On the third day of the Great Works, after the final chanyang session in the evening at 6:50 p.m., all the participants offered a prayer of gratitude in unison and offered a round of applause to Heavenly Parent, True Parents, Hyo-jin nim, Heung-jin nim, Dae Mo nim, and absolute good spirits. The chanyang team, lecturers, and all the participants also shared their gratitude with each other.

President Gi-seong Lee gave a: "Now is the time the power of the nation, ethnic barriers, barriers of nationality and religious barriers have been collapsed. The unified world is now spread out in front of our eyes where True Parents bind all the brothers and sisters together as one family under Heavenly Parent and True Parents. When we consider that all the providential works began to settle down centered on the HJ Heaven and Earth CheonBo Training Center, we can't help thinking we came to a truly holy land. I believe that everything you pray here will be conveyed to Heaven. When True Parents were in their most difficult situations, they came here to get answers from Heaven. True Parents came here to offer prayers with life-or-death determination while leading Heaven's providence."
