

It is time for Heavenly Parent's dream to be realized on earth through True Parents

Hak Ja Han

March 29, 2023

Breakfast Meeting Hosted by the True Parents of Heaven, Earth, and Humankind for
Cheon Il Guk Leaders
Cheon Jeong Gung

Just as Hwangbo Guk [church president of Subregion 2] prayed a short time ago, it is time for Heavenly Parent's dream to be realized on earth through True Parents after 6,000 years of providential history, of human history. The holy temple in which we can attend our Heavenly Parent has been completed. This is so exciting, joyful, and worthy of our gratitude. When we understand how much Heaven has done up to now, including True Parents, then all blessed families should repent and feel very sorry before God for not achieving this faster, and strive to create an environment that enables us to comfortably attend Heavenly Parent - simply put, this country should become the homeland of Heavenly Parent and True Parents. Are we living in under those conditions?

You need to repent. You must fight to achieve this. Anyway, there's no need to wait until 2027. True Parents' heart and your heart will be the same. However, I am saying that it will not work with the system we've used so far.

I have been saying this since long ago: as of now Cheon Il Guk, our Unificationist community, will advance under a two-tiered system.

Cheon Shim Won will be the internal organization. It must create the environment in which the Cheon Shim spiritual leaders can establish themselves.

Even if you look at Christian history, they haven't known about the spirit world. They awaited the return of Jesus, who had promised to come back. But as they moved forward based on a human-centric approach, they had no knowledge of the spirit world. In other words, since they continued without understanding what kind of being the Creator is and without understanding Jesus' original essence, incidents such as witch hunts resulted from misunderstanding the Holy Spirit's work.

In the Era of True Parents, when heaven and earth are united and Heavenly Parent and True Parents are one, blessed families in Cheon Il Guk have the responsibility to guide and ensure that all 8 billion children worldwide are reborn, resurrected, and established as God's sons and daughters.

If Cheon Won Gung could be dedicated on May 5 with the full support of all 8 billion people, it would be the coming of the kingdom of God on earth. However, a heavenly unified Korea has not yet been achieved in the central nation in Cheon Il Guk. Most especially, we must bring Gapyeong, the capital city of Cheon Il Guk and the original homeland, back to God.

What should we do in order to accomplish this? The Cheon Shim Won training center and the Headquarters must make unity. Overseeing them both is the only begotten daughter, True Mother. This means the time is ripe for us to go out with the spirit and truth. It is no longer sufficient just to deliver good Divine Principle lectures. The spirit world must be under our dominion. This cannot be done by the Mission Headquarters. It is for this reason that I established Cheon Shim Won and its branches around the world. We need the spirit and the truth.

Take a moment to reflect, based on your conscience, on how much love and support Korea has received from True Parents. As grown children, you should no longer cause worry to your parents. Right? Until when are you going to ask your parents to support you?

The answer can be found through spiritual resurrection that supports Cheon Shim Won training, and through real [spiritual] experiences. We must rekindle the passion that the early true elders had as they devoted themselves fully to God's Will and did not worry about what they ate or what they wore. In spite of the fact that they were unaware of the details of the providence, they knew one thing, that they were doing the work of the Messiah; that they were his children.

Therefore, the Korean churches must be able to stand on their own. They can become self-reliant if they become one with their members. Why could you not organize the church work like this?

Pastors should not work for a salary. Support should come from the members. To be reborn as such a church, you must become one with the Cheon Shim Won Training Center. Are you aware of this? [Yes.] Do you understand? [Yes.] All five districts, you understand, right? [Yes, we understand.]
