Testimony

"At the Ancestor Blessing Ceremony, couples stood behind of me, I was surprised, "who are they?" I've already blessed all my 430 generations. And they told me that they were used to be in my body. And since their descendants are not blessed, they can receive the Blessing with me because they were connected to my body."

How Can Heaven Be Built?

"We have to mobilize the spirit world. How can heaven be built without mobilizing the spirit world? It can not. Heaven is supposed to begin from the True Parents, not from the fallen descendants who have existed until now. Just as the angelic world helped when Adam was created, the spirit world should come down to earth and help at the time of re-creation. Otherwise it can not be achieved."

This event in Bergamo was really great. It was like an awakening moment for me to really reconnect with God and all the spirit world, but especially to reconnect to the passionate side of myself about faith! During the Cheonshim Won resonance prayer I felt so alive and so willing to just pray for all the participants and all the Italian 2nd generation members that my heart suddenly filled up with warmth and love. Thank you for Heavenly Parent, the CheonBo Team for coming here to Italy and made all of this possible.

It was a precious time to hold the CheonBo Event in Italy, the week before the Holy wine ceremony for the Special Grace. **The night before the event, I could not sleep, I felt the excitement of the positive spirit world: “Oh, more spirits will be educated”.** This CheonBo seminar was especially designed for youth since some of them never participated in the Chanyang Yeoksa session. I felt that True Parents were really proud of everyone. **I am grateful that I could deeply understand the importance of the Cheonshim Won prayer hall. True Parents are asking everyone of us to become like them, think with the same mind, feel with the same heart and act as they would act.** I feel this CheonBo seminar really give a kick-start on how to live in the realm of resonance with True Parents. Thank you so much!

Thank you for the great lectures. **A very important point was for me, the explanation on the attitude that we need to have towards the spirits who must be liberated.** It's not easy to have an attitude of genuine love towards resentful spirits who cause problems and even more, to say sorry for what our ancestors did to cause such resentment. **I tried to participate in Chanyang Yeoksa with this attitude which I never did in previous events, and it was a great loving exercise, as well as humility exercise, to acknowledging and feel responsibility for mistakes that are not strictly mine.** Thank you.

Every time when I had Chanyang Yeoksa session I felt peace in myself and my spirit and my body were in syntony. During this workshop I felt these emotions even ten times stronger. This was probably because of the good explanations (lectures) we heard and if we have a heart ready to receive, then we can do anything.

Today I had my first Chanyang Yeoksa session. I really enjoyed it. It was as I expected. As I have always heard, first, I needed to get used to it, and by the time everything became normal, like if I have already done it many times before. **I started to have good feelings during the Chanyang sessions and I focused on myself and to feel free from some burdens I didn't think I had.** I really appreciated and I'd like to thank Heavenly Parent and everyone who shared these experiences with me and above all who made it possible.

For me this seminar was a great day. I offered this day for the sake of my spirit in order to learn something about the Cheonshim Won Providence and the Chanyang Yeoksa session. I think it is beautiful to know more about such things, because we do not speak often about it. **I hope that this type of Seminar will have more often in Italy,** because the 2. Generation members do not know enough in these topics. Thank you!

I participated in many Chanyang Yeoksa sessions, and all of them gave a unique experiences including this last seminar today. Even before the Chanyang Yeoksa session I got shivers while reading the lyrics of “The grace of the holy garden”, and I realised that the shivering was not mine, but it was the ‘spirits’ who were with me, who probably knew what awaited them. Indeed, **in the end of the first Chanyang Yeoksa session, in the last breath, I felt something leak out of my body, feeling like a weight was gone. The shoulder pain that has affected me for weeks was now gone.** Thank you so much for Heavenly Parent, the organisers and lecturers for the work done with care and attention.

I had a good experience in the CheonBo Special Seminar. The Chanyang Yeoksa wasn't the most extraordinary session I had, but I was able to feel connected spiritually and connected to the purpose of the removal of evil spirits. I experienced that hitting my neck for some reason was particularly emotional. I wonder, if more evil spirits are residing in my neck. **I especially appreciated the explanation on Cheonshim Won Providence. I didn't know about the foundation of vigil prayers behind it. I suffer from stuttering since childhood and hearing many testimonies made me think that I should believe that even after so many years it is possible to solve my problem and that I should allow myself to receive this kind of love from Heavenly Parent. Human power alone is not enough.** Thank you.

Today I learned from the lecture to say sorry to the evil spirits in order to comfort their hearts and for the mistakes that our ancestors did and try to love them. Thank you!

This event was so interesting, because I learned so many things that I did not know before. It was so inspiring to learn many things in one day. Thank you so much for these lessons.

I liked very much today's seminar. **The presentations were interesting and I learned a lot of new things that I did not know before. The Chanyang Yeoksa session gave me a great energy and motivation.** I wish that the bad spirits are gone and I can become a better person. I also met many members I did not see them long time. And we ate pizza together as well 😊
I wish that many other people could have this kind of great experiences and that 1/3 of Humanity could be blessed during True Mother's life time.

Thank you beloved True Parents!
