TESTIMONIES

Moonsun, UPA missionary, Durres, Albania, 2023. Nov.13th

Thank you for visiting the Durres CARP Center! When I was young, In-pyo Moon was a lecturer at the training center, so I saw him a lot, but it was amazing that In-pyo Moon was coming to the Durres CARP center. Thank you for welcoming us in a friendly atmosphere when we meet in person. I don't think I'll forget the time I spent with In-pyo Moon. This is because I could feel strongly that the sincerity of Cheonsimwon is the power of heaven. I felt a lot of power while listening to In-pyo Moon's words. The most memorable thing was that you had to have a sensitive spiritual sense to feel your True Parents. It is difficult to grow individually because there are still many things I don't know and many things I lack, but he said that there is nothing I can't achieve when I become one with True Mother. I also felt that I should try to be one with True mother. It was a time when I missed Cheongpyeong, missed Cheonshim Won, and missed True mother so much. It was also a time when I could feel the warmth through prayer and singing. On the other hand, I'm sorry. There was a regret that it would have been more good if there were more family members and more customers, but I will try to spread the power I received through this time to the people around me. Thank you.

TESTIMONIES

Miyo Matsushita, UPA missionary, Albania, 2023. Nov.13th-16th

It was a very good time for me. The lecture time was particularly impressive. Recently, True Mother is giving us a lot of words about Cheonshim Won, but to be honest, I didn't really know the detailed meaning of it. However, through the lecture, I learned that Cheonshim Won is the same as what is inside a mother's womb. I was struck by the words that mothers have to work hard to give birth to a new life, and that the child inside must also work hard so that they can go out into the outside world. When I heard this, I felt that of course we pray hard and make efforts, but even more than that, I realized that Heavenly Parent and True Parents are working hard so that we can be reborn. That's why I thought I need to pray more and I want to thank Heavenly Parent and True Parents. I was also very grateful that I was able to ask questions to Rev. Inpyo Moon. Recently, True Mother has often said, "When you become one with me, miracles will happen." However, every time I heard this word, I wondered what I needed to do to accomplish it. In response, Rev. Inpyo Moon told us "By taking on challenges that you love just like True Mother, you can also be in the same emotional realm as True Mother. And through this, you can become one with True Mother." Thanks to that, I was finally able to understand the meaning of the True Mother's word. During this missionary period, I want to practice true love as hard as I could so that I could become more one with True Mother. Thank you very much.

TESTIMONIES

Mirlinda Kutleshi – Pacolli, Prishtina center leader, 2023. Nov.13th-16th

Actually, last time when I attended CheonBo workshop at Peace Embassy, which was also my first time to do ancestors liberation was a really deep experience and I was hoping to have at least a simple meeting in our community and when this chance came I was really happy, and I felt like God could feel my heart and my wish without even praying for that. I felt that our main communication with God is really our original mind and our original heart, in that way that if we really have an original mind activated God comes there immediately and responds to it. So the meeting was really really nice. Even though I hoped that more families and members could join but anyway was a really warm atmosphere and I was happy for those who came and also very grateful for Rev. Moon and his staff who invested their time, their energy and their spirit here in our center. So thank you very much. I wish and hope to have similar meetings again in our community.

TESTIMONIES

Juljan Bradasheshi, Elbasan's center leader, Albania, 2023. Nov.13-16

During the time of prayer when we started at the beginning I felt a little stiff and I was feeling a little uncomfortable but during the prayer I felt free and I said this is the will of God I must let myself free. I felt a lot of strength and hope when I was praying for the community, I was touched when I was praying for my role and Marjole's as Community Parent. Also, even though Marjola was not there when I was praying, I also felt her close and I felt that we have the permission of H.P and T.P for the steps we want to take in our lives. It's not easy to be free before God sometimes many concepts come to you, but there I felt Cheonpyeong in front of me as if I was there, and it took me years back and I felt very good I miss True Mother and Cheonpyeong so much at that time . Also, conversations with Rev: In pyon moon are very pleasant because he is energetic, funny, with a sense of humor and seems very receptive to the answers I give.

Thank you beloved True Parents!
