Victory Celebration Concluding the Events Celebrating True Mother's 80th Birthday

Everyone, I love you!

Upon the appearance of the True Parents, which was both Heavenly Parent's dream and humanity's hope, all couples, including Cheon Il Guk blessed couples and CheonBo couples, become one and serve Heavenly Parent in a substantial way. I am hearing and coming to know their victorious reports, of how they invested their utmost.

This blessing is not just for us now. The substantial environment must be established for Heavenly Parent. To realize such a heavenly unified Korea and heavenly unified world in substance, increased effort and devotion are needed.

Everyone living today should know about Cheon Won Gung and the Cheon Il Sanctum, the realization of humanity's inspiring and long yearned-for dream. We need to show and inform people, and provide them with the opportunity to give the best they can in the role of Heavenly Parent's sons and daughters.

For this, I know you have all worked very hard up until now. Even I have had really difficult times when I could not do anything about the situation. If I reflect on those occasions, however, I realize, however, that Heavenly Parent was with me. All of you have probably had similar experiences. Let us strive to do our very best.
