Angela Tamanova, Female, Vilnius, Lithuania, CheonBo 2-day Event, 2023. Dec. 16-17.

**I want to thank to the CheonBo staff for this amazing event. The MC was incredible, everything went smoothly. This was my first time that I participated in a live CheonBo event. The Chanyang session was amazing. I have a problem with my solder and when Rev. Krebsz came and gave ansu on my head, I felt like a warm golden light was spreading from my neck to my shoulder and it felt like the sun was shining around me. I really loved the lectures; I have learned a lot. Thank you very much!**

**This workshop was very special and there were many spiritual phenomena. We applied for 7 Central evil spirits liberation from my son and the day before the workshop he became sick with high fever. But he faithfully participated the Chanyang sessions. Also, we applied for the liberation of 5 Central evil spirits from my wife's cousin, who is not a member. The day before the workshop she broke her leg in 2 places and was hospitalised. During the first Chanyang session I put a lot of efforts, but could not feel liberation. After the second Chanyang session at the time of intensive separation of evil spirits, I worked on my body and spontaneously started to pray to help the spirits to be liberated. I never prayed before like that during the Chanyang session, but this time I did and felt liberation of the spirits. During this Chanyang session, few times I had internal impulse to stand up and shout or even dance. Of course, I didn't do it, but there was some internal fire insight of me during this workshop. It was really amazing to see and realize that our brothers and sisters are making efforts to pray and do Chanyang Yeoksa together.**

I didn't see long time or maybe even never before that our church was united in spirit like this by following one goal. And it was very touching for me. I prayed many days that our brothers and sisters could understand and experience the preciousness of the Cheonshim Won providence. Also, we prayed that our church could be united. And this was a precious time when I could see my brothers and sisters' happy faces not just externally, but with the internal foundation. And there were no boundaries, at least inside of my heart. Also, it was very nice to see our brothers and sisters from Latvia and Estonia and make heartistic connection to them through this workshop. It was so sad that the workshop finished and I had to go home, but I'm waiting for the next one.

**Vitaly Lopatko, Male, Vilnius, Lithuania, CheonBo 2-day Event, 2023. Dec. 16-17.**

**On the first day of the CheonBo seminar I enjoyed the Chanyang Session, someone always came to me from the CheonBo team and helped me to do ansu. I felt light and calm and the spirit of anxiety and worry was gone. On the second day of the workshop, I had a spiritual experience. After the Chanyang session, at the moment when I could call on my ancestors, Rev. Moon Inpyo came to my left side and started to pray fervently. As I hugged Demian (my son) and folded my arms I felt as if I was in Cheonshim Won. A feeling of remorse came naturally and a feeling of forgiveness and gratitude. I couldn't hold back my tears. Later, I felt the ancestors could hear me and they are willing to help me, and a sense of calm and peace came to me. Many thanks to the CheonBo team and the organizers of the workshop for an amazing experience.**

I was a part of the local preparation team for this event. Two days before the event I felt very tired, had no energy, it was very difficult to focus, and I felt as if I was carrying an invisible heavy load on my back. I felt a heavy spiritual burden, many evil spirits weighing me down. **Then I prayed to the True Father: “Father, I do not want evil spirits to bother me, because then I cannot help you. Father, I know that you have the power to resurrect me. Father, I trust you can resurrect me.”** And very soon after this prayer I felt totally different, as if night turned into a day.

I was assigned to be an MC of the event. I felt that True Father was in charge of the whole program and that the whole atmosphere was very holy and dignified, and that there was much more happening than my eyes could see. The air felt thick with spiritual reality. Nothing during the program felt symbolic. Every ceremony felt very meaningful and substantial.

But my greatest experience was not that of spiritual reality but that of True Parents' love. The whole program felt like a melting pot of Heaven's love. I could feel all kinds of resentment and enmity that I had carried in my heart towards certain people was dissipating. During the Prayer Vigil, President In Pyo Moon said, "If you want to become one with True Parents, you have to practice the same love as they do, which is unconditional love." After the Prayer Vigil I wanted to embrace those towards whom I had carried hard feelings before because those feelings were suddenly gone. I felt I was liberated from those feelings and that now I can start filling up that empty space with love.

**This weekend, I had a very interesting experience during the CheonBo event. Connecting to it, one week ago, I decided to apply for the 13 central evil spirits liberation. And right after that, I had a nightmare, being paralyzed, and someone whispering in my ear "ahh" when I was waking up. This all happened on the same night. Finally, the CheonBo event came, during the Chanyang session, when I started to hit my chest, I felt that I would vomit. And instantly I started to do a dry vomit, meaning, nothing would come out physically. I didn't even feel that any food might come up; it was completely dry vomiting, I got a feeling like I would vomit up those central evil spirits. And then the same thing happened when we had unison prayer after the Chanyang session**

Also, during the Cheonshim Won vigil prayer, when we had the unison prayer again, I started to do dry vomiting really hard. It was very painful for my abs because they tensed up so much because I couldn't stop the dry vomiting. Another big highlight was for me that I could convince and bring my friend to this CheonBo event, who is not the member of our church, yet. He hasn't participated in almost any church events; this was his first one. I was amazed how he invested and passionate he was during all the activities, even though this was his first CheonBo event. All in all, I feel like this weekend was definitely very needed for our Baltic communities, and I can't wait to have it again. Thank you

**We decided to go to Vilnius to the CheonBo event as soon as we heard about it. It takes 9 hours on a bus one way with a six-month-old baby was a very frightening thing, but it didn't stop us. A few days before the seminar, the atmosphere in our home was tense. I felt that the spirit world was influencing, I even told them (*the spirits*) wait a little bit and I will release you. We went as a family (*my eldest son is in acute transition, and he has other interests now, but still he decided to come with us, even though he had the choice of staying home alone or going to Riga with his class*). Most of the time I was in the children's room with the children, and my husband was in the hall with all the participants of the seminar. On the second day I was in the main hall and my husband was with the children. Unfortunately, I don't speak English very well, so I was listening the translation. I could bless my ancestors, I wanted to be in the main hall and take part directly of the ceremony. I felt a lot of love. But of course, my favourite were the Ansu sessions.**

*(Second part)*

I always feel the interaction of the physical and spiritual world through the Chanyang Session. This time I did not have any spiritual experience (*even though I was looking for*), but I felt a very high spiritual atmosphere. One time I felt a sharp jolt on my side when one of the elder brothers who was giving ansu to participants was passing by behind of me, but he was far away when I turned around. Since my whole family was involved in participating in the CheonBo event, it really brought us together. I was worried that my older son would refuse, or just sit on the side, but he was very responsible and participated in the whole event. I believe that even though we don't understand everything, but as long as we are alive, we should use every opportunity. After all, in the spirit world nothing can be changed. The organization of the seminar was excellent, a lot of work was done, I felt love and respect. There were a lot of tangerines! We ate and ate them, and they did not run out. It was just some kind of New Year miracle! It didn't bother me at all that I had to go from one room to another (*dressing and undressing the baby*). There were many younger children but we all coped perfectly with them. During the seminar I felt a lot of inspiration and love.

I am very grateful to True Parents for the opportunity to receive grace by participating in the CheonBo seminar. Before the start of the seminar, on our way to Lithuania I was singing the holy song; Grace of the Holy Garden for more than one hour, in order to my family arrives on time and safely to the seminar venue. **The loud singing of the holy song helped me to internally prepare for the Chanyang session: not to be disturbed by thoughts coming from unliberated spirits, stay focused. During the Chanyang session Rev. Moon did ansu for me for a long time. I do not consider myself spiritually sensitive or open. Yet I immediately felt special high vibrations from the palms of Rev. Moon. I realized that these vibrations could break the layer of dirty core above my head. I still feel something special above my head. Next day morning, after waking up, I was surprised to realize that this feeling is still there overnight sleeping. During the Chanyang session on the second day I got a desire to approach True Father and True Mother. At the same time, I sang the Chanyang holy song and talk to True Father, True Mother, Hyo Jin Nim, Hyung Jin Nim. In the gospel there are the words of Jesus; “I am in my Father and the Father is in me”.**

Aleksandra Nikolaeva, Female, Vilnius, Lithuania, CheonBo 2-day Event, 2023. Dec. 16-17 *(Second part)*

During that Chanyang session I had the feeling that True Parents, the True Children and we are united in one, as one body. I felt this spiritual reality, absence of barriers, existence of my body in the physical world and spiritual “I” in the reality beyond of space and time. At the end of the Chanyang session, I felt to offer an important promise to True Father, that despite of my past mistakes, unfulfilled pledges, and determinations, from this moment on I will always be with the True Family, will do my best to be unshakable, despite of what is going on around me. I felt that True Father had to wait for a very long time that this moment could come, and He hugged me. I got confidence that True Father will guide me, He will give me guidance; how can I bring victory to Heaven, when I feel confusion. I felt calmness like in the bottom of the ocean, when many Absolute Good Spirits were present in the Chanyang session.

# Thank you beloved True Parents!
