TESTIMONIES

Ulla Mikkanen, Female, 29, Helsinki, Finland, CheonBo 2-day Event, 2023. Dec. 19-20.

After the first day of the CheonBo Workshop, I had a happening at home. I felt dizziness and I almost fell and my husband witnessed everything. I realized that the evil spirit tried to attack me. I felt the same happening three years ago when I was doing my fasting. I have done fasting before but that fasting was unusual. I knew I had to do it and I felt like something is trying to interrupt me this time as well. I knew it was an evil spirit doing this. I was happy that I did not give it up. On the second day of the CheonBo event, my husband Kimmo Mikkanen gave a testimony about his experience of the Chanyang session and removing of the evil spirit. When my husband gave his testimony front of the participants, suddenly I saw a light surrounding him. A light coming from behind. I haven't seen a spirit but I saw chi (energy) and I felt, I need to support my husband more and support our community as well. Aju!

I am very much for these 2 days CheonBo event. It lifted me up spiritually and the content strengthened once again my faith. I feel again connected to my God, Heavenly Parent and True Parents. I wish to have more often this CheonBo event. I am grateful to our True Parents; through them I can liberate my ancestors and be encouraged to do good things in my life. Thanks to Prs. Inpyo Moon and to others who organised this event successfully.

TESTIMONIES

Laura Blan Ksvard, Female, Helsinki, Finland, CheonBo 2-day Event, 2023. Dec. 19-20.

I attended every day from the beginning of June the Cheonshim Won vigil prayers and I could develop a feeling that I am attending in live, in person. So finally, it happened because now the CheonBo event took place in Helsinki. Few times I was crying and I understood more deeply the current providence. I really cried out my heart to God and True Parents and my tears were flowing and dropping to the floor. I repented for many things, same time I felt so much gratitude. I felt more heavenly fortune came to me and to the Scandinavian Region. I really got more internal guidance and understanding and with God everything is possible. Thank you, Mr. Moon, for everything. We are in True Mother's womb and let us be born again.

Thank you, Heavenly Parent, for this very special experience. During the Cheonshim Won prayer I felt many new things, which I am rather surprised about – Heavenly Parent has such a deep relieve because True Mother is the first woman in history who accepted absolutely and fulfilled her responsibility. Because of that a stream of blessing can come to humankind, a river which was dry and will flow again, birds with broken wings will fly again, in the desert flowers come. Through unconditional heart our freedom comes, that's the only thing we look for really and learn that. Thank you for reminding us, thank you for letting my original mind waking up little more!

The substantial Cheon Il Guk is possible in our life time, because of the only begotten Daughter, True Mother. It is possible through the Cheonshim Won providence. Aju! This is how I understand.

With a heart full of gratitude to Heavenly Parent, True Parents and to the CheonBo EUME Branch Team led by Prs. Inpyo Moon. It was a blessing to be able to receive you in Finland. Not only for our community but also our Nation. Before coming to the CheonBo event, I had offered jeongseong, prayed, and prepared that I can be really present and be able to connect to Heavenly Parent and True Parents' heart during these two days. On the first day I could experience the separation of spirits. I could feel them leaving my body. I felt as if every pore on my skin were opened and could sense what felt like a cold breeze coming out of my body. I had a similar experience on the second day as well. During the Cheonshim Won special prayer devotion I could fully open up my heart and mind and surrender completely to Heavenly Parent's will. As I continued to pray calling on True Parents, shouting Aboji, Omonim, asking Heavenly Parent and True Parents to find a dwelling place in our hearts, minds, in our homes and our nations, for everyone to feel the love and have a very personal and special relationship with Heavenly Parent.

(Second part)

Suddenly words could not come out from my mouth. I got really quiet, inside of me I could hear my own heartbeat very clearly and it was as if my heart is going to expand by each heartbeat. In that moment all that I could say was thank you so much so many times. I lost counting. I know, in my heart this event is going to be a historical moment, changing event and give hope and blessing for many and for our nation, Finland too. I was honoured to serve Heavenly Parent and our community, singing songs and be MC during the event. I am deeply grateful for everything!

The event was heartwarming and gave deeper realizations and understanding about the Cheonshim Won prayer devotion. The prayers gave energy and the testimonies extra inspirations and encouragements to move forwards and do more on the road uniting with True Mother, who is the living Holy Spirit, the Only Begotten Daughter of God, Heavenly Parent. The heavenly fortune started to work already and will work even more from now on. I am looking for and finding people who are prepared and take care of them very well more than ever before. Thank you for giving us in Finland that profound and most meaningful experience.

I am grateful for Heavenly Parent to pour out his love in a country which is so far in the North as Finland. I feel as True Parents is going after us with the earnest wish of Heaven in order to become a Heavenly Finland. I hope our tenth President (*received in 2008 Nobel Peace Prize, worked from his youth to help communication and consultation between Namibia, Kosovo, Northern Island. He died 86 years old on 16th October 2023*) liberated today and can connect to True Father and assist him in the restoration of Finland. While attending the Cheonshim Won prayer devotion we are learning how to support our homeland Korea and resolve the division of the peninsula more effectively, more powerfully. I am grateful for that. Thank you, True Mother. We want to born again in Spirit and Truth of True Parents. Thank you CheonBo Team for helping us to clarify many things during these two days.

Thank you beloved True Parents!
