## **Anna Becker-Yap, Female, Glory House, Netherlands, CheonBo 2-day Event, 2024. 01.21**

**This CheonBo event we were able to help to organize. It was beautiful to see how brothers and sisters worked together. Especially to see my husband working together in the technical team with a couple of brothers, made me feel very happy and proud. Also, to be able to take part in the event together with my husband, was very beautiful and hope giving. I realized that we could accomplish great things, if we work together as husband and wife, and as a community. Thank you for giving us the opportunity and showing us teamwork. I learned that the liberation of Central evil spirit is important to do, also important to finish the liberation and blessing of our ancestors. I believe that it can help to solve many health and relationship problems.**

**Andrea Wirjoredjo-Beer, Female, Glory House, Netherlands, CheonBo 2-day Event, 2024. 01.21.**

**We were attending the workshop in person, Glory House with our whole family. I was happy that my 3 teenage children took part in two Chanyang Yeoksa sessions. The lectures given by Tibor Krebsz and Inpyo Moon were good to follow and gave me a clearer and deeper understanding. I could observe the hard work of the CheonBo team and I am grateful for their efforts. I appreciate that even though it is a serious matter there was still a light atmosphere created by them. My highlight was the Cheonshim Won vigil prayer. It was my first time to join and it was after a long time again that I could feel a deep connection to Heavenly Parent while praying, I found the time for prayer too short, because it was so beautiful to be able to pray deeply and I wanted to continue. The staff of Glory House did an amazing job and made us feel welcome, thank you very much.**

**Elfrid Langenes, Holland, Female, Glory House, Netherlands, CheonBo 2-day Event, 2024. 01.21**

**This was a very intense week for me, culminating with the CheonBo Event on the weekend 20-21. January in Glory House, Holland. I experienced the whole week before the event as part of the CheonBo workshop. A workshop has a purpose of bringing us/me closer to God and True Parents and that is what happened. I had no dreams or special experience, just an overall warm feeling with everything that took place. I am also grateful for the extra “service” of a person in Korea who has the ability to check/read where the Central Evil Spirits have nestled themselves in our bodies – giving me a chance to liberate them. The team is working very hard. Apart from the spiritual input, the technical work deserves a lot of respect! I am also grateful for the explanation of the meaning why to attend the Special Great Works; Also, I understood, for the ancestors who already liberated and blessed to become free of their past lives, to have memories of their troubles past erased through the HJ Offering Ceremony for the Inheritance of Heavenly Fortune. A big thank you to Pres. Moon and his team for staying with this mission!**

**Johannes Campman, Male, Glory House, Netherlands, CheonBo 2-day Event, 2024.01.21. *(First part)***

This was the second time we had the privilege to receive the CheonBo European branch team in our nation of the Netherlands. Each time I hear the presentations of internal guidance by President Inpyo Moon and Reverend Tibor Kresz, I manage to grasp the content deeper and clearer. **The content is deeply spiritual and at the same time very concrete. For me, the points are not just an addition to the Divine Principle; they reflect the essence of the Divine Principle-teaching, and by putting in some effort, I can apply the points directly in my life. The presentations make me aware of my own spiritual reality and the urgency to free myself from my barriers, which I was often not aware I had. I realized that attending CheonBo workshops and Cheonshim Won vigil prayers is not only a great blessing, but actually a necessity in the lives of each human being. I feel I am following the workshops not only for the Heavenly Parent and the world, but for my own benefit to a great extent. Through these events True Mother is giving me her protection, her blessing and healing, more than we could ever receive before. As a result, I feel greater hope to realize the goals and ideals which I have set.**

**Johannes Campman, Male, Glory House, Netherlands, CheonBo 2-day Event, 2024.01.21. *(Second part)***

Participating "live" in a CheonBo workshop in my nation of the Netherlands has given me a strong spiritual boost for internal renewal. It made me experience the strong, deeply moving joyful emotion of being united with each other. Singing, chanting, praying and shouting together creates a strong sense of unity and harmony as brothers and sisters under the Heavenly Parent and True Parents. We lift each other up to a high spiritual level, where together we can touch Heaven. To attend a workshop "in person" was a most powerful experience. Additionally, the CheonBo workshops generally, most of them online, have been beneficial to me. During the past year until now I have attended online the Special Great Works, as well as a good number of CheonBo workshops and additional Cheonshim Won Vigil Prayers. I have some direct experiences, surely, but for me most important has been the deep, indirect impact of these workshops.

Johannes Campman, Male, Glory House, Netherlands, CheonBo 2-day Event, 2024.01.21. *(Third part)*

I am experiencing that gradually my spirit is changing for the better. Bit by bit I am becoming more able to deal with negative feelings that come to me and to cut off from habitual ways of thinking that have blocked me. Slowly but surely, I am managing better to resist impulses of anger, depression, jealousy and false love. I can see that the workshops of this new style are not only addressing my intellect, but are directly transforming my inner self, my heart. This is fearful, somehow, but also and especially it is very hopeful for me! Thank you, True Mother for allowing us to grow to become good human beings, who will ultimately resemble God.

***(First part)***

**My testimony on the CheonBo Event in Glory House, January 2024. As I was participating in the early morning HDH sessions at 6:00 AM by zoom in preparation of the CheonBo event, I increasingly felt Heaven's loving embrace for our nation of the Netherlands. I also felt a special bond developing among the participants in these zoom calls: the CheonBo team led by president Inpyo Moon and the Dutch members participating in the HDH. The testimonies during the sessions were wonderful. The two young couples in the CheonBo team were very inspiring with their youthful joy and energy, their know-how and dedication. With a serving attitude they did their tasks with ease and natural enthusiasm. Very good to experience how these young people dedicate one or two years or more wholeheartedly to this amazing responsibility and live this (no doubt often challenging) lifestyle.**

I also really appreciated the natural approach and clarity with which Mielyn responded to my emails in which I asked advice concerning liberating collaterals. **The event itself was truly amazing. Every single element and detail were prepared really well and carried out with much care and respect. The atmosphere in True Parents' room (Cheon Shim Won) was very high. I normally find it a beautiful atmosphere there, but as I shortly entered to hand in my HJ offering wish papers it really struck me how deep and intense the atmosphere was. One could feel that a lot of deep prayers have been offered to Heaven in that room.** Although there were some small technical issues, I felt that as a whole the event was truly wonderful and widely appreciated, also by the participating European members (zoom). Many of the latter stayed on as long as possible after the program had finished to wave, greet friends and continue to be part of the event. Thank you, President Moon and the CheonBo team!

**Mikael Schold, Male, Glory House, Netherlands, CheonBo 2-day Event, 2024.01.21.**

After being in CheonBo events in both Italy and the Netherlands (both 2nd gen led) it becomes obvious how precious it is when the young generation have the courage to step up and take ownership. **The CheonBo message is of course very powerful itself, regardless of the venue. Explaining the heart of True Mother, True Father and ultimately Heavenly Parent. The spiritual power of the Cheonshim Won prayer vigils and the liberation ceremonies are unquestionable and clearly a way to break down the barriers that sinful history has created between us and God. But it has become clear to me how important the 2nd Gens' leadership is and how much hope and inspiration it gives to members and to Heavenly Parent. God's presence is extra clear when the 2nd Gens takes responsibility.** The future looks bright for the Netherlands with Anna and Steven Yap at the helm. Aju!!

**We as a family are very grateful for True Mother that we were able to participate in the CheonBo seminar in Europe. Our entire family liberated 84 central evil spirits because we found out that they were the reason for our suffering: pain in different parts of the body and recurring illnesses, anger and difficulties in family relationships, it was even difficult to love our children, we were also tormented by recurring dark thoughts and constant fatigue and irritation over little things. Our eldest son suffered especially from Leukaemia. During the seminar, we felt gratitude in our hearts and the love of God. We were able to pray heartistically and sincerely. During the night Cheonshim Won vigil prayer, we were able to get relieved of some resentments. After the CheonBo seminar, we felt peace in our minds, gratitude, happiness, and it became easier to pray. We want to tell other people about CheonBo providence, since we ourselves have experienced God's love. Thank you, True Mother! Thank you very much CheonBo Branch Team!!!**

**Derk van Dorsten, Male, Glory House, Netherlands, CheonBo 2-day Event, 2024.01.21.**

**I just want to express my deep gratitude for the Cheonbo team for their work across Europe and coming to Glory House and having a CheonBo event here in the Netherlands. The team arrived here on the 15<sup>th</sup> of January of 2024. In the days leading up to the event I was fortunate enough to be with them and have many conversations with Pres. Inpyo Moon, Tibor Krebsz and the other members of the team. This taught me valuable insights in True Parents' course and helped me deepen my relationship with True Mother, the only Begotten Daughter of God. There were still many barriers in my heart in relation to True Mother that are step by step being removed through this new understanding on the Only Begotten Daughter, the Chanyang Yeoksa sessions and the Cheonshim Won vigil prayers. I am so grateful for this. During these sessions I felt True Father's presence helping me to remove evil spirits. President Moon also gave me valuable insights and guidance on the removal of central evil spirits in Glory House. The last two vigil prayers together with the European leaders in the Cheonshim Won prayer room in Glory House were very impressive for me. After the vigil prayer on Sunday evening, I realized that something wonderful is happening now! Let us make this the starting point of a new revival in our Dutch and European movement.**

# Thank you beloved True Parents!
