The 30,000 Couple International Holy Marriage Blessing

August 25, 1992 Seoul

• Sunhak Institute of History •

On August 25, 1992,
the 30,000 Couple International
Holy Marriage Blessing was held
at the Seoul Olympic Stadium.

The young men and women from 131 nations participated in this blessing ceremony and started their new life under God from this moment.

This blessing ceremony
is the part of

the world culture and sports festival
and represented the human peace.

Additionally, this blessing ceremony was held right after The level of national-level True Parents Proclamation. The blessing ceremony which had been already held were the religion–level event, but from the 30,000 couple blessing ceremony, it opened the age of the globalization of the Blessing.

It was the first time that the blessing ceremony broadcast by satellite, because there were many blessing candidates who were unable to each Korea due to difficulties with flight reservations or other issues.

On the same day,
the 2nd generation's 200 couples blessing ceremony
was also held.

“

In 1992, the International Blessing Ceremony of 30,000 Couples took place. The number 3 is the number of completion and it represents heaven. It refers to the 3 stages of formation, growth and completion. The fact that 30,000 Couples were blessed raises it to the worldwide level. This means that opposition to the mass marriages of the Unification Church is beginning to disappear. The worldwide level is beyond nation, race and culture, so there are no barriers.

Until now, no one could solve the problems that caused these barriers, so people ordinarily married someone from their own nation, their own clan, or a clan with which they already had some relationship. This ceremony removed the barriers between nations, races, religions and cultures for the first time, and so everyone participating in the marriage movement could come together as brothers and sisters. It was a historic international marriage Blessing ceremony. (269-301, 1995.05.01)
