Many members gathered to watch an evening of musical entertainment and an incredible Drone Show which True Mother came to experience alongside the members....

On the evening of the 11th of April, many gathered on the grounds outside the Cheonshim Peace Centre for an evening of musical performances including dancing, sing-a-long songs and even a lively band performing Hyo Jin Nim's best hits, all leading up to a drone show featuring over 1000 drones lighting up the sky with the Cheon Won Gung as the backdrop to show beautiful images of peace and True Parents.

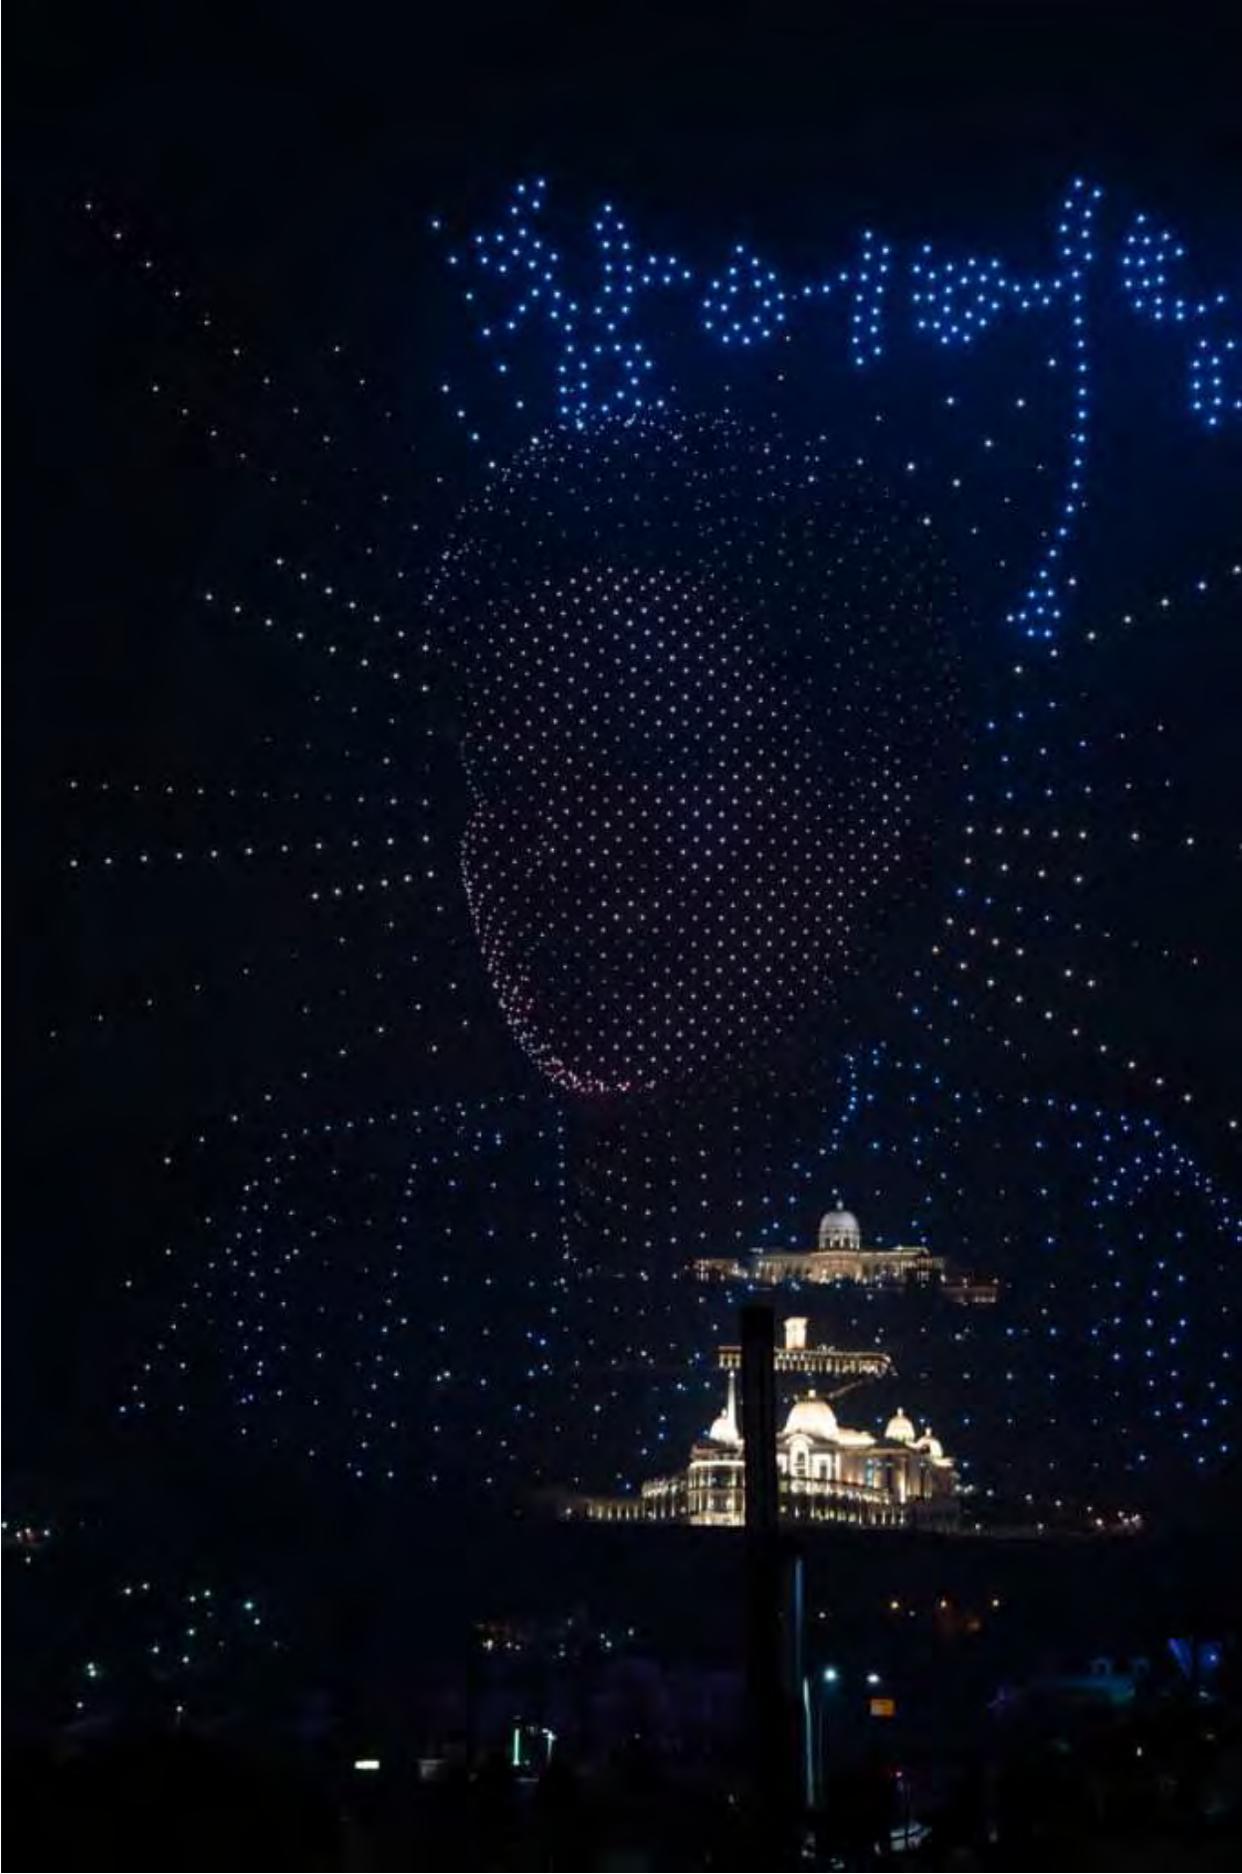

Here is a testimony from a member who was there-

'It was truly just incredible, it was one of the most amazing things I have ever seen, it was beautiful. The

energy of the evening was so positive and everyone was having such a good time, watching the performances and the hillside slowly lighting up as the sun was setting. It was also truly amazing to have True Mother there, watching with us. The drone show was genuinely one of the most impressive things I have ever seen, I loved it. It was amazing to have these images of Cheon Il Guk just lighting up in the sky in front of us. My favourite moment was when the drones created an image of True Parents with them singing together being played through the speakers, it was really emotive and touching for me. The experience of being able to watch the drone show cannot be captured truly by images or video. It is truly something I felt so grateful to witness before the big events and I hope that at some point everyone will get to experience the Drone show too.'
