TESTIMONIES

Corrina Deininger, Female, 20, Austria, Vienna, CSW Resonation Prayer, 2023. June 21.

Today, I had the most wonderful experience. Usually, I tend to get sleepy after a while and have a hard time paying attention. Today, I didn't have this problem at all. I was completely awake and could be attentive almost all the way. At the unison prayer, I started to get emotional even though I rarely get moved. Afterwards I cried about 4 times. **The atmosphere was amazing, I felt like I was carried by a wave, with no way out. You had to play along, you didn't have a choice. Some might say I was brainwashed! Even though I knew the windows were closed, it was warm and the air circulation was terrible, I was wide awake. I felt so much energy and movement, there was no way to feel sleepy.** This is a rare experience because I tend to feel sleepy very fast.

I have to thank to Prs Moon's team. Overall, there was such a high spiritual atmosphere, I felt carried and like nothing could stop me from testifying our True Parents and Heavenly Parent. It was so powerful and at the same time pleasant. The spiritual world became so active, that well after midnight, I felt full of energy. Usually I need calm to pray, but here I could have a deep prayer without feeling disturbed by people around me, quite the opposite. Thank you so much to the MC , Tibor Krebsz, who expressed himself with a lot of heart, it moved me. He remembered that in 2019, my husband played piano when the CheonBo Team came, which I myself forgot. Thank you also to Mrs. Solange Colleter, who prayed with a lot of devotion and sincerity. And to the technical team, the songs were so beautiful, and it was easy to sing together with the CheonBo team. I await with impatience for you to come back.

This event was very surprising, but I was happy because I heard already many things about this vigil prayer in Korea and I had the feeling that we should start something similar in our community as well. So I attended via zoom in Vienna and then in Graz. I was inspired to see our second generation members coming into their ownership and even though I did not have that special great experience I understood more deeply about the importance of the resonance prayer and that we are going to bring the good spiritual world down to support us and our work. Additionally we could connect to the high spiritual realm of Cheonshim Won and this is definitely something we have to tap into more deeply, and this Wednesday evening was a real good start for it. Thank you Mr. In Pyo Moon and CheonBo Branch Team.

Dear CheonBo Team,

How is it possible that **I felt spirits coming out of me, leaving my body during the Cheonshim won prayer time** and I am sitting at home? I never felt that before. It was a grandiose experience like a cold air going out of my head. I never had that strong experience until now. Thank you very much for that opportunity.

June 25.**

I want to express my gratitude to Heavenly Parent for his help in two emergency situations I had in the last two months. In both cases **almost miracles were needed, and the miracles happened after offering HJ offering papers with a desperate prayers during the last CheonBo workshops in Croatia.** These were not my private situations, (I cannot say more) but helping others and the results were wonderful, showing God's intervention. Thank you so much!

Thank you beloved True Parents!
