**Christoph Kral, 67, Male, Poland, CheonBo 2-day WS, 2024. 02.11-12**

After the consultation with Prs. Moon, I have decided to liberate “*the remaining*” 11 Central Evil Spirits-CES. Right after that I paid the registration fee for those CES, they became extremely nervous. I could not sit anymore still. I started to stomp with my feet on the floor and screamed loudly. I made strange movements. The CES showed up on the surface. My wife became worried and begged me to become normal again. All my life I lived with the thought that I am “normal” not being aware of the CES living with me. Now they are shaking and we are shocked. Of course, we had experiences of suddenly being aggressive and having arguments in our relationships. Also, the pressure of CES influenced very much our decisions in our life, but we never saw the CES standing behind. Now showing up on the surface, my wife thought I become a different person. But they were always there. I am grateful without being able to express in words about the grace of True Parents that we can liberate CES.

**We are very grateful for having the HJ CheonBo Special Event here in Warsaw Peace Embassy together with Polish, Ukrainian, GPA missionaries. Through our True Parents, True Mother we feel we are one family connected with heart through the heart & love of True Parents. It is my deep desire to offer this CheonBo Special Event as a small condition for peace in the situation with the war where Ukraine is involved. There is so much hope because of the participants of 1<sup>st</sup> & 2<sup>nd</sup> generation young members who are actively involved in witnessing and gave deep testimonies during the Cheonshim Won vigil devotion. This time I liberated all the 13 central evil spirit – CES.**

**During the Chanyang Yeoksa I felt deep repentance for my ancestors for having hurt others so deeply that they were bond to the bodies of their descendants. Especially the resentful spirits. During these repentances towards those CES I felt a very warm, even thankful emotions from them and I felt through that they are ready to go, since I appreciated their pain and hurts. In the past when I felt the spirits in my body, I asked my absolute good ancestors, even ordered them to take away the evil spirits from me. It also worked somehow but now I felt the repentance was better because of my new approach towards CES. Thanks again to True Parents and our CheonBo EUME Branch team, who are investing their heart, time, families in order to help chanyang yeoksa and creating spiritual atmosphere in EUME which is very much needed. There is a lot to do, but most importantly is bringing fruits to our True Parents, True Mother in fulfilling her utmost desire to witness people & bring them to True Parents through spirit and truth. Thank you!**

**Krzysztof Gago, 69, Male, Poland, CheonBo 2-day WS, 2024. 02.11-12.**

***(First part)***

**Dearest Heavenly Parent, beloved True Parents and our True Mother, the Only Begotten daughter of God. Thank You from all my heart for the CheonBo providence. Thank You for my wife, Haruja, who supports me very much from the spiritual world. Today, at the end of the seminar I had a spiritual experience which showed me, how important it is to stay at the CheonBo workshop until the end and conclusion. As Pres. Moon in his final words spoke about “Love” and “Heart” by reading the words of our True Father, I felt the voice of evil spirits who said, that they do not have patience anymore and they do not want to listen no longer about heart and love and about True Parents. And they wanted to make me sleep, and so I began to fight with being tired. I said, that in spite I am tired, I will not sleep. The evil spirits wanted to sleep and I should sleep too and they felt tortured by words about heart and love. I told them, that I love them and that I will not sleep jut to release them. I told them, to leave me alone and to make sightseeing in the spiritual world.**

*(Second part)*

In order, that they may experience all different levels from hell until Paradise. Suddenly every feeling of being tired disappeared. I understand, that during the CheonBo event, in every moment, it is possible to liberate spirits, in case we stay until the end. I am very grateful for everything, what I received and for the hope, I received through the wonderful testimonies of the Young brothers and sisters from the 1st and 2nd Generation members about witnessing and also for their spiritual experiences. And for the certainty that they this beautiful young people, who can inherit the love of True Parents and the truth of the Divine Principle. I am grateful, that they support Poland and, in this way, they also participate in the unification of Korea. With heartfelt gratitude.

**I didn't have any expectations from this CheonBo event, it was my first time attending it. Although I didn't feel anything special during the Chanyang Yeoksa session. I still felt that it was a very special event. Firstly, I understood better who True Parents are for me and for humankind, I felt some part of True Mother's heart when we were screaming in prayer at the Cheonshim Won vigil prayer. I was really touched by how Christoph Kral, Inpyo Moon and Krzysztof Gago shared about True Mother and her providence. Also, by the songs that we sang it got me a little bit more emotional. I cried a lot; I just couldn't stop crying of grief that I felt. I felt like those evil spirits inside me, how much pain they experienced. The last time I was crying was 5 months ago during the prayer at the Holy Ground so it's really difficult for me to shed tears. I'm very thankful to the whole CheonBo team who gave us such a great opportunity to think more about our ancestors. And also, to feel them and especially to help them stop suffering.**

**Anonymus, 25, Female, Poland, CheonBo 2-day WS, 2024. 02.11-12.**

**I took part in such an event for the first time. I prepared myself that it would be a spiritual event and something unusual. After the second Chanyang Yeoksa session I felt pain and regret for my ancestors. And when the Staff from the CheonBo team started to give ansu on my head, I felt an even stronger pain, I wanted to help my ancestors, I started to cry. There were thoughts and wishes that my ancestors also contributed to the fulfillment of God's will and help the True Parents. I also liked the explanation about how and where the bad emotions of ancestors are responsible for different organs. After the seminar, I began to think more often about my ancestors and I need to invest more in order to fulfill my responsibility towards the CheonBo providence. I am grateful to the CheonBo Team and Poland for the opportunity to participate in this event.**

# TESTIMONIES

**Janelle Gimay, 21, Female, Poland, CheonBo 2-day WS, 2024. 02.11-12.**

**This CheonBo event was not my first, in fact it was probably the seventh. But this time was definitely the most special one, because compared to the previous experiences, I wanted to take ownership to have this event as a precious opportunity to go deeper in my relationship with God and True Parents. So, during our prayer in the Cheonshim Won after our first Chanyang Yeoksa session, I personally wanted to recognize the investments and sacrifices made by my ancestors and physical parents for me in order to stand before God as a child in His lineage. With this in my mind, I invested into the sessions and activities with a sincere heart. With that sincerity, my prayer during the Cheonshim Won resonance prayer was truly repentful because of our situation towards God: since the Fall of our first human ancestors, Heavenly Parent had invested tirelessly into the providence because of His unconditional love for us. I felt so sorry that everything is taking so long time because of our failure in fulfilling our portion of responsibility. He is constantly giving 100%, but because of our ultimately lacking true ownership, we're still here with a long way to go. One more thing I want to share is, how this realization strengthened my sense of gratitude towards True Parents, who have offered us a clear path knowing and understanding the heart of our long-hidden Heavenly Parent. Truly I'm grateful, my spirit feels refreshed and I'm feeling more hopeful towards our CheonBo (witnessing) efforts.**

# TESTIMONIES

**Kyong Min Fernandez Misawa, 29, Female, Poland, CheonBo 2-day WS, 2024. 02.11-12.**

**Every time when I can participate in a CheonBo event I feel deep gratitude and peace in my heart. Thanks to these events, if I truly invest with a sincere heart, I know that there is a point where I can be cleared of my fallen nature, worries and fallen ideas that unfortunately we get from this fallen world. Through this event at the third Chanyang Yeoksa session I had actually a spiritual experience. When I was doing ansu on my ears I could hear many voices of people who are going away. From my point of view, it looks like I had many fears because of those people who were gossiping about me. This feeling of fear is less now and my relationship with other brothers and sisters has improved. I feel more confident and freer now. Thank you, True Parents, for opening up this way and thank you Prs Inpyo Moon and all CheonBo staff for working so much to bring this providence to our countries. God bless you.**

# Thank you beloved True Parents!
