***(first time comer, Professor in Istanbul University)***

**It was really an interesting experience. I have read about the Unification Church. I visited their office in Istanbul but I did not attend any communal prayer until today. Seeing you in unison prayer, it was really good. You are interested in Universal Peace; this is highly appreciated. Even though your gatherings are not familiar to my Muslim and Turkish background, however attending in person it is very precious. Thank you for your hospitality, you are open, you do not veil anything related to the Movement. This is also appreciated as well!! (continued to the next page)**

Our teacher told us that this religion (Unification Movement) focusing on peace making. I did my experiment here today and it is true. I liked the people because they are so polite, especially Mr. Angelucci and Mr. Moon. They always responded on my questions even though I had many. We must find a loving perspective, what we felt here. This is the first time that I met the followers of Sun Myung Moon, I want to hug them. Not necessary to have block in our brotherhood, between you and the Turkish people, Turkiye is also your home. You are our siblings.

**I am so grateful after the today's event. So peaceful. I went to Cheongpyeong Training Centre many years ago. That time I prayed for the day to come when I can pray one day in Turkiye or Iran in a similar place like Cheongpyeong. We have now a Cheonshim Won Prayer room in Turkiye and Iran too. I am constantly praying for world peace; I want to live with my family and brothers and sisters peacefully in this beautiful world.**
