### 2022 Empowerment For Young Women Leadership On International Participation ~ Become International Leaders By Educating And Empowering Young Women In WFWP Taiwan

WFWP Taiwan held an empowerment session for 20 young women leaders to pay attention to environmental and educational issues, increase young women's influence in their communities, and become young leaders with an international perspective.

Also through the project, WFWP helped to promote and strengthen the international participation of young women in Taiwan, select outstanding young women to participate in parallel events of the UN CSW and NGOs, and various international conferences of the WFWP, and build a network for young women in Taiwan to connect with women around the world on women's issues; and provide participants with opportunities for knowledge building, networking, and best practices.

The special presentations were given by respected speakers, including the Director General of the NGO International Affairs Department of the Ministry of Foreign Affairs, the Director of the New Taipei City Government Secretariat, and the Chief of the Gender Equality Division.
