

Visit of Man ho Kim

Brussels, Belgium, 7. December 2013

We were blessed with a visit from Mr Man Ho Kim accompanied by our European President Ahn at our HQ in Brussels. As a direct envoy of True Parents, Mr Kim took the time to patiently explain and share with us about True Mother's deep concern to invest in and raise up future leaders for our movement through spiritual and management education at the Universal Peace Academy in Korea in the coming years.

Echoing True Mother's words that 'the Royal Family of Heaven is not meant to last only one generation' he gave words of encouragement especially for our second generation brothers and sisters to commit themselves to join the UPA programme when they would become of age.

He offered further encouragement to both parents and children concerning this matter by explaining that, under True Mother's stewardship, some scholarships or financial aid

would be available to families in order to render it feasible for European second gens to devote one or two years to the Universal Peace Academy education for the establishment of the Cheon Il Guk.

We are grateful for this window of opportunity which is being opened for younger brothers and sisters through True Parent's immense heart to protect and secure the future of God's providence for all parts of the world.

After his presentation there was time for questions and answers while later we enjoyed a delicious meal and some more informal chat upstairs. Just before our meeting, accompanied by their assistants, Mr Man Ho Kim and Rev. Ahn also enjoyed a visit to the beautiful Belgian city of Brugge, while after the meeting, they could also take in an impressive visit of Brussels Grand Place by night together with our national leader's couple.
