TESTIMONIES 소감

Arlinda Elbasani, Female, 29, Tirana, Albania, CheonBo 2-day WS, 2023. Sept.30 – Oct.01.

I am very grateful for these 2 days event of HJ Cheon Bo here in Albania. I have been waiting so much for this workshop this time. I felt it was very smooth, like everything went very fast but deep in the same time. I liked the messages of heart and the lectures; I could easily feel the heart in the spoken words and in the content of the lectures which were very good because it prepared us for the Chanyang Yeoksa sessions. I had two interesting experiences today in the end of Chanyang Yeoksa session; I saw Rev. Moon and I had a strong feeling that he is coming to me, and when I closed my eyes and right away his image changed into True Father two or three times, changing back and forth. The other one was, when I offered the prayer to withdraw the benediction from holy wine and holy water after all ceremonies were done, I could hear the voices of people praying in different languages. It was very interesting. It was very relieving experience internally. Thank you so much Heavenly Parent, True Parents and to all staff members for their sincere devotion and heart.

Ida Stefa, Female, 22, Tirana, Albania, CheonBo 2-day WS, 2023. Sept.30 – Oct.01.

I want to start by expressing my gratitude for the opportunity that I could participate again, and of course more thanks to True Parents for offering this event to us. Although I couldn't stay until the end, I had an interesting experience. I realized once again how little I know about how the spiritual world really works. Rev. Tibor Krebsz's presentation made me reflect more about the invisible work of spirits, especially the evil ones, and how much responsibility I hold not only for my spirits (insight of my body) but also towards my ancestors. These thoughts occupied me that I need to learn even more, and at some extents that I am allowed to do that. One small experience I had during the Chanyang Yeoksa session.

TESTIMONIES 소감

One small experience I had during the Chanyang Yeoksa session. Before starting it, my heart was overwhelmed and teary, I wanted to cry, but those tears were not mine. I could feel empty but full of tears for a reason that I don't fully know why. It wasn't me as an individual who wanted to cry. During the Chanyang Yeoksa session, I tried to focus on every spirit that were holding me back, I wanted to liberate them from the bottom of my heart. Even after the Chanyang Yeoksa session finished, something inside of me wanted to cry out. I tried to understand the reason, and what I could think is, maybe the spirit world around me felt heavy, maybe they were sad, or many other reasons, maybe they wanted me to shed tears for them. So that's what I did when I went to the Cheonshim Won prayer room, letting all the tears out for them and offering them to God. A question I asked to myself is, why they cried, what's the reason behind of their crying, whom wanted me to cry for them? Overall, and even now I can feel myself less heavy, and I am grateful!

Arnold Grami, Male, Tirana, Albania, CheonBo 2-day WS, 2023. Sept.30 – Oct.01.

This time, this workshop, especially the prayer times were the best. I felt easier to pray and call out God. The concept that was created in me, was like a heavenly battlefield. I felt I really need to be brave, to fight strongly with my fallen natures, to be true to myself and to Heavenly Parent. In this way I could be on the side of Heavenly Parent. That's why I prayed loudly, with a desire to break down the walls that are separating me and my community, the people from Heavenly Parent. Listening the sharing of our president (Mrs. Vasmatics) at vigil prayer made me feel that I really don't want to be a child that will make my Heavenly Parent worry anymore. Also, my mind shifted when Rev. Corley shared that we should pray for our enemies. I felt one more time hope that if we continue with our daily habits of faith, God will find the way to be with us in our heart.

TESTIMONIES 소감

All the Chanyang Yeoksa sessions were good and there were some feelings, like: At the ancestor liberation ceremony, I was praying for a collateral spirit that I applied. He is one of our Ambassador for Peace, who could meet True Father in person. And he is one of who didn't step back to respect Father even when Islamic people said to him to do so. I felt like, Father will be happy to meet him again in spirit world. And I asked and prayed that may he be always near to True Father, in order to support Father, the same way he did here on earth. I really felt grace and lot of liberation, heavenly fortune through HJ Offering Ceremony, and liberation from the central evil spirits. I want to continue to liberate them and be aware of my steps.

All the lectures, information, and the heart of the staff made me feel the importance of this workshop, and understand the heart of Mother. I felt that all this is for me, and for us. And it is a grace. There is a condition lay down by True Parents for us to have this CheonBo event. Those conditions became more real to me in the moment when I started to feel tired because of the responsibility I had. In that moment I realized that, imagine, I feel tired only by being MC in this event, but what about True Parents that needed to create everything from zero. Thank you very much for everything.

Senarda Grami, Female, Tirana, Albania, CheonBo 2-day WS, 2023. Sept.30 – Oct.01.

When we came to know about this workshop, me and my husband were discussing if I should come or not because my baby was small and we were afraid how we can manage and how it will be for him all these people and noise. But after reflecting on it, I came to the conclusion that this chance is amazing for me and for our baby. This is a special activity and it is spiritual. Even our relatives were against this plan to come and attend this Cheonbo event, but we decided to come and I am so grateful. I had two moments that I could feel grateful and moved from the workshop:

First is, at the first night after Chanyang Yoksa session, when the song Eommaya was projected with the True Parents' picture I felt in my heart that True Parents are really great people and I felt so much love especially towards True Mother. The second one was at Sunday, again after the Chanyang Yeoksa session when we had unison prayer, I was praying with my son holding him in my arms and I felt so deeply the desire of Heavenly Parent to keep us like that but sadly he cannot. I am so grateful for the staff and all the love.

First of all, I want to start this reflection by offering a deep gratitude to our Heavenly Parent and True Parents and to all people who worked so hard to really invest and make this event come true.

For me this CheonBo event has been very special because it made me eager to look for the questions like: Who am I? And what is my position front of Heavenly Parent and True Parents and in this providence. Secondly, I really felt lot of grace from the Chanyang Yeoksa sessions, because I also could liberate my ancestors of generations from 22 to 105 and it was really so unforgettable moment to feel that finally they will get to know True Parents and God. And for sure that like the cherry on top of the cake was blessing of my ancestors from gen 1 to 21. It was such a great feeling to know that they are blessed couples now and I feel they will be such a great support to me and to fulfil my blessing as well. In conclusion for me it was an unforgettable CheonBo event. Thank you so much!

Fjoralba Pecaku, Male, 26, Tirana, Albania, CheonBo 2-day WS, 2023. Sept.30 – Oct.01.

For me this event was one of the most heartfelt CheonBo event I have ever attended. Since when I entered the Peace Embassy, I felt totally different energy compering to the outside world. A higher energy and atmosphere, I felt like I was embraced by the love of God. The most powerful moments were for me during the first Chanyang Yeoksa session on Saturday afternoon and at the Cheonshim won vigil prayer in the evening.

During the Chanyang Yeoksa session, I could resonate more to Heavenly Parent's and True Parents' dream, and what kind of world they want to create, the world of heart. While I was praying for the evil spirits to leave my body, I felt so much that this is not the place where they belong to. And Heavenly Parent and True Parents have created the most beautiful place for us to live in, the world of true love. And I was praying so hard for them to let their fear go and their resentment or whatever heavy feelings they have, and they trust in the love of Heavenly Parent, True Parents. Not just because my mind knows this is what God created for us, but my heart deeply felt in that moment and I had this deep feeling of longing for living in that world of true love.

TESTIMONIES 소감

During the Cheonshim won vigil prayer I was very moved from Rev. Corley's sharing about True Parents' life and from each lecture I felt like my heart was so thirsty to receive everything. The worship songs and the prayers were very powerful and I felt the same spirit just like in Korea vigil prayers.

While I was praying for the situation of our country and communities, I got the feeling that we should not rely only on what we can do, but what God can do through our jeongseong. We have to trust in God's bigger plan, as True Mother says "not just by human power alone". Overall, for me the workshop was a deep heartfelt experience and I am very grateful to True Parents, the CheonBo Branch Staff, the Chanyang team and Albanian HQ who made possible this workshop to happen. Thank you everyone! 🙏

I had the opportunity to participate in a workshop organized by the Unification Church, and it was a spiritually enriching experience. The connections I made with fellow participants were truly valuable. Through the workshop, I learned profound teachings that emphasized spiritual growth and the importance of family bonds. The warm welcome and support from the church members created a nurturing environment where we could share our experiences and beliefs. This experience has had a profound impact on my life, strengthening my personal beliefs and reminding me of the significance of human connections. I look forward to continuing my journey of growth and building even stronger relationships.

Sokol Rexhepi, Male, Tirana, Albania, CheonBo 2-day WS, 2023. Sept.30 – Oct.01.

Even though we liberated and blessed our 430 generations, I was looking forward to this CheonBo workshop as I missed its leaders, Prs. Moon, Rev. Krebsz and of course our dear Rev. Corley. I received a lot of love from them last year in Albania when they held the event in Tirana.

This time I decided to sit in the second row as I wanted to feel the atmosphere more substantially. It helped me to prepare spiritually when I was translating the lectures which were given during the CheonBo event. Also, I felt very involved when I was interpreting on the stage for them. They are really with deep heart and we could learn a lot from them despite being in the movement for quite some time. Also, I felt more united with my wife during the CheonBo event. Usually, she is more serious and attends quite well, while I am falling behind in these aspects

TESTIMONIES 소감

But this time, even though no-one was pushing me, I felt I have to attend more seriously. Originally, I thought the program was exhausting but I never felt tired. This was amazing considering the laziness of my body and the lifestyle I follow. All the program was well-organized but the Changyang team was at the top. I was amazed with the mixture of Albanian and international members who were perfect in their performance. It was same as being in the original Chenbowon in Korea. This made a big difference for me. Overall, it was an amazing event. I cannot express my gratitude towards all, especially our national leader who was leading and attending throughout all event together with her beautiful family, even with her 8 months toddler. Sometimes I cannot believe how they do it, having the heart of serving and attending 24 hours a day. We are really blessed to have such an exemplary family. Thank you, True Mother, for this amazing grace. Kamsahamnida! Saranghamnida!

Juri Rajku, Male, 24, Tirana, Albania, CheonBo 2-day WS, 2023. Sept.30 – Oct.01.

When Rev. Inpyo Moon talked about honesty and also asked us to be honest with him, I felt a little bit strange in a good way, because it's rare to meet older people in leading position with this attitude. Can't be honest because you're either complaining, disobeying or wrong. Most of the things I shared them with the Chanyang team but I'll write here the things I couldn't find courage to share.

It was a terrible good spiritual journey. I felt all kind of feelings and emotion. I felt joy from songs and love. I felt envy and arrogance, pride as a leader, I could see the snake in my garden tempting me and I felt ashamed of myself because I felt good from the tempted ideas. I scolded myself, I am sorry to God and True Parents for my sinful side. I felt and saw how this snake try to tempt me in immortality, in jealousy and envy, in pride and arrogance. But in the end, I didn't banish this snake from my garden, I taught him that we both should do better, I didn't hate him, I didn't become one with him in his good twisted reality temptation, but I kept walking until the end with a humble heart and head straight, going through hell with one foot and in heaven with the other. Step by step with faith and the love of God for me.

A worthless dirty man being trusted by Heavenly Parent. Walking unto a threat and one wrong step would burn me falling into hell. Risking my spirit, I was afraid everyday but I kept going, offering myself. I wish I could offer more, I said with each step. Until I met Truer Parents in Cheonshim won vigil prayer at Friday. I couldn't pray in unison prayer but I tried to unite the prayer of someone next to me. But Friday vigil prayer I saw True Parents in beautiful colourful robe just like a photo and me as a 4 years old boy crawling, walking in tears, searching for my parents. They hold me in their arms and I kept crying and crying. What do you expect from a baby boy. I realized that all this time acting responsible, tough and like a big man in front of God, I was nothing else but a little 4 years old child scared, searching in tears for my parents. I found comfort in them and there is nothing else I need more in life now. That comfort I know where to find and get it now. I feel so found and completed. Like nothing can beat me, no doubts. I said thank you True Parents for that even if I forget this love that you give me, I know you will give again. I have a lot more but less paper. Anyway, give to Caesar what belongs to Caesar and to God what belongs to God. I'm keeping some for me, God and my wife. Sorry! And thank you!

I am Viktoria and I just love those days here. I felt like a new person. I want that all of people feel like this too. I think that evil spirits are not in me. I think that all evil spirits will become good spirits. I love this time, making new friends, playing, learning. It was a wonderful and good time. I think that if we do it not four times but one hundred, we'll be great! And the food is yummy, but the soup has an interesting taste. I had better than a wonderful time.

I am Elena. I always come for the CheonBo events. I feel like this is my real home. I always enjoy it here. I'm so happy for what you do for the world, I think it's so kind. Today I was happy to start the day with True Parents, with God and brothers and sisters. I love you brothers and sisters; I hope you read this.

Thank you beloved True Parents!
