated over a long time, that I did not let out through prayer or other kinds of mediums, like conditions, liberation of bad spirits in my surroundings, etc. In many ways I still have it. I think it will take me much more to rebuild my spiritual health. I know now that I am sick too. And I know that I can get better. Thank you for everything!

Roma Karagezian, 52, Female, Lithuania, Vilnius 2023. March 25-26

I felt so happy during this seminar because our community became more united through it, by coming together, praying together at Cheonshim Won prayer room, sharing the time and space. I am very grateful to Tibor Krebsz and Mont-Lang Colleter, our precious brothers, who sacrificed their time and came to conduct this educational workshop, pouring out their hearts. Due to this we will have more CheonBo victor families, I am sure! Thank you very much!

Thank you beloved True Parents!
