

Testimony on the first day of South Korean trial

Hak Ja Han
December 1, 2025

December 1, 2025 and the first day of testimony in front of Korean court the judge asked Hak Ja Han if she had anything she wanted to say, the True Mother answered yes.

For over eighty years of my life, I have worked with a dream of watching the Creator Heavenly Father on earth.

The original dream of the Creator, as it was realized in April 2025, is that He wishes to live on earth as the True Parents, embracing His children. This is the principle of creation.

Because I've known this truth, I devoted my whole life - over eighty years - to realizing that dream for the Creator. In order for this dream to be realized, I decided that a palace where the Creator could live must be built. And I put all my heart and strength into this mission.

All my life, I've had no interest in the politics of this nation. My focus has always been peace for humanity and the vision of One Human Family, educating all people so that by attending Heavenly Father they can become a Real Family, receive Heavenly Father's love, and ultimately enter the Kingdom of Heaven.

For this reason, leaders all over the world - whether politics, religion or academia - have long known me as the Mother of Peace, Holy Mother Han. In this case too, they have observed me over many years, and it is true that they are deeply concerned about the current situation...

Thus, many high-level figures sincerely hope that this trial will be conducted fairly and in accordance with democratic principles.

I'm not the kind of person the special counselor describes! I have no reason to fear Heaven - I love Heaven!

Because fulfilling our Heavenly Father's dream on earth has been my lifelong desire and mission.

With regard to this unfortunate incident, if given the opportunity, I sincerely request you to come to Cheonwon in Gapyeong, South Korea and see for yourselves. Come and witness what I have dedicated my life to accomplish.
