

## Tribal Messiah Divine Principle introduction night

Andrew Compton  
June 8, 2016

BLESSING and LOVE are the first two words Rev. Compton mentioned.

Upon opening his lecture, brother Compton reminded us of Paul's chapter in Corinthians dedicated entirely to Love. Love is in the family--the School of Love. Then comes happiness that is shared with pure love. Since Cain killed Abel, the ideal love has conflicts, turning into a Pandora box.

Jesus reminded us 2,000 years ago, that God is Love. Reverend Compton mentions in his conclusion that it is necessary for a new chapter titled the NEW PERSPECTIVE, which is the revelation God gave to Reverend Moon, instructing him on how to deal with evil in this world.

Nirvana, Enlightenment or Heaven is for the entire family; not only the individual. Now, how do we achieve this goal? It is through the Blessing of Love, where the family is so important to participate. In this CEREMONY of LOVE, where life becomes eternal, sharing joy and happiness with our generations. These are the highlights of this weeks lecture. -Joseph Kesrawani-

Special thanks to sister Hope to prepare delicious Mexican food for Divine Principle introduction participants.

It was making our fellowship delightful.
